(1) Selon qu'une firme dirige des unités dans divers genres de commerce, le nombre des établissements donné pour un groupe spécifié, quelque soit le genre de commerce, peut être moins que le nombre d'unités indiqué par l'en-tête.

(2) Inclus Yukon et Territoires du Nord-Ouest.

Table 15.—Wholesale Trade by Number of Marketing Units,<sup>(1)</sup> Canada and Its Economic Areas, 1941—Con.

ESTABLISHMENTS GROUPED ACCORDING TO NUMBER OF MARKETING UNITS OPERATED, BY MAJOR TYPES OF OPERATION AND BY KINDS OF BUSINESS

An (x) indicates that figures are withheld to avoid disclosing individual operations, but these are included in the totals.

**VENTES PAR PRODUITS**

## ANALYSIS OF SALES BY COMMODITIES

Table 19 indicates the main commodities handled by each trade and shows the percentage that sales for each commodity class forms of the trade total. With the exception of the petroleum products group, this analysis of sales on a commodity basis is restricted to Wholesalers Proper. In this particular case the analysis is based on the total sales reported by the wholesale distributing companies including the business of their bulk tank stations and also their district and general sales offices. Not all firms were able to furnish a breakdown of their sales on a commodity basis and the table gives figures for only those trades where the proportion of business reported by commodities was sufficiently large to warrant this analysis. All trades are listed in the table, a notation "Insufficient sample" appearing opposite those for which a commodity analysis did not seem warranted.

Under each individual kind-of-business heading there is shown the total number of establishments in that classification, the total sales of these establishments, the number of establishments for which a breakdown of sales by commodity classes was given, the sales of such establishments and the percentage which these sales formed of the total for the trade. For instance, of the 485 establishments reported in the Automotive Parts and Accessories trade and whose sales amounted to \$45,203,600, there were 423 which gave sales figures by commodities. Sales of these firms amounted to \$39,299,600 or 86.9 per cent of the trade total.

The first column in the table shows the number of establishments which reported sales of a particular commodity. Thus, in the automotive parts and accessories trade, sales of automotive equipment, parts and accessories were reported by 395 establishments; 77 establishments handled radio sets, tubes, parts and accessories; while petroleum products were sold by 70 establishments.

The percentages shown in the second column indicate the proportions which sales of various commodities form of the total sales for that kind-of-business class. The residual "All other", appearing at the end of each list of commodities handled, represents a miscellaneous group of items whose individual sales were too small to warrant separate listing. For example, automotive equipment, parts and accessories formed 80.2 per cent of the total sales reported by the automotive parts and accessories trade; paints, varnishes, lacquers and enamels formed 1.9 per cent; radio sets, tubes, parts and accessories formed 3.4 per cent while 2.6 per cent of the sales of this trade consisted of unspecified commodities, or specified commodities for which the value of sales was less than 0.05 per cent of the total.

Major commodity groups are subdivided where possible into more detailed commodity headings. Not all establishments were able to give this more detailed breakdown. Consequently, their sales have been grouped under the heading "not analysed in detail" at the end of each major group for which a detailed commodity breakdown is shown. For instance, in the automotive parts and accessories trade, the broad commodity classification "automotive equipment, parts and accessories", forming 80.2 per cent of the total sales of the kind-of-business group, is made of 5.8 per cent batteries, 12.3 per cent automotive accessories, 44.0 per cent automotive parts, 5.8 per cent tires and tubes, (for those firms reporting this more detailed analysis), while the residual 12.3 per cent represents the commodity group total for 80 firms which were unable to break their figures down in more detail.

The third column gives the percentage distribution of the major commodity groups between the various detailed commodities, for only those firms which provided the full commodity breakdown. Thus, the sales of automotive equipment, parts and accessories reported by those 315 establishments in the automotive parts and accessories trade which were able to give complete details consisted of 8.5 per cent batteries, 18.1 per cent accessories, 64.9 per cent parts and 8.5 per cent tires and tubes.

A complete list of the commodities for which data were secured is shown on the Wholesale Schedule No. 1 in Appendix C. The numbers which appear in brackets after each commodity in the table refer to the commodity listing on the schedule.

## ANALYSE DES VENTES PAR PRODUITS

Le tableau 19 montre les principaux produits entrant dans chaque genre de commerce et indique le pourcentage de ventes de chaque classe de produits dans le commerce global. A l'exception du groupe des produits du pétrole, cette analyse des ventes d'après le produit est limitée aux grossistes-réguliers. Dans ce cas particulier l'analyse repose sur les ventes globales déclarées par les distributeurs en gros, y compris celles de leurs dépôts d'essence et également de leurs bureaux de ventes généraux et de district. Les établissements n'ont pas tous pu fournir le détail de leurs ventes d'après le produit et le tableau donne les chiffres des établissements seulement dont la proportion de commerce déclarée par denrée était suffisamment considérable pour justifier cette analyse. Tous les commerces sont énumérés dans le tableau, une annotation "échantillon insuffisant" paraissant en regard de ceux pour lesquels une analyse par produit ne semblait pas justifiée.

Sous chaque en-tête de genre de commerce individuel sont donnés le nombre total d'établissements dans cette classification, les ventes globales de ces établissements, le nombre d'établissements pour lesquels une décomposition des ventes par classes de produit a été donnée, les ventes de tels établissements, et le pourcentage de ces ventes par rapport au commerce global. Par exemple, des 485 établissements déclarés dans le commerce des pièces et accessoires d'automobile et dont les ventes s'élèvent à \$45,203,600, il y en a 423 qui ont donné les chiffres de leurs ventes par produits. Les ventes de ces établissements s'établissent à \$39,299,600 ou 86.9 p.c. du commerce global.

La première colonne du tableau montre le nombre d'établissements qui ont déclaré les ventes d'un produit particulier. Ainsi, dans le commerce des pièces de rechange et accessoires d'automobile, 395 établissements ont déclaré des ventes d'outillage, pièces et accessoires de véhicules-moteur; 77 établissements vendent également des radios, lampes, pièces de rechange et accessoires; tandis que 70 établissements vendent des produits du pétrole.

Les pourcentages montrés dans la deuxième colonne indiquent la proportion de ventes de divers produits au regard des ventes globales pour la classe selon le genre de commerce. L'item "tous autres", paraissant à la fin de chaque liste de produits, représente un groupe de divers articles dont les ventes étaient trop peu considérables pour justifier une énumération séparée. Ainsi, l'outillage, les pièces de rechange et accessoires de véhicules-moteur, forment 80.2 p.c. des ventes globales déclarées par le commerce des pièces de rechange et accessoires d'automobile; les peintures, vernis, laques et émaux forment 1.9 p.c.; les radios, lampes, pièces de rechange et accessoires forment 3.4 p.c., tandis que 2.6 p.c. des ventes de ce commerce consiste de produits non spécifiés, ou de produits spécifiés pour lesquels la valeur des ventes est inférieure à 0.05 p.c. du total.

Les principaux groupes de produits sont divisés lorsque la chose est possible sous des entêtes plus détaillées de produits. Les établissements n'ont pas tous pu donner cette décomposition plus détaillée. En conséquence, leurs ventes ont été groupées sous l'en-tête "non analysé en détail" à la fin de chaque groupe principal pour lequel une décomposition détaillée de produits est donnée. Par exemple, dans le commerce des pièces de rechange et accessoires d'automobile, la vaste classification de produits "outillage, pièces de rechange et accessoires de véhicules-moteur", formant 80.2 p.c. des ventes globales de ce genre de commerce, est composée de 5.8 p.c. d'accumulateurs et piles, 12.3 p.c. d'accessoires de véhicules-moteur, 44.0 p.c. de pièces de rechange, 5.8 p.c. de pneus et chambres à air, (pour les établissements à déclarer cette analyse plus détaillée), tandis que le reste, 12.3 p.c., représente le total du groupe de produits pour 80 établissements qui n'ont pu décomposer leurs données plus en détail.

La troisième colonne donne la distribution proportionnelle des principaux groupes de produits entre les divers produits donnés en détail, pour les seuls établissements qui ont fourni une pleine décomposition des produits. Ainsi, les ventes d'outillage, pièces de rechange, et accessoires de véhicules-moteur, déclarées par ces 315 établissements dans le commerce des pièces et accessoires d'automobile et qui ont pu donner des détails complets, consistent de 8.5 p.c. d'accumulateurs et piles, 18.1 p.c. d'accessoires, 64.9 p.c. de pièces de rechange et de 8.5 p.c. de pneus et chambres à air.

Une liste complète des produits pour lesquels des données ont été sollicitées paraît dans le Questionnaire de Gros N° 1 de l'Appendice C. Les numéros qui paraissent entre parenthèses après chaque produit dans le tableau réfèrent à l'énumération du produit dans le questionnaire.

## APPENDIX A

### SUMMARY OF WHOLESALE TRADE IN CANADA, 1930.

This appendix contains a table giving a summary of the results of the wholesale trade section of the Census of Merchandising and Service Establishments for 1930 as presented in Volume XI of the 1931 Census Report. Due to differences in scope and coverage, direct comparisons between the results shown here for 1930 and those contained in the main body of this report for 1941 should be made with caution.

In the first instance the mailing list of business firms used for the earlier census was restricted to the listings prepared by the population census enumerators, supplemented wherever possible by additional names secured from trade directories. The census enumerators' lists for 1941 were checked against a complete index of all firms licensed to operate under the authority of the Wartime Prices and Trade Board. In this way a considerable number of additional names were added, particularly persons or firms engaged in the purchase and sale of farm products and having no established place of business.

Chain store warehouses were considered as wholesale trading establishments for the 1930 Census but were omitted from the corresponding work for 1941. Details regarding the operations of chain store warehouses in 1941 are given in a separate section of the retail trade report devoted to chain stores and appearing in the appendix to Volume X of the 1941 Census Report.

The procedure followed in dealing with line elevator companies differed for the two periods. In the earlier census the selling function of these companies was stressed. Each company was considered as one unit and one report covering the activities of the head office and sales organization alone was filed. The dollar volume of business shown in the census report for that year represents head office sales and this sales volume was attributed in its entirety to the head office address.

In the Census of 1941 the assembling rather than the selling function of these elevators has been reflected in the tables. The head office organization was omitted altogether but each local elevator was considered as a unit and appears in the census tables in the locality in which it was located. The volume of business shown for line elevators represents payments to farmers at the local elevator points. This difference in procedure results in the showing of a greatly increased number of establishments for this classification in 1941 compared with 1930. It results in a reduction in volume of business attributed to Winnipeg, where most of the line elevator head office organizations are located, and a corresponding increase in the volume of business attributed to the smaller towns and rural points which serve as points of assembly for the grain trade in the Prairie Provinces.

Differences in methods of classification also affect comparisons of the results for the two years. For example, export merchants, dealing chiefly in bulk commodities such as grain or lumber, are assigned to the broad group known as "Wholesalers Proper" in 1941 but were excluded from this group in 1930 and appear as a special category under "Other Wholesale Establishments".

Other differences in procedure affect the results shown for district or general sales offices and manufacturers' sales branches. In particular, the figures for 1930 include certain sales offices situated at the same location as the manufacturing plant which are omitted from the results for 1941.

The table appearing in this appendix permits comparisons only by broad categories by kinds of business and types of operation. For the detailed statistics for 1930, the reader is referred to Volume XI of the 1931 Census Report.

## APPENDICE A

### RÉSUMÉ DU COMMERCE DE GROS AU CANADA, 1930

Cet appendice contient un tableau donnant un sommaire des résultats de la section du commerce de gros du Recensement des établissements de commerce et de services pour 1930, tels que présentés dans le volume XI du Rapport du Recensement de 1931. A cause de différences dans l'ampleur et la portée, les comparaisons directes entre les résultats montrés ici pour 1930 et ceux contenus dans le corps de ce rapport pour 1941 doivent être faites avec précaution.

En premier lieu, les listes d'adresses des établissements commerciaux employées pour le recensement précédent étaient limitées aux énumérations préparées par les énumérateurs du recensement de la population, allongées lorsque la chose était possible par des noms additionnels tirés des annuaires de commerce. Les listes des énumérateurs du recensement de 1941 ont été revues à la lumière d'un index complet de tous les établissements possédant une licence d'opération de la Commission des prix et du commerce en temps de guerre. De cette façon, un nombre considérable de noms additionnels ont été ajoutés, particulièrement de personnes ou de compagnies engagées dans l'achat et la vente de produits agricoles et n'ayant aucun local fixe d'affaires.

Les entrepôts des chaînes de magasins ont été considérés comme établissements de gros au recensement de 1930 mais ils ont été omis en 1941. Des détails sur les opérations des entrepôts de chaînes de magasins en 1941 sont donnés dans une section séparée du rapport du commerce de détail réservée aux chaînes de magasins et paraissant à l'appendice du volume X du Rapport du Recensement de 1941.

La méthode suivie dans l'énumération des compagnies d'élévateurs en chaîne diffère pour les deux périodes. Dans le recensement précédent, il a été appuyé surtout sur la fonction de vendeur de ces compagnies. Chaque compagnie était considérée comme une unité et un seul rapport était rempli couvrant les activités du siège social et de l'organisme de vente. Le volume-dollars de commerce donné dans le rapport du recensement pour l'année en question représente les ventes du siège social et ce volume des ventes était attribué en entier à l'adresse du siège social.

Au recensement de 1941 le rassemblement plutôt que la vente par ces élévateurs est reflété dans les tableaux. L'organisation du siège social a été tout à fait omise mais chaque élévateur local a été considéré comme une unité et paraît dans les tableaux du recensement dans la localité où il est situé. Le volume d'affaires montré pour les élévateurs en chaîne représente les paiements versés aux fermiers aux élévateurs mêmes. Cette différence dans la méthode a résulté en une forte augmentation du nombre d'établissements pour cette classification en 1941 comparative-ment à 1930. Elle a entraîné une réduction dans le volume d'affaires attribué à Winnipeg où sont situés la plupart des sièges sociaux des élévateurs en chaîne, et une augmentation correspondante dans le volume d'affaires attribué aux plus petites villes et points ruraux qui servent de points de rassemblement pour le commerce du grain dans les Provinces des Prairies.

Les différences dans les méthodes de classification ont également affecté les comparaisons des résultats pour les deux années. Par exemple, les marchands exportateurs, s'occupant principalement de produits en vrac tels le grain et le bois d'œuvre, sont assignés au vaste groupe connu comme "Grossistes réguliers" en 1941, mais ils ont été exclus de ce groupe pour 1930 et paraissent comme catégorie spéciale sous "Autres établissements de gros".

D'autres différences dans la méthode affectent les résultats montrés pour les bureaux de ventes de district ou généraux et pour les succursales de ventes des manufacturiers. En particulier, les chiffres de 1930 comprennent certains bureaux de ventes situés au même endroit que l'établissement manufacturier qui sont omis des résultats de 1941.

Le tableau paraissant dans cet appendice permet seulement les comparaisons par vastes catégories selon le genre d'affaires et le genre d'opérations. Pour les statistiques détaillées de 1930 le lecteur est référé au Volume XI du Rapport du recensement de 1931.

| 62   | 17,257               | -   | -                    | 25  | 1,954                | -   | -                    | -   | -                    | 2   | (x)                  | 29       |
| 17   | 59,877               | -   | -                    | 11  | 4,994                | -   | -                    | 4   | 4,677                | 2   | (x)                  | 30       |
| 64   | 31,572               | -   | -                    | 66  | 15,009               | 1   | (x)                  | -   | -                    | -   | -                    | 31       |

Toute différence entre les totaux et la somme des item individuels est due à la nécessité d'ajuster les chiffres à un millier près.

## APPENDIX B

### KIND-OF-BUSINESS DESCRIPTIONS

For census purposes each establishment is assigned to a kind-of-business category according to a classification scheme prepared for this purpose. Establishments engaged in wholesale trading are generally more restricted as to the number of different commodities carried than is the case with retail stores. For this reason the classification of wholesale firms by kind of business conforms more closely with the commodity composition of the business than in the retail field. Here the diversity of the products carried is frequently such that popular designation or the general description of the business as furnished by the respondent must often be the criterion on which the classification is made.

The kind-of-business classifications for the wholesale trade were tentatively prepared prior to the taking of the census of 1941 and the census returns were first classified according to this provisional scheme. These original classifications were then amended in some instances after a careful inspection of the reports assigned to each category. In some cases a more detailed classification by kind of business than that originally provided was warranted. More frequently it was found desirable to reduce the number of classifications, either because of the limited number of firms engaged in each trade or in view of the lack of a clear-cut distinction in the commodity composition of the kinds of business for which separate categories had originally been suggested.

The wholesale field is first divided into 25 major kind-of-business groups, each group consisting of firms engaged in more or less closely related trades. Most of these groups are divided into a number of major categories many of which are subdivided into more detailed individual classifications. A description of the content of each kind-of-business classification used in the wholesale census for 1941 is given in the following paragraphs.

#### AMUSEMENT, SPORTING AND PHOTOGRAPHIC GOODS

**Sporting goods (general line).**—This group consists of firms handling a complete line of sporting goods (fishing, hunting, skating, skiing, golf, tennis, baseball, etc.). Bicycles, toys and games are sometimes carried. Gymnasium equipment and bowling alley and billiard parlour equipment may also be sold.

**Toys, novelties and fireworks.**—Firms specializing in the sale of toys and novelties. Souvenirs, greeting cards and post cards, china, glassware, leather goods, stationery and school supplies may also be carried, but the sale of toys predominates. Included are firms dealing in hobby supplies such as model airplanes, boats, trains, and equipment and supplies for building same. Baby carriages are also sold as a subsidiary line to children's wheel goods.

**Other amusement and sporting goods.**—Firms specializing in the sale of one particular type of amusement or sporting goods, such as bicycles, golf goods, fishing tackle, billiard or bowling supplies. Also those firms carrying several items, but not a complete line of sporting goods.

**Cameras and photographic supplies.**—Firms specializing in the sale of cameras and/or photographic materials and supplies. Such items as photographic plates, papers, frames, mounts, chemicals, and films are generally carried. Frequently developing, printing or enlarging is done, usually for drug stores or other retailers.

**Motion picture apparatus and supplies.**—This classification includes firms specializing in the sale of motion picture theatre equipment and supplies such as projection and sound equipment, lamps, carbons, rectifiers, screens, etc. Some firms also handle theatre tickets, seats and films.

**Motion picture films.**—This group consists of the film exchanges through which films are distributed to motion picture theatres. The amount of business reported represents the revenue derived from the rental of films and also from the sale of advertising material.

## AUTOMOTIVE

**Automotive parts and accessories.**—Firms engaged in the wholesale distribution of automotive parts and/or accessories (new and used). In addition to automotive parts and accessories, firms in this classification frequently handle other automotive equipment such as batteries, tires and tubes, oil and greases, and garage equipment and supplies. Electrical appliances such as radios and refrigerators are sometimes handled in minor quantities, also hardware and tools, leather goods and harness, sporting goods and mechanical rubber goods. Some firms also do some repair work and in such cases, receipts from services are included in the total volume of business. When batteries (dry or storage) constitute the major commodity handled, the firm has been classified under "other electrical specialties". Firms specializing in garage equipment or supplies as distinguished from accessories and parts to be installed in motor vehicles have been assigned to the commercial equipment and supplies classification rather than here.

**Tires and tubes.**—Firms specializing in the sale of tires and tubes (new and used). Other items such as gas, oil, batteries, auto parts and accessories, radios, mechanical and other rubber goods may be carried in minor quantities. Firms buying old tires and vulcanizing or retreading them for resale have been included. Certain firms make repairs but service receipts must form a minor part of the total business.

**Other equipment.**—This classification includes firms which do not readily fall into either of the preceding classes. It includes firms selling trailers, truck and dump bodies, auto bodies, auto body and upholsterers' supplies, power and mechanical braking materials, automotive supplies such as lacquers, rubbing compound, auto polish, wax, upholstery cleaner, etc.

**Motor vehicles.**—Firms specializing in the wholesale distribution of motor vehicles, both new and used, including commercial vehicles, passenger cars and motor-cycles. Parts and accessories for these vehicles are usually handled by such firms and sometimes trailers, tractors, logging equipment or farm machinery as subsidiary lines. Firms specializing in farm tractors have been classified under the farm machinery and equipment group.

## CHEMICALS, DRUGS AND ALLIED PRODUCTS

**Alcoholic beverages.**—Firms engaged in the distribution of alcoholic beverages. This classification includes importers and import agents of spirits and liquors as well as brewers' and distillers' distributing warehouses and sales branches. In the province of Quebec, the brewer's agent occasionally handles soft drinks as well as beer.

**Dyestuffs and allied products.**—Firms specializing in the sale of dyestuffs—*aniline*, coal tar dyes, *dycwood* extract (for industrial use). Other chemicals may be handled as subsidiary lines.

**Other industrial chemicals.**—Firms specializing in the sale of chemicals, chiefly heavy chemicals, used for industrial purposes—*acids*, *alkalis*, *salts*, *gases*, etc.

**Drugs and drug sundries (general line).**—Firms carrying a general and complete line of drugs and drug sundries, including pharmaceuticals, patent medicines and drug sundries. Toilet preparations and soaps are usually carried and frequently photographic supplies, confectionery, tobacco, stationery, and medical, surgical and hospital equipment and supplies.

**Drugs and patent medicines (specialty lines).**—Firms specializing in the sale of drugs, pharmaceuticals or patent medicines. Many general line wholesalers sell more patent medicines than any other commodity. Firms are not assigned to this group if a general line is handled unless drugs and patent medicines form 80 per cent or more of the total sales.

**Drug sundries.**—Firms specializing in the sale of drug sundries such as toilet articles, druggists' rubber goods, heating pads, razor blades, bandages, dressings, adhesive tape, hair nets, foot aids, etc.

**Paints, varnishes, lacquers and enamels.**—Firms specializing in the sale of paints, varnishes, lacquers, etc. A few firms carry floor-finishing materials, brushes and other painters' supplies, but paints, varnishes and enamels generally predominate. Where it was clear that a general line of decorators' supplies was handled, i.e. paint, wallpaper, brushes, wiping cloths, etc., the firm was assigned to the building materials group.

**Soaps and toilet preparations.**—Firms specializing in the sale of soaps, either toilet or laundry soaps, or toilet preparations, i.e. cosmetics, toothpaste and tooth powder, hair dyes. Beauty parlour supplies and drugs or drug sundries may be sold in smaller quantities. Cleaning compounds and other chemical products are sometimes handled along with laundry soaps.

**Other chemicals, drugs and allied products.**—Firms specializing in chemical or allied products other than those for which separate classifications are provided. Includes firms specializing in such items as explosives, sanitary supplies, insecticides, animal medicines, plastic materials, cellulose products, household cleaning supplies, e.g., javel water, polishes, etc., and medicinal herbs, seeds, roots, etc. Also firms handling combinations of the specialty lines of chemicals, drugs and allied products with no one predominating.

### COAL AND COKE

This classification includes the following types of business: (a) firms dealing in a more or less general and complete line of coal including both anthracite and bituminous with the addition of coke in some instances, (b) firms specializing in the sale of bituminous or anthracite only, and (c) firms specializing in the sale of fuels other than coal such as coke. Included also are a considerable number of firms whose reports indicated that they were wholesale dealers in coal but did not indicate whether a general or specialty line was carried.

The distinction between wholesale and retail in the coal trade is not always clearly defined. Sales to other dealers and to large industrial users are definitely wholesale while sales to individual householders are retail. The allocation of firms to the retail or wholesale section of the census was made partly on the basis of the general designation of the business as between wholesale or retail as indicated on the census return. It was made partly on the basis of the information furnished regarding the distribution of sales according to type of customer. In doubtful cases reference was made to the lists of wholesale and retail dealers maintained by the Coal Administration of the Wartime Prices and Trade Board.

### DRY GOODS AND APPAREL

**Clothing and/or furnishings (general line).**—Firms which do not possess the necessary attributes of a general line dry goods wholesaler and in which the sale of men's and women's wear together form 50 per cent or more of the total business. Both men's and women's wear must be sold but sales of neither one can predominate to the extent of 80 per cent of the sum of the two. The types of men's clothing carried by firms in this category consist almost entirely of men's furnishings or men's work clothing. Men's suits and overcoats are not carried. A more complete line of women's apparel is frequently carried including women's coats, suits and dresses in addition to hosiery, lingerie and children's or infants' wear. A mixed line of clothing is the general rule in this trade. Only in a few instances do firms specialize in one commodity such as hosiery or gloves.

**Clothing and/or furnishings (men's).**—Firms specializing in men's wear and which do not possess the characteristics of a general line dry goods business. If women's wear is also carried in addition to men's, the sales of the latter must form 80 per cent or more of the sum of the two before this classification is used. Otherwise, the firm is assigned to the preceding general line clothing group. This classification includes a number of firms, chiefly manufacturers' agents, specializing in the sale of men's outerwear. It also includes firms specializing in men's hats.

**Clothing and/or furnishings (women's).**—Firms specializing in women's wear and which do not possess the characteristics of the general line trade. If men's wear is also carried, sales of women's wear must form at least 80 per cent of the combined clothing sales. Included in this classification are firms carrying a general line of women's apparel and also a considerable number specializing in one commodity such as gloves, hosiery or suits and dresses. Manufacturers' agents are important in the latter case. A good many firms combine the sale of women's wear with that of notions and smallwares.

**Furs and fur clothing.**—Firms specializing in the sale of fur clothing (generally coats or neckpieces) or fur cuttings and pieces. Firms which deal chiefly in raw or dressed furs are assigned to the farm products group.

**Millinery and millinery supplies.**—This classification is comprised chiefly of firms dealing in milliners' supplies rather than in finished millinery. The items carried include straw and felt bodies, artificial flowers, feathers, ribbons and laces, pins and ornaments, veiling, sizing, varnish and glue.

**Dry goods (general line).**—Firms carrying a general line of textile products including clothing, notions and smallwares, piece goods, house linens and draperies. Carpets, rugs and, to some extent, shoes may be carried. The characteristics required for this classification are as follows. (1) Men's and women's clothing or furnishings must be sold and sales of these commodities must form from 20 to 70 per cent of the total business. In most instances the sale of men's and women's apparel range from 30 to 40 per cent of the total turnover. (2) At least three of the following commodity groups must be carried in appreciable quantities.

- (a) Notions and smallwares (ribbons, laces, threads, buttons, neckwear, purses, umbrellas, shopping bags, etc.).
- (b) Piece goods.
- (c) Bedding and house linens.
- (d) Curtains, draperies and upholstery fabrics.
- (e) Yarns.

**Notions.**—A definite classification consisting of firms specializing in the sale of notions or smallwares such as ribbons, laces, thread, buttons, neckwear, purses, umbrellas, etc. Most of the firms in this category deal in a general line of these items but a number specialize in one commodity such as buttons or slide fasteners. Firms specializing in tailors' trimmings are included here. Some firms combine the sale of notions with drug sundries, yarns or piece goods.

**Piece goods.**—This category is comprised almost entirely of firms selling piece goods only, either a general line or a specialty line. In addition it includes a few firms selling a broader line of textile products—notions, piece goods, house linens and draperies with piece goods forming at least 50 per cent of the total business.

**Shoes and other footwear.**—Most of the firms in this category sell footwear only. Gloves, wearing apparel, leather or cut stock and shoe findings were occasionally reported as being sold in minor quantities in addition to shoes.

**Other dry goods and apparel.**—This classification consists chiefly of two main types: (1) firms for which the description of the business or for which the commodity information as furnished was too meagre to permit assigning to a more detailed classification, and (2) firms which did not fulfill the requirements for either the general line dry goods class or any of the specialty classifications. Included here are a considerable number of firms selling notions and smallwares, piece goods, household linens and draperies but in which no one of these items accounted for as much as 50 per cent of the total business.

## ELECTRICAL GOODS

**Electrical appliances (including refrigeration).**—This classification includes establishments which cannot be classified as carrying a general line of electrical merchandise and which either specialize in one line of household appliances or in a general line of such appliances. Firms which specialize in commercial refrigeration are also included here. Firms which carry both

radios and appliances are classified to this category or to the radio group according to their major activity. Firms specializing in the sale of lamps or shades are not included here but are assigned to the furniture and house furnishings group.

**Electrical apparatus and equipment.**—Included here are firms specializing in the sale of telephone equipment or in the sale of equipment for the generation, transmission or conversion into mechanical power of electrical energy. The commodities most frequently carried in this trade include electric motors or parts, generators or parts, switchboards, transformers, control apparatus, voltage regulators, circuit breakers, starters.

**Electrical merchandise (general line).**—Firms assigned to this classification carry a fairly complete line of electrical equipment and supplies. Three of the following four main groups of electrical commodities must be sold in order to qualify for assignment to this classification: (1) wiring supplies and construction materials, (2) apparatus and equipment (motors, generators, control apparatus, transformers, etc.), (3) radio sets, (4) electrical appliances (refrigerators, washing machines, ranges or stoves, etc.).

**Radios and radio equipment.**—This is a definite classification consisting of firms which cannot be considered as carrying a general line of electrical merchandise and in which the sale of radios, radio parts or both radios and parts predominate. Appliances may be sold but as a secondary item. Firms specializing in the sale of public address systems are included here.

**Wiring supplies and construction equipment.**—This classification includes firms engaged principally in the distribution of either interior or exterior electrical wiring for construction purposes. It includes firms selling wire cable, conduits and conduits materials, poles, cross arms, insulators, etc. It also includes firms selling lighting fixtures (residential, commercial or industrial), or firms specializing in the sale of street lighting equipment. Included here also are firms specializing in signal systems.

**Other electrical specialties.**—This classification includes two main subdivisions. In the first instance it includes firms specializing in electrical commodities and to which the preceding classifications are not applicable. Included are firms specializing in the sale of batteries, bulbs, or fluorescent lighting equipment. This group also includes firms for which the reports received did not give a sufficiently detailed description of the business carried on to permit of assigning them to a specialty or to the general line group.

### FARM PRODUCTS (raw materials)

**Flowers and nursery stock.**—Firms specializing in the sale of flowers and nursery stock. Florists' supplies such as wire designs for wreaths, ribbon, etc. may be carried in minor quantities.

**Grain.**—Firms specializing in the sale of grain, whether carrying a specialized line or a general line of grain products.

**Furs (raw and dressed).**—Firms specializing in the sale of raw or dressed furs.

**Hides and skins.**—Firms selling hides and skins. Furs, tallow and wool are sometimes handled.

**Wool and mohair.**—Firms specializing in raw wool.

**Horses.**—Firms engaged primarily in buying and selling horses.

**Other livestock.**—Firms specializing in the purchase and sale of hogs, cattle, calves, sheep and lambs, or some combination of these items.

**Tobacco (leaf).**—Firms specializing in the sale of leaf tobacco.

**Other farm products.**—Includes all firms engaged chiefly in the distribution of raw products which do not fall under any of the headings for which special provision is made. Firms specializing in raw cotton, raw silk, raw sugar, or in rice, feathers, horsehair, etc.

## FARM SUPPLIES

Firms were assigned to this group only when it was apparent that the commodities handled were to be used chiefly as farm supplies. Firms specializing in the sale of grain were not included here unless this condition was fulfilled.

**Fertilizer and fertilizer materials.**—Includes firms specializing in the sale of fertilizer.

**Hay, grain and feed.**—Firms selling a general line of feed for cattle or poultry. Flour is sometimes handled as a subsidiary item.

**Seeds.**—Firms specializing in the sale of field seed, such as clover, timothy, corn, peas, beans, etc., or garden seeds. Cleaning of the seed is sometimes done.

**Other farm supplies.**—Firms dealing in farm supplies but which cannot be classified under any of the specialized classifications. Also firms handling a general line of farm supplies with no one line predominating. This may include feed, fertilizer, seeds, binder twine, fencing, groceries, etc.

## FOOD PRODUCTS (except groceries)

**Confectionery.**—Firms specializing in the sale of candy, chewing gum, ice cream cones, or selling a combination of these items. Biscuits or tobacco are sometimes carried in minor quantities.

**Soft drinks.**—Firms specializing in the sale of soft drinks.

**Dairy products.**—Firms specializing in the sale of butter, cheese, ice cream, milk and cream, or a combination of these items.

**Dairy and poultry products.**—Firms engaged in the sale of both dairy and poultry products. Both dairy and poultry products in appreciable proportions must be sold before a firm is assigned to this class. If the larger component comprises 80 per cent or more of the total sales the firm is assigned to the appropriate specialty class.

**Poultry and poultry products.**—Firms specializing in the sale of eggs or poultry, or both eggs and poultry.

**Fish and sea foods.**—Includes firms engaged in the wholesale distribution of fish. This class includes exporters and firms classifying themselves as producers and exporters. It also includes a considerable number of wholesale merchants, as well as a number of buyers who buy directly from fishermen and usually sell to wholesalers.

**Fruits.**—Firms specializing in the sale of fresh fruit only or where vegetable sales form less than 20 percent of the total business.

**Fruits and vegetables (general line).**—Firms selling both fresh fruits and vegetables but where sales of neither of these two components exceeds 80 per cent of the total business.

**Vegetables.**—This class is made up largely of dealers in potatoes, turnips, or potatoes and turnips. A certain number handle vegetables other than potatoes but the number is small.

**Meats and meat products.**—Firms engaged in the wholesale distribution of fresh meat cooked meat or meat products. Firms selling canned meats are included in the canned foods classification rather than here.

**Produce.**—Firms selling a combination of the foregoing groups of food products and in which sales of no one group predominates to the extent of 80 per cent of the total business. Also firms specializing in the sale of honey or other food products not elsewhere specified. Included also are firms which indicated that they sold produce or provisions but gave no further details regarding the commodities which they sold.

## FOREST PRODUCTS (except lumber)

**Pulpwood.**—Firms specializing in the sale of pulpwood. Lumber, ties, and posts may be sold but not as the major item.

**Other forest products.**—Firms selling such commodities as wooden boxes, cooperage, firewood, logs, piles, posts, railroad ties, sawdust, laths, shingles, veneer, wood pulp. Firms specializing in the sale of matches are assigned to the miscellaneous classification.

## FURNITURE AND HOUSE FURNISHINGS

**Furniture.**—This class is comprised of firms selling a general or specialized line of household furniture. The classification is restricted to household furniture only. Firms dealing chiefly in office furniture are assigned to the office and store equipment and supplies group rather than here.

**Brooms and brushes.**—Establishments specializing in the sale of brooms, brushes or mops for household use. Firms specializing in the sale of paint brushes are assigned to the hardware specialty trade.

**China, glassware, crockery, pottery.**—A clear-cut classification consisting of firms specializing in the commodities mentioned. Firms whose reports indicated that they specialized in the sale of hotel or restaurant tableware were assigned to the commercial equipment and supply group rather than here.

**Floor coverings, bedding, draperies, etc.**—This classification is comprised of firms specializing to the extent of at least 50 per cent of their total annual business in the sale of one or a combination of the following products: floor coverings, such as rugs, carpets, linoleums; curtains, draperies and drapery materials; bedding such as blankets or pillow cases.

**Other house furnishings.**—This classification includes establishments specializing in the sale of house furnishings other than those for which separate classifications are provided. Included here are firms specializing in the sale of lamps and lamp shades, pictures or picture frames or art goods.

**Musical instruments and sheet music.**—Included here are firms specializing in the sale of musical instruments other than radios. Included also are a small number of firms specializing in the sale of sheet music.

## GENERAL MERCHANDISE

This classification is comprised chiefly of firms engaged in supplying the retail variety type of store. These firms carry a general line of notions and smallwares including such types of merchandise as drug sundries, leather goods, toys, soaps, toilet articles, hardware items, stationery and other paper products, in addition to pins, needles, threads, ribbons, purses, jewellery, china, glassware, etc. Included also in this group are a limited number of firms carrying a general line of merchandise and engaged in the import or export trade. A third type included here consists of an even more limited number of firms engaged in buying and selling job lots of merchandise of all classes.

## GROCERIES AND FOOD SPECIALTIES

**Groceries (general line).**—Firms selling a general line of groceries and food specialties, i.e. sugar, flour, tea, coffee, canned goods, extracts and spices, dry groceries, etc., with no one commodity group predominating to the extent of 70 per cent of the total sales. If sales of one commodity group formed 70 per cent or more of the total sales, the firm was assigned to one of the specialty classifications.

**Biscuits and other bakery products.**—Firms dealing in bakery products such as biscuits, crackers, etc. Included here are the sales branches of biscuit manufacturers, as well as a considerable number of wagon distributors of bread and bakery products.

**Canned foods.**—Firms dealing in canned goods, such as salmon, fruits and vegetables, canned sea foods, milk, etc.

**Coffee, tea, spices and cocoa.**—Firms specializing in the sale of coffee and other commodities mentioned. A large number of importers as well as sales branches of several large coffee and tea blenders and packers are found in this trade.

**Flour.**—Firms specializing in the sale of flour, or flour and feed and related lines where flour sales constitute 50 per cent or more of the total sales.

**Sugar.**—Includes firms dealing chiefly in sugar.

**Other food and grocery specialties.**—Firms dealing in cereals, delicatessen products, extracts, dried fruits and vegetables, lard substitutes and other food specialties such as vinegar, dressings, syrup, yeast, malt, starch, olive oil, etc.

## HARDWARE

**Hardware (general line).**—This classification includes firms carrying a general and complete line of hardware products extending beyond the limits of the content of the term "hardware" as used in its restricted sense to denote only such commodities as builders' or shelf hardware, heavy hardware or tools. Nor do the sales of such hardware items necessarily form the major portion of the total annual sales. Plumbing and heating supplies, paint and varnish, iron and steel products such as wire fencing, building materials, farm and garden equipment, sporting goods and electrical appliances form important commodity groups in the wholesale general line hardware trade. The broad nature of the commodity composition of this line of business is due in some measure to the fact that in a considerable number of instances trading is carried on both on a wholesale and a retail basis.

**Hardware (specialty lines).**—These firms deal in merchandise usually restricted to hardware as used in the narrower sense and generally further restricted to one or two of the subdivisions within the hardware group of commodities. This classification includes firms specializing in one or a limited number of commodity items such as builders' hardware, kitchenware, small tools, bolts and nuts, etc. Firms carrying a general line of small tools or a line of tools used for general purposes are assigned to this classification. Firms specializing in tools for a specific industry or trade are classified in the appropriate subdivision of the machinery, equipment and supplies group.

## JEWELLERY

**Jewellery (general line).**—This classification includes firms carrying a general line of jewellery, reporting the sale of at least three of the following four commodity groups, and with the sale of no one group amounting to as much as 75 per cent of the total sales: (1) clocks and watches; (2) jewellery, including novelty jewellery; (3) precious stones and precious metals; (4) silverware and plated ware.

**Jewellery (specialty lines).**—These are firms specializing in the sale of one or at least a restricted line of jewellery items. Sales of one of the above four commodity groups formed at least 75 percent of the total sales before this classification was used.

## LEATHER AND LEATHER GOODS

**Leather goods.**—This classification includes all firms reporting the sale of a general or specialty line of leather goods such as harness, luggage, leather novelties, dressing kits, etc. Leather clothing and shoes are included in the dry goods and apparel group and not here.

**Leather.**—Included here are firms specializing in the sale of leather and cut stock chiefly for the shoe trades. Shoe findings may also be carried but if sales of such items amounted to more than one half the total business the firm was assigned to the shoe findings trade.

**Shoe findings.**—Included here are firms engaged in the sale of shoe findings such as rubber soles and heels, laces, polishes, shoe treads, nails, dyes, heel plates, cement. Leather may also be sold but if the sale of leather and cut stock amounts to as much as 51 per cent of the total sales the firm is assigned to the preceding classification rather than here.

**LUMBER AND BUILDING MATERIALS (other than metal)**

**Building materials (general line).**—Firms selling a combination of the commodities mentioned in the following specialty classifications.

**Glass.**—Firms specializing in the sale of glass (building glass, plate glass, fancy glass, auto glass). Some firms sell mirrors as a subsidiary line. Firms specializing in mirrors are assigned to the house furnishings classification rather than here.

**Insulation and/or roofing materials.**—Firms specializing in the sale of insulation and/or roofing materials such as rock wool, insulation wool, wallboards, roofing papers, asphalt shingles and all roofing materials other than metal or wood.

**Paint, glass and wallpaper.**—Firms handling a combination of paint, wallpaper, glass and painters' and decorators' supplies. Firms specializing in the sale of paint only have been assigned to the paints classification in the chemicals group and those handling only wallpaper, to the paper and paper products group.

**Other specialty lines.**—Firms specializing in other building materials such as brick, tile, building stone, cement or cement blocks, lime, plaster, granite, marble, sand, gravel, crushed stone, gypsum and lime products, etc.

**Lumber.**—Firms specializing in the sale of dressed or rough lumber. Firms in this class usually deal in these commodities only.

**Lumber and mill work.**—Firms selling rough or dressed lumber together with mill work such as sash and doors, flooring, wallboard, moulding, etc. Included also are any firms selling mill work without lumber.

**MACHINERY, EQUIPMENT AND SUPPLIES (except electrical)**

**Butchers'.**—Firms specializing in such items as sausage casings, butchers' machinery, meat choppers and slicers, slaughter house equipment, seasonings, butchers' blocks and meat trays, etc.

**Office and store.**—Firms specializing in items such as typewriters, business machines, folders, carbon paper, typewriter keys, letter openers, duplicators, store fixtures, show cases, displays, hangers, locks, models, cash carrier systems, office furniture, etc.

**All other commercial machinery, equipment and supplies.**—Included here are firms specializing in other types of commercial machinery, equipment and supplies including automatic vending machinery, garage and filling station equipment, florists' equipment, recording meters, scales, vault doors, and equipment for hotels or restaurants.

**Construction machinery, equipment and supplies.**—Firms specializing in types of machinery peculiar to the contracting and road making trades such as graders, scrapers, mixers, cranes, power shovels, crushers, pipe line fittings, maintainers, etc.

**Farm machinery and equipment.**—Firms specializing in dairy equipment such as churns, cream separators, milking machines, milk coolers, barn and stable equipment as well as a general line of farm implements and machinery such as tractors, combines, harvesters, binders, mowers, rakes, cultivating machinery, harrows, plows, seeders, windmills, pumps, etc.

**Bottles and bottling equipment.**—Includes firms dealing in brewery machinery, bottle wrappers, bottle-washing machines, syrup, storage tanks, carbonating machinery, bottles, bottle caps, brewery brushes.

**Conveyor and hoisting machinery.**—Firms dealing in all kinds of industrial conveyor and hoisting machinery such as travelling cranes, belt and roller conveyors, continuous belts and chains, compressor hoists.

**Industrial machinery (general line).**—Firms carrying a general or complete line of industrial machinery. Also those firms whose report indicated that they carried more than one line even though a complete line was not sold.

**Machine tools.**—Firms dealing in power-driven tools such as lathes, grinders, drills, reamers, cutters, taps, dies, shapers. Also included here are firms selling grindstones, emery stones and all abrasive materials.

**Mining.**—Firms selling mining and quarrying equipment such as compressors, pneumatic tools, rock drills, mining locomotives, flotation cells, ore samplers, etc.

**Oil well.**—This includes tubular materials for oil wells, oil and gas well supplies and equipment.

**Power house and power transmission.**—Firms dealing in power plant equipment such as boilers, water turbines, flow meters, steam controls, mechanical stokers, fans (other than domestic), heaters, steam regulators. Also transmission equipment and supplies such as manufactured and finished belting, packing, gaskets, etc.

**Printers' and lithographers'.**—Includes all firms dealing in such items as printing presses, linotypes, stitchers, cutters, binders, photo-engraving machines, printing inks, rollers, metals, type materials.

**Textile.**—Firms dealing in carding machines, spinners, looms, sewing machines, cloth cutting machines and knitting machines.

**Used machinery.**—All firms dealing chiefly in second-hand machinery. New machinery may be carried in minor quantities.

**Other industrial machinery, equipment and supplies.**—Firms selling industrial machinery, equipment or supplies and which do not come within the range of the specialty classifications provided. Included are firms specializing in the sale of equipment for such industries as butter factories, cheese factories, canners, foundries, the lumbering industries, and pulp and paper mills. Included also are firms specializing in the sale of mechanical goods which cannot be classified under "Power house equipment and power transmission equipment and supplies".

**Church and school.**—Firms dealing in religious and school supplies such as church ornaments, furnishings and fittings, statues, rosaries, hymn books, prayer books, etc. Also school supplies such as desks, maps, slate and composite blackboards, scribblers, pencils, etc.

**Dentists'.**—Firms specializing in the sale of dentists' furniture, instruments, materials, etc. Dental laboratories have not been included here but are included in the Census of Service Establishments.

**Scientific and laboratory.**—Firms dealing in draftsmen's and architects' equipment and apparatus, thermometers, pressure gauges, barometers and other scientific instruments. Firms were included here only when it was known that the majority of the business consisted of sales to commercial, industrial, professional and government organizations. Otherwise they were classified as retail establishments.

**Surgical, medical and hospital.**—Firms specializing in items such as X-ray apparatus, physio-therapy machines, medical and surgical instruments, hospital beds. Drug sundry items such as dressings, gauze, absorbent cotton, bandages are sometimes carried.

**All other professional equipment and supplies.**—Firms specializing in such commodities as artists' equipment and supplies, pharmacists' equipment and all other types of professional equipment for which special classifications are not provided.

**Barber and beauty parlour.**—Firms dealing in equipment for the barbering and beauty parlour trades such as barber chairs, waving machines, dryers, curlers, razors, scissors, combs and hair brushes. Toilet preparations for use in beauty parlours are often carried as a subsidiary line.

**Fire protection.**—Firms dealing in items such as ammonia masks, smoke masks, extension and step ladders, automatic sprinkler systems, fire hose, extinguishers, chemical engines, motor fire engines, fire alarm systems, lightning rods, etc.

**Laundry and dry cleaners'.—**Firms selling such items as steam pressing machines, hat cleaning machines, commercial steam washers, dryers, soaps and laundering and cleaning compounds, dry cleaning supplies, etc.

**Other service equipment and supplies.—**Firms specializing in equipment and supplies for types of service establishments other than those for which special classifications are provided. Included, amongst others, are firms specializing in the sale of equipment and supplies for janitors, plumbers, undertakers, upholsterers, warehouses, etc.

**Aircraft and aeronautical.—**Firms dealing in aircraft and equipment and supplies such as aeroplanes, pontoons, propellers, aeroplane parts, parachutes, instruments, etc.

**Railroad.—**Firms specializing in items peculiar to the railroad industry such as brake shoes, mechanical drives, railway signals, tie plates, freight car fixtures, journal boxes, track levers, rail joints, forged steel yokes, rails, exhaust and steam ejectors, car roofs, boiler tubes, rail switches, rail cars.

**Marine.—**Firms specializing in such items as marine engines and equipment. Firms selling a general line of ships' stores such as provisions, fishing supplies, hardware, etc. have been classified under "Ship chandlery" in the "All other" group.

## METALS AND METAL WORK

This major group is comprised of firms specializing in the sale of metals and metal work generally to be used as materials for further manufacture rather than as finished products. The group is divided into two main sub-groups: (1) firms specializing in iron and steel or their products although non-ferrous metals may be carried as subsidiary items and (2) firms specializing in non-ferrous metals.

**Wire and wire products.—**Included in this classification are firms specializing in the sale of wire or wire products such as wire rope or cable (except insulated), screens, wire fencing, netting, etc.

**Sheet metal and metal work.—**This classification includes firms specializing in the sale of iron or steel sheet metal plates or sheets. Included also are firms dealing chiefly in fabricated steel plate work or sheet metal products such as stampings, tin cans, metal roofing, eavestroughing, ventilators, drums, etc.

**Structural iron and steel.—**This classification includes firms specializing in the sale of steel shapes, plates, or reinforcing mesh or rods for construction work.

**Iron and steel (other specialty lines).—**Included here are firms selling a specialized line of iron and steel products for which separate classifications are not provided. This includes firms specializing in the sale of such items as tool steel, hot or cold rolled steel bars, strip steel, hoop or band steel, bearings or steel tubing.

**Iron and steel (general line).—**This classification includes firms selling a diversified line of iron and steel products comprised of such items as structural shapes and plates, bars, rods, sheet metal, wire and wire products, pipe or tubes. Pig iron or semi-finished iron and steel such as billets, blooms or slabs may be carried but not as the major item.

**Other iron and steel.—**This classification includes two main subdivisions. In the first instance it includes establishments specializing in the sale of castings and forgings including sales branches maintained by foundries. Secondly this category includes all other establishments coming within the scope of the iron and steel group but where the information provided was not sufficient to warrant assigning them to any of the other classifications provided.

**Metals and metal work (other than iron and steel).—**Included here are firms specializing in the sale of metals or metal products other than iron and steel. Included are firms specializing in aluminum, copper, zinc, lead, nickel and nickel alloys, silver, gold, ferro alloys. Firms selling a combination of both ferrous and non-ferrous metals are assigned to this or to one of the preceding classifications according to the major commodity handled.

## PAPER AND PAPER PRODUCTS

**Printing and writing papers (including newsprint).**—Firms specializing in the sale of newsprint or in the sale of fine papers—book paper, bond paper, etc. Firms selling fine papers may also be engaged in the distribution of bookbinders' supplies such as cover papers or cloths.

**Stationery and stationery supplies.**—Firms specializing in the sale of stationery (chiefly office stationery) and including letterheads, pencils and pens, loose leaf systems, etc.

**Wrapping or coarse paper and its products.**—Firms specializing in the sale of wrapping paper or bags, cardboard boxes, toilet paper and tissue paper. Also other paper products such as paper towels, dishes, egg crate material, etc.

**Other paper goods.**—Firms dealing in paper goods and which cannot be assigned to any class separately specified. This will include the firms specializing in such items as wallpaper, greeting cards or post cards, advertising signs, tags or seals, bread wrappers, butter wrappers, etc.

## PETROLEUM AND PETROLEUM PRODUCTS

Establishments specializing in the sale of petroleum products such as gasoline, tractor and engine distillate, fuel oil, asphalt, kerosene, and lubricating oils and greases. This classification is comprised chiefly of the bulk tank stations operated either directly or as agencies by the large petroleum products distributors.

## PLUMBING AND HEATING EQUIPMENT AND SUPPLIES

**Heating equipment and supplies.**—Establishments engaged principally in selling a specialized or diversified line of heating equipment or supplies including such items as boilers for heating rather than the generation of power, automatic stokers, unit heaters, radiators, radiator valves or traps, temperature or humidity control apparatus, ventilating fans, oil burners or furnaces. The specialty lines found in the trade consist chiefly of oil burners, automatic control apparatus and furnaces or furnace repairs. Plumbing equipment or supplies may be sold but when a report indicated that such sales constituted at least 20 per cent of the combined sales of heating and plumbing equipment and supplies, the firm was assigned to the plumbing and heating equipment and supplies classification. Includes also firms carrying a combined line of fans, blowers and air-conditioning equipment.

**Plumbing equipment and supplies.**—This classification includes firms specializing in the sale of plumbing fixtures and supplies including such items as lavatories, sinks, bathtubs, valves, fittings, soil pipe and related accessories. Heating equipment and supplies may be carried but sales of such equipment and supplies cannot exceed 20 per cent of the combined figure.

**Plumbing and heating equipment and supplies (general line).**—Establishments carrying both plumbing and heating equipment and supplies and where the sale of the smaller of the two components forms at least 20 per cent of the sum of the two. Such firms may specialize in these products or may carry these in addition to a more general line of heavy goods such as hardware or iron and steel metal work. Iron and steel piping for other than heating or plumbing purposes is frequently carried. But in all such instances the sale of plumbing and heating equipment and supplies is greater than the sale of any other broad commodity grouping.

**Other plumbing and heating equipment and supplies.**—This is a residual classification to which are assigned firms which come within the general scope of this major group but which do not conform with the definitions laid down for any one of the three preceding classifications. Included here are firms specializing in the sale of refractories, power ventilators or other air-conditioning equipment. Included also are firms specializing in the sale of pipe fittings, valves and related items and where there was no information to indicate whether these were used for heating or plumbing or both heating and plumbing purposes.

**TOBACCO AND TOBACCO PRODUCTS (except leaf)**

**Cigars, cigarettes and tobacco.**—Included here are firms specializing in the sale of tobacco, cigars and cigarettes. Smokers' sundries, newspapers, magazines and other commodities may be handled as minor items. All firms handling confectionery along with tobacco have been assigned to the following classification unless candy and confectionery sales were less than 5 per cent of the total sales.

**Tobacco and confectionery.**—All firms carrying both tobacco and confectionery have been included here unless the sales of the minor item comprised less than 5 per cent of the total sales. Other lines such as smokers' sundries, newspapers, magazines, grocery items, smallwares and novelties are often carried in minor quantities.

**WASTE MATERIALS (including scrap metal)**

**Junk and scrap (general line).**—Included here are firms describing themselves as "dealer in junk" and which sell a general line of scrap or waste materials such as metals, paper, rags, bottles, rubber. Sales are made chiefly to industrial consumers.

**Scrap metal.**—Firms dealing in scrap metal only, whether it be iron and steel scrap, copper, brass or other metals.

**Waste materials (other specialties).**—Firms selling a specialized line of waste materials, other than scrap metal, such as waste paper, rags, bags or bagging, or a combination of items but not a complete enough line to be classified as "general line".

**ALL OTHER**

**Books, periodicals and newspapers.**—Firms specializing in the wholesale distribution of books, periodicals, magazines or newspapers. This class may be divided into two main types: (a) publishers of books or periodicals who do no printing but examine manuscript and undertake the risks involved in publishing new books. A certain amount of wholesale business may also be carried on. Canadian representatives of foreign publishers are included. (b) wholesale dealers in newspapers and magazines.

**Oils, greases and waxes.**—Included in this class are firms specializing in the sale of essential oils for perfumers and soap manufacturers. Flavouring and fruit extracts may be sold. Firms specializing in animal oils or vegetable oils, cotton seed, linseed, etc. Also firms specializing in waxes or candles.

**Optical goods.**—Firms which handle a general line of optical goods. This includes lenses, mountings, rims, cases. Opticians' supplies and equipment are sometimes handled as subsidiary items.

**Rubber goods (general line).**—This class includes firms carrying a fairly general line of rubber goods, including footwear, tires and tubes, mechanical goods and other rubber merchandise.

**Ship chandlery.**—Firms carrying a general line of equipment and supplies for ships and fishermen. This includes a wide variety of commodities, such as hardware, rope, cordage and twine, paints, provisions, gasoline, fishery salt, rubber footwear and clothing, etc.

**Cordage and twine.**—Included here are firms specializing in the sale of rope, binder twine, fish nets, etc.

**Other textiles and textile materials.**—Included in this class are firms dealing in textile products such as bags or bagging, yarns, cheesecloth, etc.

**Second-hand goods (except machinery and automotive).**—Firms dealing in second-hand goods such as stoves, furniture, clothing, building materials, plumbing equipment, electrical equipment, jewellery, etc.

**Miscellaneous kinds of business.**—This group includes firms dealing in commodities for which no separate classifications were provided, such as ice, novelties, smokers' supplies, sponges and chamois, etc. Included also are a limited number of firms carrying a number of unrelated lines which could not be assigned to any other classification.

## APPENDICE B

### DESCRIPTIONS DES GENRES DE COMMERCE

Pour les fins du recensement chaque établissement est attribué à une catégorie basée sur le genre de commerce d'après une classification préparée à cette fin. Les établissements engagés dans le commerce de gros comprennent généralement une moins grande variété de produits que les magasins de détail. Pour cette raison la classification des établissements de gros par genre de commerce est en conformité plus étroite avec la variété de produits vendus que cela n'est le cas pour le commerce de détail. Ici, la diversité des produits manutentionnés est souvent telle que la désignation populaire ou la description générale du commerce telle que fournie par le répondant doit fréquemment être le critère d'après lequel la classification est faite.

Les classifications selon le genre de commerce pour le commerce de gros ont été fixées provisoirement avant le recensement de 1941 et les rapports du recensement ont été d'abord classifiés selon cette méthode. Ces premières classifications ont ensuite été modifiées dans certains cas après une inspection soignée des rapports attribués à chaque catégorie. Dans certains cas une classification plus détaillée par genre de commerce, que celle fournie en premier lieu, s'est révélée justifiable. Plus fréquemment il a été jugé désirable de réduire le nombre de classifications, soit à cause du nombre limité d'établissements engagés dans chaque commerce ou par suite de l'absence de distinction nette dans la composition des produits formant les genres de commerce pour lesquels des catégories séparées avaient d'abord été proposées.

Le domaine du gros est en premier lieu divisé en 25 groupes principaux de genres de commerce, chaque groupe renfermant des établissements engagés dans des commerces plus ou moins apparentés. La plupart de ces groupes sont divisés en un nombre de catégories principales dont plusieurs sont subdivisées en des classifications individuelles plus détaillées. Une description du contenu de chaque classification de genres de commerce employée dans le recensement du commerce de gros pour 1941 est donnée dans les paragraphes qui suivent.

#### ARTICLES DE RÉCRÉATION, DE SPORT ET DE PHOTOGRAPHIE

**Articles de sport (assortiment complet).**—Ce groupe comprend les maisons tenant un assortiment complet d'articles de sport (pêche, chasse, patinage, ski, golf, tennis, baseball, etc.). Les bicyclettes, jouets et jeux sont quelquefois tenus. L'outillage de gymnase, d'allée de quilles et de salle de billard peut aussi être vendu.

**Jouets, nouveautés et pièces pyrotechniques.**—Les maisons se spécialisant dans la vente de jouets et de nouveautés. Les souvenirs, les cartes de souhaits et cartes postales, la porcelaine, la verrerie, les articles en cuir, la papeterie et les fournitures d'écoles peuvent aussi être tenus, mais la vente de jouets prédomine. Comprises sont les maisons s'occupant de fournitures de passe-temps telles que modèle d'avions, de bateaux, de trains et l'outillage et les fournitures pour leur construction. Les voitures d'enfant sont aussi vendues comme assortiment auxiliaire aux articles roulants pour enfants.

**Autres articles de récréation et de sport.**—Les maisons se spécialisant dans la vente d'un genre particulier d'articles de récréation ou de sport, tels que les bicyclettes, les articles de golf, les engins de pêche, les fournitures de billard ou de quilles. Aussi les maisons tenant plusieurs articles, mais non un assortiment complet d'articles de sport.

**Caméras et fournitures de photographie.**—Les maisons se spécialisant dans la vente de caméras et/ou de matériaux et de fournitures de photographie. Des articles de photographie tels que plaques, papier, cadres, montures, produits chimiques et films sont généralement tenus. Là se font fréquemment le développement, l'impression et l'agrandissement, ordinairement pour des pharmacies ou d'autres détaillants.

**Appareils cinématographiques.**—Cette classification comprend les maisons se spécialisant dans la vente d'outillage et de fournitures de cinéma tels qu'outillage à projection et sonore, lampes, carbones, rectificateurs, écrans, etc. Quelques maisons tiennent aussi des billets, des sièges et des films de théâtre.

**Films cinématographiques.**—Ce groupe comprend les maisons par l'intermédiaire desquelles les films sont distribués aux cinémas. Le chiffre d'affaires déclaré représente le revenu tiré du louage de films et aussi de la vente du matériel de réclame.

## AUTOMOBILE

**Pièces et accessoires d'automobile.**—Les maisons engagées dans la distribution en gros de pièces et/ou d'accessoires d'automobile (neufs ou usagés). Outre les pièces et accessoires d'automobile, les maisons dans cette classification tiennent fréquemment d'autre outillage d'automobile tel que piles, pneus et chambres à air, huiles et graisses, et outillage et fournitures de garage. Les appareils électriques tels que radios et réfrigérateurs sont quelquefois tenus en petite quantité, ainsi que la quincaillerie et les outils, les articles en cuir et les harnais, les articles de sport et les articles mécaniques en caoutchouc. Quelques maisons font aussi des travaux de réparation et, dans ce cas, les recettes des services sont comprises dans le volume global des affaires. Quand les piles sèches ou les accumulateurs constituent la principale marchandise, la maison est classifiée sous "autres spécialités électriques". Les maisons se spécialisant dans l'outillage et les fournitures de garage en dehors des accessoires et pièces à être installés dans les véhicules-moteur ont été plutôt assignées à la classification de l'outillage et des fournitures de commerce.

**Pneus et chambres à air.**—Les maisons se spécialisant dans la vente des pneus et chambres à air (neufs et usagés). D'autres articles tels que la gasoline, l'huile, les piles, les pièces et accessoires d'automobile, les radios, les articles mécaniques et autres en caoutchouc peuvent être tenus en petites quantités. Les maisons achetant de vieux pneus et les vulcanisant et les réchappant pour les revendre ont été incluses. Certaines maisons font des réparations, mais les recettes des services doivent former une faible partie du commerce global.

**Autre outillage.**—Cette classification comprend les maisons qui ne tombent pas déjà dans les catégories précédentes. Elle inclut les maisons vendant des carrosseries de remorques, camions, camions à bascule et automobiles, des fournitures de carrosserie et de rembourrage d'automobiles, des accessoires d'énergie et de freins mécaniques, des fournitures d'automobile tels que laques, pâte à polir, poli d'automobile, cire, nettoyeurs de rembourrage, etc.

**Véhicules automobiles.**—Les maisons se spécialisant dans la distribution en gros de véhicules automobiles, tant neufs qu'usagés, y compris les véhicules commerciaux, les automobiles de tourisme et les motocyclettes. Ces maisons tiennent ordinairement des pièces et accessoires pour ces véhicules et quelquefois des remorques, des tracteurs, de l'outillage pour l'abattage du bois ou de la machinerie agricole comme assortiments subsidiaires. Les maisons se spécialisant dans les tracteurs de ferme ont été classifiées dans le groupe de la machinerie et outillage agricoles.

## PRODUITS CHIMIQUES, PHARMACEUTIQUES ET CONNEXES

**Boissons alcooliques.**—Les maisons engagées dans la distribution des boissons alcooliques. Cette classification comprend les importateurs et les agents d'importation de spiritueux et de liqueurs aussi bien que les entrepôts de distribution et les succursales de ventes des brasseurs et des distillateurs. Dans la province de Québec, l'agent de brasserie tient occasionnellement des liqueurs douces aussi bien que de la bière.

**Matières tinctoriales et produits connexes.**—Les maisons se spécialisant dans la vente de colorants azoïques, de teintures de goudron de houille, d'extrait de bois de teinture (pour usage industriel). D'autres produits chimiques peuvent être tenus comme assortiments subsidiaires.

**Autres produits chimiques industriels.**—Les maisons se spécialisant dans la vente de produits chimiques, surtout de produits chimiques lourds, employés à des fins industrielles—acides, alkalis, sels, gaz, etc.

**Drogues et articles divers de pharmacie (assortiment complet).**—Les maisons tenant un assortiment général et complet de drogues et articles divers, y compris les produits pharma-

ceutiques, les remèdes brevetés et les articles divers de pharmacie. Les préparations de toilette et savons sont ordinairement tenus et fréquemment les fournitures de photographie, les confiseries, le tabac, la papeterie, et l'outillage et les fournitures de médecine, de chirurgie et d'hôpitaux.

**Drogues et médicaments brevetés (spécialités).**—Les maisons se spécialisant dans la vente de drogues, produits pharmaceutiques ou médicaments brevetés. Plusieurs grossistes généraux vendent plus de médicaments brevetés que de toute autre marchandise. Si elles tiennent un assortiment général les maisons n'entrent pas dans ce groupe, à moins que les drogues et les médicaments brevetés ne forment 80 pour-cent ou plus du total des ventes.

**Articles divers de pharmacie.**—Les maisons se spécialisant dans la vente d'articles divers de pharmacie tels qu'articles de toilette, articles en caoutchouc de pharmacie, tampons calorifiques, lames de rasoir, bandages, pansements, ruban adhésif, résilles, aide-pied, etc.

**Peintures, vernis, laques et émaux.**—Les maisons se spécialisant dans la vente de peintures, vernis, laques, etc. Quelques maisons tiennent des matériaux de finissage de plancher, brosses et autres fournitures de peintre, mais les peintures, vernis et émaux prédominent généralement. Quand il était évident qu'un assortiment général de fournitures de décorateur était tenu, i.e. peinture, papier-tenture, brosses, torehons, etc. la maison a été assignée au groupe des matériaux de construction.

**Savons et préparations de toilette.**—Les maisons se spécialisant dans la vente de savons, soit de toilette ou de buanderie, ou de préparations de toilette, i.e. cosmétiques, pâte à dents et poudre à dents, teintures à cheveux. Les fournitures de salon de beauté, les drogues et les produits divers de pharmacie peuvent être vendus en plus petites quantités. Les pâtes à nettoyage et autres produits chimiques sont quelquefois tenus en même temps que les savons de buanderie.

**Autres produits chimiques, pharmaceutiques et connexes.**—Les maisons se spécialisant dans les produits chimiques ou connexes autres que ceux pour lesquels il existe des classifications séparées. Sont comprises les maisons se spécialisant dans des articles tels qu'explosifs, fournitures sanitaires, insecticides, remèdes pour animaux, matières plastiques, produits de cellulose, accessoires ménagers de nettoyage, e.g., eau de javel, polis, etc., herbes médicinales, semences, racines, etc. Aussi les maisons tenant des combinaisons des spécialités de produits chimiques, drogues et produits connexes, sans qu'aucun ne prédomine.

## CHARBON ET COKE

Cette classification comprend les genres de commerce suivants: (a) les maisons tenant un assortiment plus ou moins général de charbon, y compris l'antracite et le charbon bitumineux avec l'addition du coke dans quelques cas; (b) les maisons se spécialisant dans la vente du charbon bitumineux ou de l'antracite seulement et (c) les maisons se spécialisant dans la vente de combustibles autres que le charbon, comme le coke. Est aussi compris un nombre considérable de maisons dont les rapports indiquent des vendeurs en gros de charbon, mais ne font pas voir s'il s'agit d'un assortiment général ou d'une spécialité.

La distinction entre le gros et le détail dans le commerce du charbon n'est pas toujours clairement définie. Les ventes aux autres vendeurs et aux gros usagers industriels sont nettement du gros tandis que les ventes à des chefs de maison particuliers sont du détail. La répartition des maisons entre les sections de gros ou de détail du recensement a été faite partiellement d'après la désignation générale du commerce entre commerce de gros et commerce de détail, tel qu'indiqué dans les rapports du recensement. Elle a été faite en partie d'après les renseignements fournis au sujet de la distribution des ventes selon le genre de consommateur. Dans les cas douteux on se référerait aux listes de vendeurs de gros et de détail maintenues par l'Administration du charbon de la Commission des Prix et du Commerce en temps de guerre.

## MERCERIES, VÊTEMENTS ET LINGERIE

**Vêtements et/ou lingerie (assortiment complet).**—Les maisons qui ne possèdent pas les attributs nécessaires d'un commerce général de gros de merceries et où les ventes totales de vêtements pour hommes et femmes forment 50 pour-cent ou plus de tout le commerce. Les vêtements pour hommes et pour femmes doivent être vendus, mais les ventes d'une catégorie ne peu-

vent dépasser 80 pour-cent de la somme des deux. Les genres de vêtements pour hommes tenus par les maisons de cette catégorie consistent presque entièrement en lingerie ou en vêtements de travail pour hommes. Les complets et pardessus pour hommes ne sont pas tenus. Un assortiment plus complet de vêtements pour femmes est fréquemment tenu, y compris manteaux, costumes et robes pour dames en plus de bas, de lingerie et de vêtements pour enfants et bébés. Un assortiment divers de vêtements est de règle générale dans ce commerce. Dans quelques cas seulement les maisons se spécialisent dans une marchandise comme les bas ou les gants.

**Vêtements et/ou lingerie (hommes).**—Les maisons se spécialisant dans les vêtements pour hommes et ne possédant pas les caractéristiques d'un commerce général de mercerie. Si les vêtements pour femmes sont tenus outre ceux pour hommes, les ventes de ces derniers doivent former 80 pour-cent ou plus de la somme des deux avant que cette classification ne soit employée. Autrement, la maison est assignée au groupe précédent de vêtements généraux. Cette classification comprend un certain nombre de maisons, surtout des agents de manufacturiers, se spécialisant dans la vente de vêtements de dessus pour hommes. Elle comprend aussi des maisons se spécialisant dans la vente de chapeaux pour hommes.

**Vêtements et/ou lingerie (femmes).**—Les maisons se spécialisant dans les vêtements pour femmes et ne possédant pas les caractéristiques du commerce général. Si les vêtements pour hommes sont aussi tenus, les ventes de vêtements pour dames doivent former au moins 80 pour-cent des ventes combinées de vêtements. Sont comprises dans cette classification les maisons tenant un assortiment général de vêtements pour femmes ainsi qu'un nombre considérable se spécialisant dans une marchandise telle que les gants, les bas ou les costumes et les robes. Les agents des manufacturiers sont importants dans ce dernier cas. Beaucoup de maisons combinent la vente de vêtements pour femmes à celle d'articles de fantaisie et menus objets.

**Fourrures et vêtements en fourrure.**—Les maisons se spécialisant dans la vente de vêtements en fourrure (généralement manteaux ou tours de cou) ou de retailles ou pièces de fourrure. Les maisons s'occupant surtout des fourrures brutes ou préparées sont assignées au groupe des produits de la ferme.

**Chapeaux et garnitures de chapeaux.**—Cette classification comprend surtout les maisons tenant des garnitures de chapeaux plutôt que des chapeaux finis. Les articles tenus comprennent les formes en paille et en feutre, les fleurs artificielles, les plumes, les rubans et dentelles, les épingles et ornements, les voiles, l'empois, le vernis et la colle.

**Merceries (assortiment complet).**—Les maisons tenant un assortiment général de produits textiles y compris les vêtements, les articles de fantaisie et menus objets, les tissus à la pièce, les toiles et draperies de ménage. Les carpettes et tapis, et jusqu'à un certain point les chaussures, peuvent aussi être tenus. Les caractéristiques requises pour cette classification sont les suivantes. (1) Les vêtements et lingerie pour hommes et femmes doivent être vendus et les ventes de ces marchandises doivent former de 20 à 70 pour-cent du commerce total. Dans la plupart des cas, la vente de vêtements pour hommes et femmes varie de 30 à 40 pour-cent du chiffre d'affaires total. (2) Au moins trois des groupes suivants de marchandises doivent être tenus en quantités appréciables.

- (a) Articles de fantaisie et menus objets (rubans, lacets, fil, boutons, garnitures de cou, bourses, parapluies, sacs à provisions, etc.).
- (b) Marchandises à la pièce.
- (c) Literie et toiles de ménage.
- (d) Rideaux, draperies et tissus pour meubles.
- (e) Filés.

**Objets de menu mercerie.**—Une classification définie renfermant les maisons se spécialisant dans la vente d'articles de fantaisie et de menus objets tels que rubans, lacets, fil, boutons, garnitures de cou, bourses, parapluies, etc. La plupart des maisons de cette catégorie tiennent un assortiment général de ces articles, mais un certain nombre se spécialisent dans une marchandise comme les boutons ou les fermoirs à glissoir. Les maisons se spécialisant en fournitures de tailleur sont comprises ici. Quelques maisons combinent la vente d'articles de fantaisie avec celle des articles divers de pharmacie, filés et marchandises à la pièce.

**Marchandises à la pièce.**—Cette catégorie renferme presque entièrement les maisons ne vendant que des tissus à la pièce, soit comme assortiment général ou spécialité. En outre elle comprend quelques maisons vendant un assortiment plus large de produits textiles—articles de fantaisie, marchandises à la pièce, toiles et draperies de maisons, les marchandises à la pièce formant au moins 50 pour-cent du commerce total.

**Chaussures de tout genre.**—La plupart des maisons de cette catégorie ne vendent que des chaussures. Les gants, les vêtements, le cuir ou les pièces taillées et les crêpins sont occasionnellement déclarés comme vendus en faible quantité en plus des chaussures.

**Autres merceries, vêtements et lingerie.**—Cette classification consiste surtout en deux principaux genres: (1) les maisons dont la description du commerce ou les renseignements fournis sur les marchandises sont trop maigres pour permettre la classification dans une catégorie plus détaillée, et (2) les maisons qui n'ont pas rempli les exigences de la classe des merceries générales ou de celle d'une spécialité. Sont comprises ici un nombre considérable de maisons vendant des articles de fantaisie et menus objets, des marchandises à la pièce, des toiles et draperies de maison, mais où aucun de ces articles n'absorbe 50 pour-cent du commerce total.

## ARTICLES ÉLECTRIQUES

**Appareils électriques (y compris réfrigérateurs).**—Cette classification comprend les établissements qui ne peuvent être classifiés comme tenant un assortiment général d'articles électriques et qui se spécialisent soit dans un genre d'assortiment d'appareils électriques, soit dans un assortiment général de ces appareils. Les maisons se spécialisant dans la réfrigération commerciale sont aussi comprises ici. Les maisons tenant des radios et des appareils sont classifiées dans cette catégorie ou dans le groupe des radios selon leur principale activité. Les maisons se spécialisant dans la vente de lampes ou abat-jour ne sont pas incluses ici, mais sont assignées au groupe des meubles et fournitures de maison.

**Machines et outillage électriques.**—Sont comprises ici les maisons se spécialisant dans la vente d'outillage de téléphone ou celle d'outillage de génération, transmission ou conversion d'électricité en énergie mécanique. Les marchandises le plus fréquemment tenues dans ce genre de commerce renferment les moteurs électriques ou pièces, les générateurs ou pièces, les tableaux de distribution, les transformateurs, les appareils de contrôle, les régulateurs de tension, les interrupteurs, les démarreurs.

**Articles électriques (assortiment complet).**—Les maisons assignées à cette classification tiennent un assortiment assez complet d'outillage et fournitures électriques. Trois des quatre groupes principaux suivants d'articles électriques doivent être vendus pour permettre d'entrer dans cette classification: (1) matériel de construction et d'installation de fil, (2) appareils et outillage (moteurs, générateurs, appareils de contrôle, transformateurs, etc.), (3) radios, (4) appareils électriques (réfrigérateurs, machines à laver, poêles de cuisine et poêles, etc.).

**Radios et accessoires de radio.**—C'est une classification déterminée consistant dans les maisons qui ne peuvent être considérées comme tenant un assortiment général d'articles électriques et chez lesquelles la vente de radios, pièces de radio ou des deux prédomine. Des appareils peuvent être vendus, mais comme item secondaires. Les maisons se spécialisant dans la vente de systèmes de public diffusion sonore sont comprises ici.

**Matériel et outillage d'installation électrique.**—Cette classification comprend les maisons engagées principalement dans la distribution d'installations électriques intérieures ou extérieures pour fins de construction. Elle comprend les maisons vendant des fils, conduits, matériaux de conduit, poteaux, traverses, isolateurs, etc. Elle renferme aussi les maisons vendant des installations d'éclairage (résidentielles, commerciales ou industrielles), ou les maisons se spécialisant dans la vente d'outillage pour éclairage de rue. Sont aussi incluses ici les maisons se spécialisant dans les systèmes de signaux.

**Autres spécialités électriques.**—Cette classification renferme deux subdivisions principales. Dans le premier cas elle comprend les maisons se spécialisant dans les marchandises électriques et auxquelles les classifications précédentes ne sont pas applicables. Sont incluses les mai-

sons se spécialisant dans la vente de piles, ampoules, ou outillage d'éclairage fluorescent. Ce groupe comprend aussi les maisons dont le rapport ne donne pas une description suffisamment détaillée du commerce exercé pour permettre de les assigner au groupe de spécialités ou à celui d'assortiment complet.

### PRODUITS DE LA FERME (produits bruts)

**Fleurs et plants de pépinière.**—Les maisons se spécialisant dans la vente de fleurs et plants de pépinière. Des fournitures de fleuristes telles que formes de fil métallique pour couronnes, rubans, etc. peuvent être tenues en petite quantité.

**Grain.**—Les maisons se spécialisant dans la vente de grain, et tenant soit une spécialité, soit un assortiment général des produits du grain.

**Fourrures (brutes et préparées).**—Les maisons se spécialisant dans la vente de fourrures brutes ou préparées.

**Peaux.**—Les maisons vendant des peaux. Les fourrures, le suif et la laine sont quelquefois tenus.

**Laine et mohair.**—Les maisons dont la spécialité est la laine brute.

**Chevaux.**—Les maisons engagées principalement dans l'achat et la vente de chevaux.

**Autres bestiaux.**—Les maisons se spécialisant dans l'achat et la vente de porcs, bêtes à cornes, veaux, moutons et agneaux, ou une certaine combinaison de ces items.

**Tabac (en feuilles).**—Les maisons se spécialisant dans la vente de tabac en feuilles.

**Autres produits de la ferme.**—Comprend toutes les maisons engagées surtout dans la distribution de produits bruts et qui ne tombent sous aucun des en-têtes spéciaux prévus. Les maisons ayant comme spécialité le coton brut, la soie grège, le sucre brut, ou le riz, les plumes, le crin de cheval, etc.

### ARTICLES POUR LA FERME

Les maisons ne sont assignées à ce groupe que lorsqu'il est apparent que les marchandises tenues doivent être employées surtout comme articles de ferme. Les maisons dont la spécialité est la vente de grain ne sont pas incluses ici à moins que cette condition ne soit remplie.

**Engrais et matières fertilisantes.**—Comprend les maisons dont la spécialité est la vente d'engrais.

**Foin, grain et provende.**—Les maisons tenant un assortiment général de provende pour bestiaux et volailles. La farine est quelquefois tenue comme item subsidiaire.

**Graines de semence.**—Les maisons se spécialisant dans la vente de graines de grande culture, comme le trèfle, le mil, le maïs, les pois, les haricots, etc. ou de graines de jardinage. On fait quelquefois un certain nettoyage des graines.

**Autres articles pour la ferme.**—Les maisons s'occupant d'articles pour la ferme mais ne pouvant entrer sous aucune des classifications spéciales. Aussi les maisons tenant un assortiment général d'articles pour la ferme sans qu'aucun de ceux-ci ne prédomine. Ces articles peuvent comprendre la provende, les engrais, les graines de semence, la ficelle d'engrèbage, les matériaux de clôture, les épiceries, etc.

### PRODUITS ALIMENTAIRES (excepté épiceries)

**Confiserie.**—Les maisons se spécialisant dans la vente de bonbons, gomme à mâcher, oublie à crème glacée, ou vendant une combinaison de ces items. Les biscuits et le tabac sont quelquefois tenus en plus petites quantités.

**Liqueurs douces.**—Les maisons se spécialisant dans la vente de liqueurs douces.

**Produits laitiers.**—Les maisons se spécialisant dans la vente de beurre, fromage, crème glacée, lait et crème, ou d'une combinaison de ces articles.

**Produits laitiers et de basse-cour.**—Les maisons engagées dans la vente de produits tant laitiers que de basse-cour. Ces deux produits doivent être vendus dans des proportions appréciables pour que la maison soit assignée à cette classe. Si le composant le plus important représente 80 pour-cent ou plus du total des ventes, la maison est assignée à la classe de la spécialité appropriée.

**Volaille et produits de basse-cour.**—Les maisons se spécialisant dans la vente d'œufs ou de volaille ou des deux.

**Poisson et aliments d'origine marine.**—Comprend les maisons engagées dans la distribution en gros du poisson. Cette classe comprend les exportateurs et les maisons qui se comptent au rang des producteurs et des exportateurs. Elle embrasse aussi un nombre considérable de marchands de gros, ainsi qu'un certain nombre d'acheteurs qui achètent directement des pêcheurs et revendent ordinairement aux grossistes.

**Fruits.**—Les maisons se spécialisant dans la vente de fruits frais seulement et dont les ventes de légumes forment moins de 20 pour-cent du commerce total.

**Fruits et légumes (assortiment complet).**—Les maisons vendant et des fruits et des légumes frais, mais dont les ventes d'aucun de ces deux éléments ne dépassent 80 pour-cent du commerce total.

**Légumes.**—Cette classe se forme en grande partie de vendeurs de pommes de terre, navets, ou de pommes de terre et de navets. Un certain nombre tiennent des légumes autres que des pommes de terre, mais ce nombre est petit.

**Viande et produits de la viande.**—Les maisons engagées dans la distribution en gros de viande fraîche, cuite ou de produits de la viande. Les maisons vendant les viandes en conserve sont incluses dans la classification des conserves alimentaires plutôt que dans la présente.

**Provisions.**—Les maisons vendant une combinaison des groupes précédents de produits alimentaires et dont les ventes d'aucun de ces groupes n'excèdent 80 pour-cent du commerce total. Aussi les maisons se spécialisant dans la vente de miel et autres produits alimentaires non ailleurs spécifiés. Sont aussi comprises les maisons qui indiquent la vente de provisions mais ne donnent aucun détail supplémentaire sur les marchandises vendues.

#### PRODUITS FORESTIERS (excepté bois d'œuvre)

**Bois à pulpe.**—Les maisons se spécialisant dans la vente de bois à pulpe. Le bois d'œuvre, les traverses et les poteaux peuvent aussi être vendus, mais non comme item majeurs.

**Autres produits forestiers.**—Les maisons vendant des marchandises telles que boîtes de bois, tonnellerie, bois de chauffage, billes, pilotis, poteaux, traverses de voie ferrée, sciure de bois, lattes, bardeaux, placage, pulpe de bois. Les maisons se spécialisant dans la vente d'allumettes sont assignées à la classification d'articles divers.

#### MEUBLES ET ARTICLES DE MÉNAGE

**Meubles.**—Cette classe se compose de maisons vendant un assortiment général ou une spécialité de meubles de ménage. La classification s'applique aux meubles de ménage seulement. Les maisons s'occupant surtout de meubles de bureau sont assignées au groupe d'outillage et fournitures de bureau et de magasin plutôt qu'à celui-ci.

**Balais et brosses.**—Les établissements se spécialisant dans la vente de balais, brosses ou vadrouilles pour usage ménager. Les maisons se spécialisant dans la vente de pinceaux sont assignées à la spécialité du commerce de quincaillerie.

**Porcelaine, verrerie, faïence, poterie.**—Une classification bien définie formée des maisons se spécialisant dans les articles mentionnés. Les maisons dont les rapports indiquent comme spécialité la vente de tables d'hôtel ou de restaurant sont assignées au groupe d'outillage et fournitures de commerce plutôt qu'à celui-ci.

**Couvertures de plancher, literie, draperies, etc.**—Cette classification se compose des maisons qui ont comme spécialité représentant au moins 50 pour-cent de leur commerce total annuel la vente d'un ou d'une combinaison des produits suivants: couvertures de plancher telles que tapis, carpettes, linoleums; rideaux, draperies et étoffe à draperie; articles de literie comme couvertures ou taies d'oreiller.

**Autres articles de ménage.**—Cette classification comprend les établissements se spécialisant dans la vente d'articles de ménage autres que ceux pour lesquels sont prévues des classifications séparées. Sont comprises les maisons se spécialisant dans la vente de lampes, abat-jour, gravures ou cadres ou articles d'art.

**Instruments de musique et musique en feuilles.**—Sont comprises ici les maisons se spécialisant dans la vente d'instruments de musique autres que les radios. Sont aussi incluses un petit nombre de maisons dont la spécialité est la vente de musique en feuilles.

### MARCHANDISE GÉNÉRALE

Cette classification est formée surtout des maisons engagées dans l'approvisionnement des magasins vendant au détail des articles divers. Ces maisons tiennent un assortiment général d'articles de fantaisie et menus objets y compris des genres de marchandises telles qu'articles divers de pharmacie, articles en cuir, jouets, savons, articles de toilette, articles de quincaillerie, papier et produits du papier en plus d'épingles, aiguilles, fil, rubans, bourses, bijouterie, vaisselle, verrerie, etc. Sont aussi comprises dans ce groupe un nombre limité de maisons tenant un assortiment général de marchandises et engagées dans le commerce d'importation et d'exportation. Un troisième genre compris ici consiste dans un nombre encore plus limité de maisons engagées dans l'achat et la vente de marchandises d'occasion de toutes sortes.

### ÉPICERIES ET SPÉCIALITÉS ALIMENTAIRES

**Épiceries (assortiment complet).**—Les maisons vendant un assortiment général d'épiceries et spécialités alimentaires, i.e. sucre, farine, thé, café, conserves, extraits et épices, épicerie sèches, etc., sans qu'aucun groupe de marchandises n'atteigne 70 pour-cent des ventes totales. Si les ventes d'un groupe d'articles forment 70 pour-cent ou plus des ventes totales, la maison est assignée à l'une des spécialités.

**Biscuits et autres produits de la boulangerie.**—Les maisons faisant le commerce des produits de boulangerie tels que biscuits, craquelins, etc. Ce groupe se compose des succursales de ventes des manufacturiers de biscuits et aussi d'un nombre considérable de distributeurs ambulants de pain et d'autres produits de la boulangerie.

**Conserves alimentaires.**—Les maisons faisant le commerce de conserves alimentaires comme le saumon, les fruits et légumes, les conserves alimentaires d'origine marine, le lait, etc.

**Café, thé, épices et cacao.**—Les maisons se spécialisant dans la vente du café et des autres denrées mentionnées. Un grand nombre d'importateurs ainsi que de succursales de ventes de plusieurs gros mélangeurs et emballeurs de thé et de café se trouvent dans ce commerce.

**Farine.**—Les maisons se spécialisant dans la vente de farine, ou de farine et de provende et de produits connexes, et dont les ventes de farine constituent 50 pour-cent ou plus des ventes totales.

**Sucre.**—Comprend les maisons faisant principalement le commerce du sucre.

**Autres spécialités, produits alimentaires et épiceries.**—Les maisons faisant le commerce des céréales, des produits alimentaires préparés, des extraits, des fruits et légumes secs, des succédanés du saindoux, et d'autres spécialités alimentaires telles que vinaigre, assaisonnements, sirop, levure, malt, amidon, huile d'olive, etc.

### QUINCAILLERIE

**Quincaillerie (assortiment complet).**—Cette classification comprend les maisons tenant un assortiment général et complet de produits de quincaillerie s'étendant au delà des limites du terme "quincaillerie" employé dans son sens restreint pour désigner seulement des articles comme quincaillerie de construction ou de rayons, quincaillerie lourde ou outils. Les ventes de ces articles

de quincaillerie ne forment pas nécessairement la majeure partie des ventes annuelles totales. Les articles de plomberie et de chauffage, la peinture et les vernis, le fer et les produits de l'acier comme le fil métallique à clôture, les matériaux de construction, l'outillage de ferme et de jardin, les articles de sport et les appareils électriques forment des groupes importants de marchandises dans le commerce général de gros de quincaillerie. Le grand nombre de marchandises composant ce genre de commerce provient dans une certaine mesure du fait que dans un nombre considérable de cas ce commerce est exploité sur une base tant de détail que de gros.

**Quincaillerie (spécialités).**—Ces maisons font le commerce de marchandises comprises dans le terme quincaillerie employé dans son sens le plus étroit et généralement réduit encore à une ou deux subdivisions du groupe des articles de quincaillerie. Cette classification comprend les maisons se spécialisant dans un article ou dans un nombre limité d'articles comme ferronnerie de construction, ustensiles de cuisine, petits outils, boulons et écrous, etc. Les maisons tenant un assortiment général de petits outils ou un assortiment d'outils employés pour fins générales entrent dans cette classification. Les maisons ayant comme spécialité les outils d'une industrie ou d'un commerce spécifiés sont classifiées dans la subdivision appropriée du groupe de machinerie, outillage et fournitures.

### BIJOUTERIE

**Bijouterie (assortiment complet).**—Cette classification comprend les maisons tenant un assortiment général de bijouterie, déclarant la vente d'au moins trois des quatre groupes de produits suivants, et dont les ventes d'aucun de ces groupes n'atteignent 75 pour-cent du total des ventes: (1) horloges et montres; (2) bijouterie y compris nouveautés en bijouterie; (3) pierres précieuses et métaux précieux; (4) argenterie et articles plaqués.

**Bijouterie (spécialités).**—Ce sont les maisons se spécialisant dans la vente d'un article ou au moins d'un assortiment limité d'articles de bijouterie. Les ventes d'un des quatre groupes ci-dessus doivent former au moins 75 pour-cent des ventes totales pour passer dans ce groupe.

### CUIR ET ARTICLES EN CUIR

**Articles en cuir.**—Cette classification comprend toutes les maisons déclarant la vente d'un assortiment général ou de spécialités d'articles en cuir tels que harnais, articles de voyage, nouveautés en cuir, nécessaires de toilette, etc. Les vêtements de cuir et les chaussures sont inclus dans le groupe des merceries et vêtements et non ici.

**Cuir.**—Sont comprises ici les maisons se spécialisant dans la vente de cuir et pièces surtout pour le commerce des chaussures. Les crépins peuvent aussi être tenus, mais si la vente de ces articles s'élève à plus de la moitié du commerce total, la maison est assignée au commerce de crépins.

**Crépins.**—Sont comprises ici les maisons engagées dans la vente de crépins tels que semelles et talons en caoutchouc, lacets, polis, semelles, clous, teintures, fers de talons, ciment. Le cuir peut aussi être vendu, mais si la vente de cuir et pièces atteint 51 pour-cent des ventes totales la maison est assignée à la classification précédente plutôt qu'à celle-ci.

### BOIS D'ŒUVRE ET MATÉRIAUX DE CONSTRUCTION (autres qu'en métal)

**Matériaux de construction (assortiment complet).**—Les maisons vendant une combinaison des marchandises mentionnées dans les catégories suivantes de spécialités.

**Vitre.**—Les maisons se spécialisant dans la vente de vitre (vitre de construction, verre laminé, verre de fantaisie, vitre d'automobile). Quelques maisons vendent des miroirs comme assortiment subsidiaire. Les maisons dont les miroirs sont la spécialité sont assignées à la classification des fournitures de maison plutôt qu'à celle-ci.

**Matériaux isolants et/ou de toiture.**—Les maisons se spécialisant dans la vente de matériaux isolants et/ou de toiture tels que laine minérale, laine isolante, planches murales, bardoux d'asphalte et tous les matériaux de toiture autres qu'en métal ou bois.

**Peintures, vitre et papier-tenture.**—Les maisons tenant une combinaison de peinture, papier-tenture, vitre et fournitures de peintre et décorateur. Les maisons se spécialisant dans la vente de peinture seulement ont été assignées à la classification des peintures dans le groupe des produits chimiques et celles qui ne tiennent que du papier-tenture, au groupe du papier et produits du papier.

**Autres spécialités.**—Les maisons se spécialisant dans d'autres genres de matériaux de construction comme la brique, la tuile, la pierre de construction, le ciment ou les blocs de ciment, la chaux, le plâtre, le granit, le marbre, le sable, le gravier, la pierre concassée, les produits du gypse et de la chaux, etc.

**Bois d'œuvre.**—Les maisons se spécialisant dans la vente de bois d'œuvre brut ou préparé. Les maisons de cette classe font généralement le commerce de ces marchandises seulement.

**Bois d'œuvre et bois ouvré.**—Les maisons vendant du bois brut ou préparé en même temps que du bois ouvré comme portes et châssis, planches à parquet, planches murales, moulures, etc. Sont comprises aussi les maisons vendant du bois ouvré sans tenir du bois en grume.

### MACHINES, OUTILLAGE ET FOURNITURES (excepté électriques)

**De boucheries.**—Les maisons se spécialisant dans des articles comme boyaux à saucisse, outillage de bouchers, hache-viande et machine à trancher, outillage d'abattoir, assaisonnements, blocs de bouchers et plateaux à viande, etc.

**De bureaux et de magasins.**—Les maisons se spécialisant dans des articles comme dactylographes, arithmographe, chemises, papier carbone, clefs de dactylographe, ouvre-lettres, duplicateurs, aménagements de magasin, vitrines, étalages, crochets, serrures, modèles, systèmes de caisse transporteuse, meubles de bureau, etc.

**Tous autres machines, outillage et fournitures commerciaux.**—Sont comprises ici les maisons dont la spécialité consiste en d'autres genres de machines, outillage et fournitures commerciaux y compris vendeuses automatiques, outillage de garage et de poste d'essence, accessoires de fleuristes, compteurs enregistreurs, balances, portes de voûtes, et outillage d'hôtel ou restaurant.

**Machines, outillage et fournitures de construction.**—Les maisons se spécialisant dans les genres de machines particulières aux commerces d'entrepreneur et constructeur de routes comme niveleuses, régaleuses, malaxeurs, grues, pelles mécaniques, concasseurs, raccordements de tuyaux, machines d'entretien, etc.

**Machines et outillage agricoles.**—Les maisons se spécialisant dans l'outillage de laiterie tel que barattes, écrémeuses, trapeuses, refroidisseurs de lait, outillage de grange et d'étable aussi bien que dans un assortiment général d'instruments et machines agricoles comme tracteurs, moissonneuses-batteuses, moissonneuses, lieuses, faucheuses, râteliers, machines à cultiver, herbes, charrues, semeuses, moteurs à vent, pompes, etc.

**Bouteilles et outillage d'embouteillage.**—Comprend les maisons faisant le commerce des machines de brasserie, enveloppe-bouteilles, laveuses de bouteilles, sirop, réservoirs d'emmagasinement, machines à carbonater, bouteilles, capsules de bouteilles, brosses de brasserie.

**Transporteurs et machines de levage.**—Les maisons faisant le commerce de toutes sortes de transporteurs industriels et de machines de levage tels que grues à chariot, transporteurs à courroie et à cylindre, courroies et chaînes sans fin, monte-charge à compresseur.

**Machines industrielles (assortiment complet).**—Les maisons tenant un assortiment général et complet de machines industrielles. Aussi les maisons dont le rapport indique le commerce de plus d'un assortiment, bien que ne soit pas vendu un assortiment complet.

**Machines-outils.**—Les maisons faisant le commerce d'outils actionnés par l'énergie tels que tours, broyeuses, perceuses, alésoirs, coupeuses, robinets, matrices, ébaucheuses. Sont aussi comprises ici les maisons vendant des meules à aiguiser, pierres d'émeri et toutes matières abrasives.

**De mines.**—Les maisons vendant de l'outillage de mines tel que compresseurs, outils pneumatiques, foreuses, locomotives de mines, cellules de flottation, échantillonneurs à minerais, etc.

**De puits d'huile.**—Ceci comprend les matériaux tabulaires pour les puits d'huile, et les fournitures et l'outillage de puits d'huile et de gaz.

**Outillage d'usines génératrices et de transmission d'énergie.**—Les maisons faisant le commerce d'outillage d'usines génératrices tel que chaudières, turbines hydrauliques, indicateurs d'écoulement, contrôles de vapeur, chauffeurs automatiques, éventails (autres que domestiques), chaufferettes, régulateurs à vapeur. Aussi de l'outillage et des fournitures de transmission tels que courroies, garnitures, obturateurs manufacturés et finis, etc.

**D'imprimerie et de lithographie.**—Comprend les maisons faisant le commerce d'articles tels que presses à imprimer, linotypes, brocheuses, coupeuses, reliures, machines à photogravure, encres d'impression, cylindres, caractères, métaux à caractère.

**De filatures.**—Les maisons faisant le commerce de machines à carder, à filer, à tisser, à coudre, à couper l'étoffe et à tricoter.

**Machines usagées.**—Toutes les maisons faisant surtout le commerce de machines usagées. Les machines neuves peuvent être tenues en petite quantité.

**Autres machines, outillage et fournitures industriels.**—Les maisons vendant des machines, outillage et fournitures industriels et qui ne tombent pas sous les classifications spéciales prévus. Sont comprises des maisons se spécialisant dans la vente d'outillage pour des industries telles les beurrieres, fromageries, conserveries, fonderies, les industries du bois et de la pulpe et les moulins à papier. Sont aussi incluses les maisons se spécialisant dans la vente d'articles mécaniques ne pouvant être classifiées sous "outillage d'usines génératrices et de transmission d'énergie".

**D'églises et d'écoles.**—Les maisons faisant le commerce de fournitures religieuses et d'écoles telles qu'ornements, fournitures et accessoires d'église, statues, chapelets, recueils de cantiques, livres de prières, etc. Aussi fournitures d'écoles telles que pupitres, cartes, tableaux d'ardoise et mixtes, cahiers, crayons, etc.

**De dentistes.**—Les maisons se spécialisant dans la vente de meubles, instruments, matériaux de dentistes, etc. Les laboratoires dentaires n'ont pas été inclus ici mais ils sont compris dans le Recensement des Etablissements de Service.

**Scientifiques et de laboratoires.**—Les maisons faisant le commerce d'outillage et d'appareils de dessinateurs et d'architectes, thermomètres, manomètres, baromètres et autres instruments scientifiques. Les maisons ont été comprises ici seulement lorsqu'il était connu que la plus grande partie du commerce consistait en des ventes à des organismes commerciaux, industriels, professionnels et gouvernementaux. Autrement, elles ont été classifiées comme établissements de détail.

**De chirurgiens, médecins et hôpitaux.**—Les maisons dont la spécialité consiste dans des articles tels qu'appareils de rayons X, machines de thérapie physique, instruments de médecine et de chirurgie, lits d'hôpital. Des produits pharmaceutiques divers tels qu'articles de pansement, gaze, coton hydrophile, bandages sont quelquefois tenus.

**Tous autres outillage et fournitures professionnels.**—Les maisons se spécialisant dans des marchandises comme outillage et fournitures d'artistes, outillage de pharmaciens et tous les autres genres d'outillage professionnel pour lesquels il n'y a aucune classification.

**De salons de barbier et de beauté.**—Les maisons faisant le commerce d'outillage de salons de barbier et de beauté tel que chaises de barbier, machines à onduler, séchoirs, frisoirs, rasoirs, ciseaux, peignes et brosses à cheveux. Les préparations de toilette en usage dans les salons de beauté sont souvent tenues comme assortiment subsidiaire.

**De protection contre l'incendie.**—Les maisons faisant le commerce d'articles comme masques à ammoniac, masques à fumée, échelles à coulisse et escabeaux, systèmes de gicleurs automatiques, boyaux d'incendie, extincteurs, appareils chimiques d'extinction, appareils à moteur contre l'incendie, systèmes avertisseurs d'incendie, paratonnerres, etc.

**De buandiers et de nettoyeurs à sec.**—Les maisons vendant des articles comme machines à presser à vapeur, machines à nettoyer les chapeaux, lessiveuses commerciales à vapeur, séchoirs, savons, compositions de blanchissage et de nettoyage, fournitures de nettoyage à sec, etc.

**Autres outillage et fournitures d'établissements de service.**—Les maisons qui ont comme spécialité l'outillage et les fournitures destinés à des genres d'établissements de service autres que ceux tombant sous les classifications spéciales prévues. Sont comprises, entre autres, les maisons se spécialisant dans la vente d'outillage et fournitures pour concierges, plombiers, directeurs de funérailles, rembourseurs, entrepôts, etc.

**Avions et outillage et fournitures aéronautiques.**—Les maisons faisant le commerce d'outillage et fournitures d'avions comme aéroplanes, pontons, hélices, pièces d'avion, parachutes, instruments, etc.

**De chemin de fer.**—Les maisons se spécialisant dans les articles particuliers à l'industrie ferroviaire tels que semelles de frein, commandes automatiques, signaux de voie ferrée, plaques de traverse, aménagements de wagon à marchandises, boîtes à tourillons, leviers de voies, attache-rails, chapes en acier forgé, rails, éjecteurs de gaz et de vapeur, toits de wagons, tubes de chaudières, aiguilles de rails, autorails.

**De marine.**—Les maisons qui ont comme spécialité des articles tels que moteurs marins, outillage de marine. Les maisons vendant un assortiment général de fournitures pour navires telles que provisions, fournitures de pêche, ferronnerie, etc. ont été classifiées comme "Fournitures de navires" sous le groupe "Tous autres".

## MÉTAUX ET MÉTAUX OUVRÉS

Ce groupe majeur se compose des maisons se spécialisant dans la vente de métaux et de métaux ouvrés généralement destinés à servir de matériaux pour plus ample conditionnement plutôt que comme produits finis. Le groupe se divise en deux subdivisions principales: (1) les maisons ayant comme spécialité le fer et l'acier ou leurs produits, bien que les métaux non ferreux puissent être tenus comme articles subsidiaires et (2) les maisons se spécialisant dans les métaux non ferreux.

**Fil métallique et articles en fil métallique.**—Sont comprises dans cette classification les maisons se spécialisant dans la vente de fil métallique ou d'articles en fil métallique tels que cordes ou câbles métalliques (excepté isolés), grillages, matériaux à clôture, treillis, etc.

**Tôle et tôle.**—Cette classification comprend les maisons se spécialisant dans la vente de tôle de fer ou d'acier et de feuilles ou plaques de métal. Sont aussi incluses les maisons faisant surtout le commerce de plaques d'acier ouvré ou d'articles en tôle tels que pièces embouties, boîtes en fer-blanc, toiture métallique, gouttières, ventilateurs, tambours, etc.

**Fer et acier de charpente.**—Cette classification comprend les maisons se spécialisant dans la vente de formes, plaques d'acier, ou armatures ou barres de renforcement pour travaux de construction.

**Fer et acier (autres spécialités).**—Sont comprises ici les maisons vendant une spécialité d'articles de fer et d'acier pour laquelle aucune classification n'est prévue. Sont incluses les maisons se spécialisant dans la vente d'articles comme outils en acier, barres d'acier laminé à chaud ou à froid, acier en barres, rubans ou bandes d'acier, coussinets ou tuyautage d'acier.

**Fer et acier (assortiment complet).**—Cette classification comprend les maisons vendant un assortiment varié de produits du fer et de l'acier renfermant des articles tels que formes et plaques de charpente, barres, tiges, tôle, fils métalliques et articles en fil métallique, tuyaux ou tubes. La fonte en gueuse ou le fer et l'acier semi-ouvrés tels que billettes, blooms ou brames peuvent être tenus mais non comme articles majeurs.

**Autres fer et acier.**—Cette classification comprend deux subdivisions principales. Dans le premier cas elle comprend les établissements se spécialisant dans la vente de pièces coulées ou forgées y compris les succursales de ventes tenues par les fonderies. Deuxièmement, cette caté-

gorie comprend tous les autres établissements tombant dans le groupe du fer et de l'acier, mais dont les renseignements ne sont pas suffisants pour justifier leur attribution à l'une ou l'autre des classifications prévues.

**Métaux et métaux ouvrés (autres que fer et acier).**—Sont comprises ici les maisons se spécialisant dans la vente de métaux et produits de métaux autres que le fer et l'acier. Sont incluses les maisons qui ont comme spécialité l'aluminium, le cuivre, le zinc, le plomb, le nickel et les composés du nickel, l'argent, l'or, les ferro-alliages. Les maisons vendant une combinaison de métaux ferreux et non ferreux sont assignées à la présente classification ou à une des précédentes selon le principal article tenu.

### PAPIER ET PRODUITS DU PAPIER

**Papiers à imprimer et à écrire (y compris papier à journal).**—Les maisons se spécialisant dans la vente de papier à journal ou dans la vente de papiers fins—papier à livre, papier registre, etc. Les maisons vendant des papiers fins peuvent aussi être engagées dans la distribution de fournitures de relieurs telles que papier ou toile à couverture.

**Papeterie et fournitures de papeterie.**—Les maisons se spécialisant dans la vente de papeterie (surtout papeterie de bureau) y compris papier à en-têtes, crayons et plumes, systèmes de feuilles amovibles, etc.

**Papier d'emballage ou grossier et ses produits.**—Les maisons se spécialisant dans la vente de papier ou sacs d'emballage, boîtes de carton, papier de toilette et papier de soie. Aussi d'autres produits du papier tels que serviettes, récipients, matériel pour caisses d'œufs, etc.

**Autres articles en papier.**—Les maisons faisant le commerce d'articles en papier et qui ne peuvent être assignées à aucune classe spéciale. Ceci comprend les maisons qui ont comme spécialité des articles tels que papier-tenture, cartes de souhaits et cartes postales, panneaux de réclame, étiquettes ou seaux, enveloppes de pain, de beurre, etc.

### PÉTROLE ET DÉRIVÉS DU PÉTROLE

Les établissements se spécialisant dans la vente de produits du pétrole comme gazoline, distillés pour tracteurs et moteurs, huile à brûler, asphalte, kérosène, et huiles et graisses de lubrification. Cette classification se compose surtout de grosses stations de réservoirs exploitées soit directement, soit comme agences par de gros distributeurs de produits du pétrole.

### OUTILLAGE ET FOURNITURES DE PLOMBERIE ET DE CHAUFFAGE

**Outillage et fournitures de chauffage.**—Les établissements engagés principalement dans la vente d'une spécialité ou d'un assortiment varié d'outillage et fournitures de chauffage y compris des articles comme chaudières de chauffage plutôt que de génération d'énergie, chauffeurs automatiques, réchauds unitaires, radiateurs, valves ou purgeurs de radiateurs, appareils de contrôle de température ou d'humidité, ventilateurs, brûleurs ou fournaies à pétrole. Les spécialités du commerce consistent surtout en brûleurs à pétrole, appareils de contrôle automatique, et fournaies et réparations de fournaies. Les outillage et fournitures de plomberie peuvent être vendus mais quand le rapport indique que ces ventes constituent au moins 20 pour-cent des ventes combinées d'outillage et fournitures de chauffage et de plomberie, la maison est assignée à la classification d'outillage et fournitures de plomberie et de chauffage. Sont aussi comprises les maisons tenant un assortiment combiné de ventilateurs, souffleurs et outillage de climatisation.

**Outillage et fournitures de plomberie.**—Cette classification comprend les maisons se spécialisant dans la vente d'aménagements et fournitures de plomberie y compris des articles comme cabinets de toilette, éviers, baignoires, valves, raccords, tuyaux de descente et accessoires connexes. L'outillage et les fournitures de chauffage peuvent être tenus, mais les ventes n'en doivent pas excéder 20 pour-cent du chiffre combiné.

**Outillage et fournitures de plomberie et de chauffage (assortiment complet).**—Les établissements tenant les outillage et fournitures tant de plomberie que de chauffage et dont la vente du plus petit des deux éléments forme au moins 20 pour-cent de la somme des deux.

Ces maisons peuvent se spécialiser dans ces produits ou les tenir en plus d'un assortiment plus général de marchandises lourdes telles que quincaillerie ou fer et acier ouvrés. Les tuyaux de fer et d'acier autres que pour fins de chauffage et de plomberie sont fréquemment tenus. Mais en de tels cas les ventes d'outillage et fournitures de plomberie et de chauffage sont plus grandes que les ventes de tout autre groupe général de marchandises.

**Autres outillage et fournitures de plomberie et de chauffage.**—C'est une classification résiduelle à laquelle sont assignées les maisons qui tombent sous ce groupe majeur mais qui ne répondent à aucune des définitions des trois classifications précédentes. Sont comprises ici les maisons se spécialisant dans la vente de matières réfractaires, ventilateurs à énergie ou autre outillage de climatisation. Sont aussi incluses les maisons se spécialisant dans la vente d'accessoires de tuyauterie, valves et articles connexes lorsqu'aucun renseignement n'indique si ces articles servent pour chauffage ou plomberie ou pour les deux.

#### TABAC ET PRODUITS DU TABAC (excepté en feuilles)

**Cigares, cigarettes et tabac.**—Sont comprises ici les maisons se spécialisant dans la vente de tabac, cigares et cigarettes. Les articles divers de fumeurs, journaux, magazines et autres peuvent être tenus comme articles de moindre importance. Toutes les maisons tenant des confiseries en même temps que du tabac sont assignées à la classification suivante à moins que les ventes de bonbons et de confiseries ne représentent pas 5 pour-cent des ventes totales.

**Tabac et confiserie.**—Toutes les maisons tenant et du tabac et des confiseries ont été comprises ici à moins que les ventes du plus petit article ne forment moins de 5 pour-cent des ventes totales. D'autres articles tels qu'articles divers de fumeurs, journaux, magazines, épicerie, menus articles et nouveautés sont souvent tenus en petite quantité.

#### MATIÈRES DE REBUT (y compris métal de rebut)

**Vieilleries et rebuts (assortiment complet).**—Sont incluses ici les maisons se déclarant comme "vendeurs de vieilleries" et qui vendent un assortiment général d'articles de rebut tels que métaux, papier, chiffons, bouteilles, caoutchouc. Les ventes se font surtout aux consommateurs industriels.

**Métal de rebut.**—Les maisons faisant le commerce des rebuts métalliques, qu'il s'agisse de fer et d'acier, de cuivre, de laiton ou d'autres métaux.

**Matières de rebut (autres spécialités).**—Les maisons vendant une spécialité de matières de rebut, autres que de métaux, telles que papier, chiffons, sacs ou toile à sac ou une combinaison d'articles qui n'est pas assez complète pour être classifiée comme "assortiment complet".

#### TOUS AUTRES

**Livres, périodiques et journaux.**—Les maisons se spécialisant dans la distribution en gros de livres, périodiques, magazines ou journaux. Cette classe peut se diviser en deux genres principaux: (a) les éditeurs de livres ou périodiques qui n'impriment pas mais examinent le manuscrit et prennent les risques encourus par la publication de nouveaux livres. Un certain commerce de gros peut aussi être fait. Les représentants canadiens d'éditeurs étrangers sont inclus. (b) les vendeurs de gros de journaux et magazines.

**Huiles, graisses et cires.**—Sont comprises dans cette classe les maisons se spécialisant dans la vente des huiles essentielles pour les parfumeurs et les fabricants de savons. Les condiments et les extraits de fruits peuvent être vendus. Les maisons se spécialisant dans les huiles animales et végétales, de graine de coton, de graine de lin, etc. Aussi les maisons qui ont comme spécialité la cire et les chandelles.

**Articles d'optique.**—Les maisons qui tiennent un assortiment général d'articles d'optique. Ceci comprend les lentilles, les montures, les châsses, les étuis. Les fournitures et outillage d'opticiens sont quelquefois tenus comme assortiment subsidiaire.

**Articles en caoutchouc (assortiment complet).**—Cette classe comprend les maisons tenant un assortiment assez général d'articles de caoutchouc, y compris chaussures, pneus et chambres à air, articles de machines et autres articles en caoutchouc.

**Fournitures de navires.**—Les maisons tenant un assortiment général d'outillage et fournitures pour navires et pêcheurs. Ceci comprend une grande variété de marchandises telles que quincaillerie, cordes, cordages et ficelle, peintures, provisions, gazoline, sel de pêche, chaussures et vêtements en caoutchouc, etc.

**Cordage et ficelle.**—Sont comprises ici les maisons se spécialisant dans la vente de corde, ficelle d'engrèbage, filets de pêche, etc.

**Autres textiles et tissus.**—Sont comprises dans cette classe les maisons faisant le commerce de produits textiles tels que sacs ou toiles à sac, filés, coton à fromage, etc.

**Marchandises d'occasion (excepté machines et véhicules automobiles).**—Les maisons faisant le commerce d'articles d'occasion tels que poêles, meubles, vêtements, matériaux de construction, outillage de plomberie, outillage électrique, bijouterie, etc.

**Divers genres de commerce.**—Ce groupe comprend les maisons faisant le commerce de marchandises pour lesquelles aucune classification séparée n'est prévue, tels que glace, articles de fantaisie, articles divers de fumeurs, éponges et chamais, etc. Sont aussi comprises un nombre limité de maisons tenant un certain nombre de catégories d'articles sans rapport entre eux et qui ne peuvent être assignées à aucune autre classification.

## APPENDIX C

### TYPES OF CENSUS SCHEDULES

Five different types of schedule were used in collecting reports from the wholesale trade but in order to economize in space, only one of these is reproduced in this volume. Form No. 1 which is reprinted here was the general and most detailed schedule used. The other schedules were similar to Form No. 1 in most respects with the exception of the section relating to sales by commodity classes. In these schedules this section was either omitted altogether or was restricted to specialized commodity groups characteristic of the trades for which the schedules were prepared. The following is a list of the schedules used:

**Form No. 1.**—General schedule for all wholesalers other than those engaged in trades for which special forms were prepared.

**Form No. 2.**—For wholesalers in the grocery trade. Similar to Form No. 1 with the exception of the commodity section which is restricted to food products and other items frequently carried by the wholesale grocery trade.

**Form No. 3.**—A simplified form omitting the commodity section altogether and used as a follow-up form for those firms which reported that they were unable to complete the more detailed schedules.

**Form No. 4.**—For persons or firms engaged in various phases of the farm products trades. Used by country or city buyers of farm products, by grain elevator companies and cooperative marketing associations.

**Form No. 5.**—A special form designed for wholesale distributors of petroleum products.

In addition to the schedules listed above a special form was used for firms operating a number of branches which facilitated the assembly of the information for all units in the organization in convenient form.

## APPENDICE C

### GENRES DE QUESTIONNAIRES DE RECENSEMENT

Cinq questionnaires différents ont été utilisés pour recueillir les rapports du commerce de gros mais, afin d'épargner l'espace, un seul de ceux-ci est reproduit dans le présent volume. La formule n° 1, reproduite ici, est le questionnaire général et le plus détaillé qui ait été utilisé. Les autres questionnaires sont dans l'ensemble semblables à la formule n° 1, à l'exception de la section relative aux ventes par genres de produits. Dans ces questionnaires, cette section est omise complètement ou est limitée aux groupes particuliers de produits caractérisant les commerces pour lesquels les questionnaires ont été préparés. Suit une liste des questionnaires utilisés:

**Formule n° 1.**—Questionnaire général pour tous les grossistes autres que ceux engagés dans des commerces pour lesquels des formules spéciales ont été préparées.

**Formule n° 2.**—Pour les grossistes dans le commerce d'épicerie. Semblable à la formule n° 1 à l'exception de la section des produits qui est limitée aux produits alimentaires et autres item fréquemment vendus par le commerce d'épicerie en gros.

**Formule n° 3.**—Une formule simplifiée omettant tout à fait la section des produits et utilisée comme formule complémentaire pour les établissements déclarant ne pouvoir remplir les questionnaires plus détaillés.

**Formule n° 4.**—Pour les personnes ou établissements engagés dans les diverses phases du commerce des produits de la ferme. Utilisée par les acheteurs de produits agricoles, urbains ou de la campagne, par les compagnies d'éleveurs à grain et par les associations coopératives.

**Formule n° 5.**—Une formule spéciale pour les distributeurs en gros des produits du pétrole.

En plus des questionnaires ci-dessus mentionnés une formule spéciale a été utilisée pour les établissements exploitant un certain nombre de succursales, laquelle a facilité la réunion des renseignements pour toutes les unités de l'organisation sous une forme convenable.

## DEPARTMENT OF TRADE AND COMMERCE, CANADA

## CONFIDENTIAL CENSUS REPORT

File No. ....

Your report is required by Act of Parliament, Statistics Act, Chapter 190, Revised Statutes of Canada, 1927. Refusal or neglect to furnish information is an offence under the Act. The Act also makes it unlawful for the Bureau to disclose any facts relating to the business of individual firms. All answers will be held absolutely confidential. Only census employees sworn to secrecy will see your statements. The information you furnish on your report will be used solely for preparing statistics, and will not be made available for taxation purposes or disclosed to municipal or provincial authorities or to any other department of the Dominion Government.

Form No. 1  
Wholesale Schedule  
General

DOMINION BUREAU OF STATISTICS, OTTAWA

## CENSUS OF MERCHANDISING AND SERVICE ESTABLISHMENTS, 1941

All reports should relate to the calendar year 1941, or to the business year most closely conforming with the calendar year.

If possible, reports should cover the full year's operation. If you did not operate for the full year, complete the schedule for that portion of the year in which you were in business.

Firms which own and operate more than one sales establishment must prepare a separate report for each.

Most of the questions are self-explanatory. Additional explanations are given in the instructions.

## I.—DESCRIPTION OF BUSINESS:—

- (a) Name and .....  
address of .....  
firm .....  
(If name or address as given above is incorrect, please revise)
- (b) Name of owner of business (if different from above) .....
- (c) County (Ontario, Quebec and Maritime Provinces only) .....
- (d) Is establishment located within corporate limits of city, village or incorporated place? (Yes or No) .....
- (e) Post office address of head office (if different from above) .....
- (f) Number of wholesale sales (not manufacturing) establishments operated by this firm in 1941 .....
- (If two, three or more, show under "Remarks" at end of schedule the name and address of each)
- (g) Give year when this establishment came under the present ownership at present location .....
- (h) State whether operated by individual, partnership, corporation or cooperative society .....
- (i) Is this business wholesale or retail? .....
- (If both, give approximate percentage of sales transacted on each basis)
- (j) Is any manufacturing carried on in this establishment? (Yes or No) .....
- (k) Does this establishment sponsor or is it affiliated with a voluntary chain; that is, a group of independent retailers grouped for buying or advertising purposes? (Yes or No) .....
- If "Yes" give:—  
(a) Name(s) of chain .....
- (b) Number of retailers in each chain in 1941 .....
- (c) Value of sales made to members of each chain in 1941 \$ .....

## II.—KIND OF BUSINESS:—

- (a) Kind of business .....
- (Such as drugs and drug sundries, dry goods, hardware, electrical goods, fish and sea foods, furniture, automotive equipment, etc.)
- (b) Name principal kinds of merchandise sold, in order of their importance based on selling value:—
- |         |         |
|---------|---------|
| 1. .... | 4. .... |
| 2. .... | 5. .... |
| 3. .... | 6. .... |
- (c) Indicate in a general way the sales territory covered regularly by this establishment .....

# CENSUS OF MERCHANDISING AND SERVICE ESTABLISHMENTS, 1941 361

III.—TYPE OF WHOLESALE DISTRIBUTOR.—Indicate by a check-mark the type to which this business belongs; i.e., the type that accounts for the largest proportion of the business of the establishment. See Instructions for definitions.

## CHECK ONLY ONE

|   |                                  |                                      |
|---|----------------------------------|--------------------------------------|
| Auction Company.....  | Distributing Warehouse.....      | Manufacturers' Agent.....            |
| Broker (Check here only if engaged chiefly as broker in domestic trade).....                                      | Drop Shipper or Desk Jobber..... | Manufacturer's Sales Branch.....     |
| Bulk Tank Station.....  | Elevator (independent).....      | Packer and Shipper.....              |
| Cash-and-Carry Wholesaler.....  | Elevator (line).....             | Purchasing Agent or Resident Buyer.. |
| Chain Store Warehouse.....  | Export Agent or Broker.....      | Selling Agent.....                   |
| City Buyer of Farm Products.....  | Export Merchant.....             | Supply House and Equipment Dealer..  |
| County Buyer of Farm Products (Check here only when most of goods handled are purchased direct from farmers)..... | Film Exchange.....               | Wagon Distributor.....               |
| Commission Merchant.....  | General Sales Office.....        | Wholesale Merchant.....              |
| Cooperative Marketing Association.....  | Import Agent or Broker.....      | Wholesaler and Retailer.....         |
| Cooperative Sales Agency.....   | Import Merchant.....             | Other (Specify).....                 |
|   | Jobber.....                      |                                      |
|   | Mail Order Wholesaler.....       |                                      |

(In order to assist us in classifying your firm properly, please describe briefly your general method of transacting business. State whether goods are bought and sold on your own account, on commission or on both bases. Mention the chief sources of your supply, whether manufacturers, wholesalers or primary producers. Indicate whether the goods in which you deal are chiefly of foreign or domestic origin. Indicate whether stocks are generally carried on your own account, on consignment, or both.)

## IV.—PROPRIETORS OR PARTNERS (Not applicable to corporations):—

(Report only those devoting all, or practically all, of their time to the business)

(a) Proprietors who do not receive a stated salary or who are without regular drawing account:—

(1) How many male?..... How many female?.....

(b) Proprietors who do receive a stated salary or withdraw a stipulated amount as payment for managing the business:—

(1) How many male?..... How many female?.....

(2) Total amount of proprietors' salaries or withdrawals from regular drawing account for the year, or period covered by this report..... \$.....  
(Do not include employees' wages)

## V.—EMPLOYEES AND PAYROLL (Include working executives of INCORPORATED companies):—

(Do not include figures already given in section IV.)

(a) Average annual employment:—

State the average number of employees engaged during the year or give the number engaged during what you consider was a representative month or week.

How many male?..... How many female?.....

(b) Annual payroll:—

What was the total amount of salaries, wages, commissions and bonuses paid to all employees in 1941, or period covered by this report? (Include deductions for National Defence Tax and for social services such as Unemployment Insurance) \$.....

(c) Seasonal employment:—

If records are available, please show the number of employees on your payroll for the pay period nearest the first of each month:

|             | Jan. | Feb. | March | April | May | June | July | Aug. | Sept. | Oct. | Nov. | Dec. |
|-------------|------|------|-------|-------|-----|------|------|------|-------|------|------|------|
| Number..... |      |      |       |       |     |      |      |      |       |      |      |      |

NOTE.—If part of your business consists of manufacturing and employees engaged in such manufacturing are reported annually to the Dominion Bureau of Statistics on Census of Industry schedules, exclude all such manufacturing employees from this report.

Where the answer to an inquiry is "nothing" insert "O" or the word "nil". Do not leave the space blank.

# 362 CENSUS OF MERCHANDISING AND SERVICE ESTABLISHMENTS, 1941

## VI.—NET SALES, 1941 (Annual turnover):—

(Commission merchants should report selling value of goods and not commissions received)

- (a) Net sales (Gross sales less returned goods and allowances)..... \$.....  
(Include all forms of sales taxes)
- (b) Of the total amount reported above, approximately how much represents each of the following:—
- (1) Sales of goods on your own account?..... \$.....
- (2) Sales of goods sold on commission including sales from consignment stock?..... \$.....  
(Report selling value of goods and not amount of commissions received)
- (c) Break down the total sales reported in (a) to show the value of goods sold to the following types of customer. Careful estimates of the values or percentages of your total sales will be acceptable:
- Domestic sales— \$ or %
- (1) Sales to retailers for resale (including sales to chains, mail-order houses, department stores and independent stores).....
- (2) Sales to industrial, commercial, professional and institutional users (manufacturers, railroads, government bodies, contractors, utilities, etc.).....
- (3) Sales to other wholesalers or jobbers.....
- (4) Sales to household consumers.....
- Export sales—
- (5) Sales made to buyers in foreign countries (include sales to your own foreign branches, if any).....
- (d) Give the amount of credit sales included in VI(a) (all sales other than cash sales)..... \$.....
- (e) If any of your sales consisted of merchandise manufactured in this establishment, give selling value f.o.b. plant of all such sales. This amount should be included in VI(a) above..... \$.....

## VII.—RENTALS:—

- (a) Indicate whether land and buildings used in the business during the year were—
- Owned by you? (Yes or No)..... Rented by you? (Yes or No).....
- Partly owned and partly rented by you? (Yes or No).....
- (b) What was the amount of rent paid for all rented land and buildings used in the business during the year?..... \$.....

## VIII.—OTHER EXPENSES:—

All other expenses paid in the year. (Do not include wages, salaries or rent already shown on this schedule and do not include cost of goods purchased for resale.) Include advertising, light, heat and power, supplies, taxes, insurance, repairs, depreciation, bad debt losses, and all other items of operating expense. Include interest on mortgages on business premises and interest on money borrowed for current business operations but do not include interest on own capital investment..... \$.....

## IX.—STOCKS ON HAND FOR SALE:—

- (a) What was the value of merchandise on hand December 31, 1941, or nearest inventory date at cost or replacement? (Include goods out on consignment but do not include goods of others which you are holding on consignment)..... \$.....
- (b) What was the approximate value of merchandise which you held on consignment for other firms on December 31, 1941, or nearest inventory date?..... \$.....

## X.—OUTSTANDING ACCOUNTS:—

What was the value of customers' accounts and notes outstanding on the books of this firm at the end of the year? (Do not include accounts written off. If nothing indicate "0")..... \$.....

## XI.—SALES BY COMMODITY CLASSES:—

This inquiry is designed to secure the most accurate information available regarding the sale of different commodities. It is realized that many firms do not maintain separate records for each commodity sold but in such instances estimates based on experience will be of great value. Estimates of individual establishments may be too high or too low, but where very large numbers of returns are dealt with, low and high figures tend to offset each other and the calculated totals have a high degree of reliability. Do not hesitate, therefore, to make careful estimates where exact figures are not available. This entire section should be read over carefully in order to see the various commodity groupings listed before entering any figures.

| Commodity Classes   | Value of Sales (Omit Cents) |             | Commodity Classes  | Value of Sales (Omit Cents) |             |
|---|-----------------------------|-------------|--|-----------------------------|-------------|
|   | Item Total                  | Group Total |  | Item Total                  | Group Total |
| TOTAL SALES, ALL COMMODITIES, Copy from VI (a).....       | X \$.....                   |             | 21 Canned fruits and vegetables.....                     | \$.....                     |             |
| FOOD AND RELATED PRODUCTS                                 |                             |             | 22 Canned meats, fish and sea foods.....                 | \$.....                     |             |
| 00 Bakery products (bread, biscuits, crackers, etc.)..... | \$.....                     |             | 23 Canned milk (condensed, evaporated and powdered)..... | \$.....                     |             |
| 10 Beer and other fermented malt liquors.....             | \$.....                     |             | 24 Other canned foods.....                               | \$.....                     |             |
| 20 Canned goods, total (sum of 21 to 24).....             | \$.....                     |             | 30 Coffee, tea, spices and cocoa.....                    | \$.....                     |             |

Where the answer to an inquiry is "nothing" insert "0" or the word "nil". Do not leave the space blank.

Where the answer to an inquiry is "nothing" insert "O" or the word "nil". Do not leave the space blank.

## XII.—REMARKS:—

(a) Are you affiliated in any way with a firm located in another country? (Yes or No).....

If "Yes" state nature of relationship:—  
.....

(b) Is any of the capital invested in this business owned by non-residents of Canada? (Yes or No).....

(c) If more than one establishment is operated by this firm, give here the name and address of each:—

1. ....

2. ....

3. ....

4. ....

Mark (x) opposite those establishments covered by this report.

## CERTIFICATE

This is to certify that the information contained in this schedule is correct and complete to the best of my knowledge and belief, and covers the period from.....19.....

to.....19.....

.....  
(Signature and official title of person furnishing the information)

Date of this return.....194.....

## INSTRUCTIONS W.

## CENSUS OF MERCHANDISING AND SERVICE ESTABLISHMENTS

## INSTRUCTIONS

(a) Every question should be answered. If you attempt to answer the questions as fully as you can, it will save correspondence, and will thus reduce the cost of the census to the country.

(b) The schedule should be returned not later than the date stamped at the top of the first page.

(c) The schedule must be certified by the owner, manager, auditor or agent. See certificate at end of schedule.

(d) Retain for your own records the schedule marked "Keep this copy for your files".

## HOW TO FILL IN THE SCHEDULE

The questions on the schedule are largely self-explanatory but the following notes relating to some of the questions may be found to be of some assistance. The headings under which these notes appear refer to the corresponding sections of the schedule.

**KIND OF BUSINESS**—The published reports of the census will show the total number of establishments, number of employees, wages, sales and other information for wholesale trading establishments classified in a general way as to kind of business such as the wholesale hardware trade, dry goods trade, automotive parts and accessories trade, fruit and vegetable trade, grocery trade, petroleum products trade, livestock trade, hides and skins trade, etc., etc. Give a full enough description of your business in answer to this section so that it will be known how to classify your business.

This section also asks regarding the extent of the sales territory covered by the establishment. This may be answered in a general way by giving the names of the provinces covered. If your sales territory is more restricted, try to indicate in a general way the section of the province covered. The counties in your sales region may be listed.

**TYPE OF WHOLESALE DISTRIBUTOR**—In addition to classifying each establishment according to the kind of products sold, each establishment is also classified for census purposes according to the manner in which business is conducted. Firms may be classified according to whether they operate on their own account or as agents for others. They may be classified according to whether they carry stocks on their own account, carry stocks on consignment or do not carry stocks at all. They may be classified as between those engaged in the export and domestic trades.

It is recognized that many firms operate on more than one basis. Make a check-mark in this section of the schedule opposite the type that accounts for the largest portion of your annual business. Brief descriptions of some of the various types of wholesalers follow:

**AUCTION COMPANY**—This is not a common type and is found chiefly in the livestock and fur trades. The auction method of selling is used.

**BROKER**—A broker negotiates the terms of sale or purchase but does not handle the goods nor do the invoicing. Brokers' receipts consist of brokerage fees frequently based on the unit rather than the value of sales made. (Brokers engaged in the foreign trade should classify themselves as export or import agent or broker and not here).

**BULK TANK STATION**—The wholesale depots from which petroleum products are distributed by tank wagon to retail service stations or to other wholesale purchasers.

**CASH-AND-CARRY WHOLESALE**—Wholesale merchants which extend no credit and do not make free deliveries of goods.

**CHAIN STORE WAREHOUSE**—The storage and distributing establishments for chain stores.

**CITY BUYER OF FARM PRODUCTS**—This category includes firms or persons located in places of more than 5,000 population and engaged in the purchase of farm products such as livestock, dairy products, poultry products, etc., directly from farmers. If purchases are made mostly from other buyers who have purchased from farmers, the firm should be classified as a wholesale merchant rather than as a city buyer.

**COUNTRY BUYER OF FARM PRODUCTS**—This category is similar to the preceding except that these business establishments are located in places of less than 5,000 population.

**COMMISSION MERCHANT**—A commission merchant is engaged in the sale of goods consigned to him on a commission basis. Many commission merchants also sell on their own account. Check as commission merchant only when the greatest proportion of the business is transacted on this basis.

**COOPERATIVE MARKETING ASSOCIATION**—Associations formed generally for the cooperative marketing of farm products.

**COOPERATIVE SALES AGENCY**—In some instances a number of cooperative marketing associations combine for the purpose of selling their products. The central agency is known as a cooperative sales agency.

**DISTRIBUTING WAREHOUSE**—Wholesale establishments engaged principally in storing and distributing goods with little emphasis on the other functions of wholesale merchants. Found chiefly in the alcoholic beverages trades.

**DROP SHIPPER OR DECK JOBBER**—This type is fairly important in the lumber and coal trades and consists of firms which buy and sell on their own account but do not handle the goods. Goods are frequently ordered after a purchaser is located and are shipped direct from mine or factory to purchaser.

**ELEVATOR (independent)**—Country elevators selling on their own account.

**ELEVATOR (line)**—A chain of country elevators under the same ownership and management and having a head office usually in the central grain market.

**EXPORT AGENT OR BROKER**—A broker engaged in the export trade.

**EXPORT MERCHANT**—Wholesalers who buy and sell on their own account and whose sales are made chiefly to buyers in other countries.

**FILM EXCHANGE**—The agencies through which films are distributed on a rental basis to the motion picture theatres.

**GENERAL SALES OFFICE**—Offices maintained by manufacturers to supervise the activities of sales branches. Large orders and export orders are generally handled through the general sales office.

**IMPORT AGENT OR BROKER**—A broker engaged in the import trade.

**IMPORT MERCHANT**—Wholesalers who buy and sell on their own account and who deal chiefly in imported merchandise.

**JOBBER**—See section on wholesale merchant.

**MAIL ORDER WHOLESALE**—Wholesale merchants, the major portion of whose sales are made by mail order.

**MANUFACTURER'S AGENT**—Establishments or offices which act as representatives of manufacturers with whom they maintain continuous relations. They are in business for themselves and work on a commission basis. They may represent two or more firms dealing in non-competing lines.

**MANUFACTURER'S SALES BRANCH**—The wholesale sales establishments maintained by certain Canadian manufacturers in the larger cities for the purpose of selling and, if necessary, servicing the products of the parent firm.

**PACKER AND SHIPPER**—These are found chiefly in the fruit trade and are engaged in packing, shipping and selling, either on their own account or on the account of others. When working on the account of others, a fee is charged for packing and commission is charged for selling.

**PURCHASING AGENT**—This is not a common type. It consists of firms located in a certain locality for the express purpose of acting as a buying agency for clients in another part of the same country or in a foreign country.

**SELLING AGENT**—This type consists of firms acting as the sales organizations for one or more manufacturing firms. They generally handle the entire output of their principals. This type is important in the coal and the pulp and paper trades.

**SUPPLY HOUSE AND EQUIPMENT DEALER**—This type is taken to mean wholesale merchants carrying a line of heavy equipment or machinery and selling to industrial users rather than to retailers for resale.

**WAGON DISTRIBUTOR**—Firms selling direct to the retail trade from trucks. This type is found in the confectionery trade more frequently than in any other.

**WHOLESALE MERCHANT**—Wholesale trading establishments engaged in buying and selling on their own account and performing all the functions entailed including warehousing, delivery of goods, invoicing and collecting accounts, etc. No distinction is made between a wholesale merchant and jobber in this analysis.

**WHOLESALE AND RETAILER**—A certain number of firms carry on business on both a wholesale and retail basis. Such firms should check this class.

**NET SALES, 1941 (Annual turnover)**—This section is divided into a number of sub-sections, two of which are further broken down. The first asks for your total net annual sales including all forms of sales taxes. Returned goods and allowances should be deducted. Note that brokers, agents and commission houses should report the total selling value of the goods they sold and not the amount of commissions they received.

The second sub-section asks that a distinction be made between sales of goods to which you have taken title and sales for others on a commission basis. The third sub-section asks for an analysis of your sales according to type of customer. It is realized that in many instances actual records will not be available from which to obtain these figures. Careful estimates based on your experience and knowledge of your business will be acceptable.

**RENTALS**—Report the amount paid during the year for rented land and buildings used in the business. Rentals paid for equipment should be included with "other expenses" and not here.

#### OTHER EXPENSES—

DO NOT INCLUDE THE COST OF GOODS PURCHASED FOR RESALE.

DO NOT INCLUDE INWARD FREIGHT.

DO NOT INCLUDE SALARIES, WAGES OR RENT ALREADY REPORTED.

DO NOT INCLUDE INTEREST ON OWN CAPITAL INVESTMENT.

Report here all other operating expenses of the business paid during the year. Include such items as advertising, supplies (wrapping paper, bags, twine, etc.), telephone, telegraph, taxes (other than income taxes), insurance in connection with the business, fuel, light and power, bad debt losses, amount paid for repairs and maintenance, depreciation on owned buildings or equipment, interest on money borrowed for current business operations or on mortgages on business premises. Include delivery costs (unless paid by customer) and any other expenses except the four items set out in heavy type at the beginning of this paragraph.

**STOCKS ON HAND FOR SALE**—The inventory value at the end of 1941 or nearest inventory date is to be reported. Inventory may be reported at cost or at replacement value according to the basis on which it has been calculated for your records. Do not include the value of owned land, buildings or equipment. Distinguish between stocks which you own and stocks which you hold on consignment for others.

**OUTSTANDING ACCOUNTS**—Report the amount owing to your firm by customers at the close of the year. Do not include accounts written off.

**SALES BY COMMODITY CLASSES**—The commodities listed in this section of the schedule are grouped into broad commodity groupings, some of which are further broken down. Check through the section and enter your sales figures opposite the commodity groups which you handle. Many of the items will not apply to your business. Then break down your group totals as far as possible to show your sales of the individual items mentioned on the form. Your most careful estimates of these commodity figures will be satisfactory.

### OUT OF BUSINESS FIRMS

If you no longer operate this business, you should return the schedule together with this sheet, with the following information:—

- (1) Name of present occupant or owner.....
- (2) Post office address of present occupant or owner.....

MINISTÈRE DU COMMERCE, CANADA  
RAPPORT CONFIDENTIEL DE RECENSEMENT

Dossier n°.....

Votre rapport est requis par acte du Parlement, loi de la Statistique, chapitre 190, Statuts Révisés du Canada, 1927. Le refus ou la négligence de nous fournir des renseignements est une infraction à la loi. En vertu de la loi, il est aussi illégal pour le Bureau de divulguer des faits relatifs au commerce de firmes individuelles. Toutes les réponses sont absolument confidentielles. Seuls les employés du recensement, tenus au secret par serment, verront vos états. Les renseignements contenus dans vos rapports servent seulement à la préparation de statistiques; ils ne servent pas à des fins de taxation et ne sont divulgués à nulle autorité municipale ou provinciale ou à tout autre Ministère du Gouvernement fédéral.

Formule n° 1  
Commerce de gros  
général

BUREAU FÉDÉRAL DE LA STATISTIQUE, OTTAWA

## RECENSEMENT DES ÉTABLISSEMENTS DE COMMERCE ET DE SERVICE, 1941

Toutes les réponses doivent se rapporter à l'année civile 1941, ou à l'année commerciale la plus rapprochée de l'année civile. Si la chose est possible, les rapports doivent couvrir les opérations entières de l'année. Si vous n'avez pas opéré pendant toute l'année, veuillez remplir la formule pour la partie de l'année pendant laquelle vous avez opéré. Les firmes qui possèdent ou exploitent plus d'un établissement de ventes doivent préparer un rapport distinct pour chacun.

La plupart des questions s'expliquent d'elles-mêmes. D'autres explications sont données dans les instructions.

## I.—DESCRIPTION DE L'ÉTABLISSEMENT:

- (a) Nom et .....  
adresse de .....  
l'établissement.....  
(Si le nom ou l'adresse donnés ci-dessus sont inexacts, veuillez corriger)
- (b) Nom du propriétaire (s'il diffère de ci-dessus).....
- (c) Comté (Ontario, Québec et Provinces Maritimes seulement).....
- (d) L'établissement est-il situé dans les limites de la cité, du village ou de l'endroit incorporé? (Oui ou Non).....
- (e) Adresse postale de l'administration centrale (si elle diffère de celle donnée ci-dessus).....
- (f) Nombre d'établissements de gros (pas de fabriques) exploités par cette firme en 1941.....  
(Si deux, trois ou plus, indiquer sous "Remarques" à la fin du questionnaire le nom et l'adresse de chacun.)
- (g) En quelle année l'établissement est-il passé aux mains du propriétaire actuel, dans la localité actuelle?.....
- (h) Dire s'il est exploité par un individu, une société, une corporation, ou une société coopérative.....
- (i) Fait-on un commerce de gros ou de détail?.....  
(Si on fait les deux, donner le pourcentage des ventes sur chaque base)
- (j) Fabrique-t-on quelque chose dans cet établissement? (Oui ou Non).....
- (k) Cet établissement est-il à la tête ou fait-il partie d'une chaîne volontaire; c'est-à-dire des marchands détaillants groupés ensemble pour fins d'achats et de réclame? (Oui ou Non).....
- Si "Oui" donner:—  
(a) Nom(s) de la chaîne.....  
(b) Nombre de détaillants dans chaque chaîne en 1941.....  
(c) Valeur des ventes faites aux membres de chaque chaîne en 1941 \$.....

## II.—GENRE DE COMMERCE:

- (a) Genre de commerce.....  
(Tels que drogues et articles de pharmacie, merceries, quincaillerie, fournitures électriques, poisson, meubles, fournitures d'automobiles, etc.)
- (b) Nommer les principales sortes de marchandises vendues par ordre d'importance, selon leur valeur de vente:—  
1. .... 4. ....  
2. .... 5. ....  
3. .... 6. ....
- (c) Indiquer d'une façon générale le territoire de ventes régulièrement couvert par cet établissement.....

III.—GENRE DE GROSSISTE—Indiquer d'un crochet à quel genre de commerce appartient cet établissement; i.e., ce qui fait la plus grande proportion du commerce de cet établissement. Voir Instructions pour définitions.

## N'EN INDIQUER QU'UN

(Afin de nous aider à bien classer votre établissement, prière de décrire brièvement votre manière générale d'exploiter votre commerce. Dire si les marchandises sont achetées et vendues à votre propre compte, à commission ou sur les deux bases. Mentionner votre principale source d'approvisionnement: manufacturiers, marchands de gros ou producteurs primaires. Dire si les marchandises que vous vendes sont d'origine domestique ou étrangère. Dire si les stocks sont ordinairement expédiés à votre nom, en consignment, ou de l'une ou l'autre façon.)

## IV.—PROPRIÉTAIRES OU PARTENAIRES (Ne s'applique pas aux corporations):

(Ne mentionner que ceux qui emploient tout, ou pratiquement tout leur temps à ce commerce)

(a) Propriétaires qui NE REÇOIVENT PAS de salaire fixe ou qui n'ont pas de crédit courant régulier:—

(1) Combien d'hommes?.....

Combien de femmes?.....

(b) Propriétaires qui REÇOIVENT un salaire fixe ou qui reçoivent un montant défini pour la direction du commerce:—

(1) Combien d'hommes?.....

Combien de femmes?.....

(2) Total des salaires ou retraits sur un crédit régulier des propriétaires pendant l'année, ou pendant la période faisant le sujet du présent rapport..... \$.....  
(Ne pas inclure les gages des employés)

## V.—EMPLOYÉS ET BORDEREAU DE PAYE (Inclure les administrateurs des compagnies incorporées qui y travaillent):

(Ne pas faire double emploi des chiffres déjà donnés à la section IV.)

(a) Emploiment moyen annuel:—

Donner le nombre d'employés engagés durant l'année ou donner le nombre de ceux engagés pendant ce que vous considérez une semaine ou un mois représentatif.

Combien d'hommes?.....

Combien de femmes?.....

(b) Bordereau de paye annuel:—

Quel est le montant total payé en salaires, gages, commissions ou bonis à tous les employés en 1941 ou pendant la période faisant le sujet de ce rapport? (Inclure les déductions pour la taxe de la Défense Nationale et pour des services sociaux tels que l'assurance-chômage.)..... \$.....

(c) Emploiment saisonnier:—

Si vous avez des données disponibles, prière d'indiquer le nombre d'employés sur votre bordereau de paye pour la période de paye la plus rapprochée du premier de chaque mois.

|             | Jan. | Fév. | Mars | Avril | Mai | Juin | Juillet | Août | Sept. | Oct. | Nov. | Déc. |
|-------------|------|------|------|-------|-----|------|---------|------|-------|------|------|------|
| Nombre..... |      |      |      |       |     |      |         |      |       |      |      |      |

NOTE:—Si une partie de votre commerce consiste en fabrication, et que les employés engagés dans la fabrication sont déclarés annuellement au Bureau fédéral de la Statistique sur les questionnaires du recensement des industries, prière d'exclure ces employés de ce rapport-ci.

Quand la réponse à une question est "rien", écrire "O" ou le mot "nil". Ne laisser aucun blanc.

## VI.—VENTES NETTES, 1941 (Chiffre annuel d'affaires):

(Les marchands à commission doivent faire rapport de la valeur de vente des marchandises et non pas des commissions reçues)

- (a) Ventes nettes (Ventes brutes moins les marchandises retournées et les déductions pour les échanges)..... \$.....  
(Inclure toutes espèces de taxes de vente)
- (b) Du montant total déclaré plus haut, à peu près combien provient des items suivants:
- (1) De ventes de marchandises à votre propre compte?..... \$.....
- (2) De ventes de marchandises à commission, y compris des ventes de stocks en consignation?..... \$.....  
(Déclarer la valeur de vente des marchandises et non pas le montant des commissions reçues)
- (c) Redistribuer le total des ventes déclarées à (a) de façon à montrer la valeur des marchandises vendues aux types de clients suivants. Nous acceptons de soigneuses estimations des valeurs ou des pourcentages de vos ventes totales—
- Ventes domestiques— \$ ou %
- (1) Ventes aux détaillants pour revente (y compris celles aux chaînes de magasins, aux magasins opérant des comptoirs postaux, aux magasins à rayons et aux magasins indépendants).....
- (2) Ventes aux consommateurs tels que: industriels, commerçants, professionnels et institutions (manufacturiers, chemins de fer, gouvernements, entrepreneurs, utilités publiques, etc.).....
- (3) Ventes à d'autres marchands de gros ou à des intermédiaires (jobbers).....
- (4) Ventes à des consommateurs domestiques.....
- Ventes d'exportation—
- (5) Ventes à des acheteurs en pays étrangers (inclure les ventes à vos propres succursales en pays étrangers s'il y a lieu).....
- (d) Ventes à crédit incluses dans VI (a) (Toutes ventes que celles au comptant)..... \$.....
- (e) Si quelques-unes de ces ventes consistaient en marchandises fabriquées dans cet établissement, donner la valeur de ces ventes franco à l'établissement. Ce montant doit être inclus à VI (a) plus haut..... \$.....

## VII.—LOYER:

- (a) Dire si le terrain et les bâtiments utilisés pour votre commerce pendant l'année étaient—
- Votre propriété? (Oui ou Non)..... Loués? (Oui ou Non).....
- En partie loués et en partie votre propriété? (Oui ou Non).....
- (b) Quel est le montant de loyer payé pour tout le terrain et les bâtiments loués et utilisés pour votre commerce pendant l'année?..... \$.....

## VIII.—AUTRES DÉPENSES:

Toutes autres dépenses payées pendant l'année. (NE PAS INCLURE LES GAGES, SALAIRES OU LOYER PARAISSANT DÉJÀ SUR CE QUESTIONNAIRE ET NE PAS INCLURE LE COÛT DES MARCHANDISES ACHETÉES POUR REVENTE.) Inclure le coût de la réclamation, de l'éclairage, du chauffage et de la force motrice, des approvisionnements, des impôts, des assurances, des réparations, de la dépréciation, les pertes provenant de mauvaises dettes, et toutes autres dépenses d'opération. Inclure l'intérêt payé pour les hypothèques sur le local d'affaires et l'intérêt pour l'argent emprunté pour les opérations courantes de commerce, mais ne pas inclure l'intérêt sur votre propre capital engagé. \$.....

## IX.—STOCKS EN MAINS POUR LA VENTE:

- (a) Quelle était la valeur des marchandises en mains le 31 décembre 1941 ou à la date d'inventaire la plus rapprochée au prix coûtant ou de remplacement? (Inclure les marchandises que vous avez laissées en consignation mais ne pas inclure celles que vous tenez en consignation)..... \$.....
- (b) Quelle était la valeur approximative des marchandises que vous teniez en consignation pour d'autres établissements le 31 décembre 1941 ou à la date d'inventaire la plus rapprochée?..... \$.....

## X.—COMPTES EN SOUFFRANCE:

Quelle était la valeur des comptes en souffrance et des notes des clients sur les livres de cet établissement à la fin de l'année? (Ne pas inclure les comptes biffés. S'il n'y a rien, indiquer par un "O"). \$.....

## XI.—VENTES PAR GENRE DE PRODUITS:

Cette question a pour but d'obtenir les renseignements les plus exacts relativement à la vente de divers produits. On comprend que plusieurs établissements n'ont pas de dossiers séparés pour chaque produit, mais en ce cas des estimations basées sur l'expérience seront d'une grande valeur. L'estimation d'un établissement pris en particulier peut être trop élevée ou trop basse, mais quand nous avons un grand nombre de rapports, les chiffres trop élevés compensent pour les chiffres trop bas et les totaux résultants ont un grand degré d'exactitude. N'hésitez donc pas à fournir de soigneuses estimations là où il est impossible de fournir des chiffres exacts. On lira attentivement toute cette section afin de voir tous les groupes de marchandises avant d'y entrer les données.

Quand la réponse à une question est "rien", écrire "O" ou le mot "nil". Ne laisser aucun blanc.

## XII.—REMARQUES:

(a) Est-ce que d'une façon ou d'une autre vous êtes affiliés à une firme située en dehors du pays? (Oui ou Non)....

Si "Oui", dire la nature de cette affiliation:

(b) Y a-t-il du capital engagé dans ce commerce appartenant à des personnes non domiciliées au Canada? (Oui ou Non).....

(c) Si plus d'un établissement est exploité par cette firme, veuillez donner ici le nom et l'adresse de chacun:

1. ....
2. ....
3. ....
4. ....

Marquer d'un (x) ceux de ces établissements couverts par ce rapport.

## CERTIFICAT

Je certifie, par les présentes, que les renseignements contenus dans ce questionnaire sont, à ma connaissance et croyance, complets et exacts et s'appliquent à la période du.....19....

au.....19....

(Signature et titre officiel de la personne fournissant les renseignements)

Date de ce rapport.....194

Quand la réponse à une question est "rien", écrire "O" ou le mot "nil". Ne laisser aucun blanc.

## FORMULE D'INSTRUCTIONS W

## RECENSEMENT DES ÉTABLISSEMENTS DE COMMERCE ET DE SERVICE

## INSTRUCTIONS

- (a) On doit répondre à chaque question. Si vous vous efforcez de répondre aux questions le mieux possible, vous nous épargneriez de la correspondance, et vous réduirez ainsi le coût du recensement pour le pays.
- (b) Le questionnaire ne doit pas nous être adressé plus tard qu'à la date indiquée au haut de la première page.
- (c) Le questionnaire doit être certifié par le propriétaire, le gérant, le vérificateur ou agent. Voir le certificat à la fin du questionnaire.
- (d) Cartes pour vos dossiers le questionnaire marqué "Gardez cette copie pour vos dossiers".

## COMMENT REMPLIR LE QUESTIONNAIRE

La plupart des questions sont complètes par elles-mêmes, toutefois les explications suivantes sur quelques-unes d'entre elles peuvent avoir leur utilité. Les en-têtes auxquels se rapportent ces explications correspondent aux sections correspondantes du questionnaire.

**GENRE DE COMMERCE**—Les rapports de recensement publiés indiqueront le nombre d'établissements, le nombre d'employés, les gages, les salaires, les ventes et autres renseignements sur les établissements de commerce de gros classifiés d'une façon générale quant au genre de commerce tel que commerce de gros en quincaillerie, mercerie, pièces et accessoires d'automobile, fruits et légumes, épicerie, produits du pétrole, hôtel, commerce des peaux en gros, etc., etc. Prière de donner une description assez complète de votre commerce pour qu'il soit possible de bien classer votre établissement.

Cette question demande également l'étendue du territoire de ventes couvert par cet établissement. Ce à quoi on peut répondre d'une façon générale en donnant le nom des provinces couvertes. Si votre territoire de ventes est plus limité, essayez d'indiquer d'une façon générale la partie de la province couverte. Vous pouvez nommer les comtés de votre district de ventes.

**GENRE DE GROSSISTE**—En plus de classer chaque établissement d'après la sorte de marchandises vendues, pour les fins du recensement chaque établissement est classifié selon le mode de transactions des affaires. Les firmes seront classifiées différemment selon qu'elles opèrent à leur propre compte ou qu'elles agissent comme agents. Elles seront classifiées selon qu'elles ont des stocks à leur propre compte, qu'elles ont des stocks en consignation ou qu'elles n'ont pas de stocks du tout. Elles seront encore classifiées selon qu'elles font un commerce d'exportation ou un commerce domestique.

Il appert que des firmes opèrent sur plus d'une base. Faites un crochet à la section du questionnaire qui représente la plus grande partie de votre commerce annuel. Suivent de courtes descriptions de quelques uns des divers genres de grossistes:

**COMPAGNIE DE VENTES À US ENCHÈRES**—Ce n'est pas un genre très en vogue; il se trouve surtout dans le commerce du hâtel et des fourrures. La vente à l'enchère est en usage.

**COURTIER**—Un courtier négocie les termes de vente ou d'achat mais ne manutènt ni ne facture les marchandises. Les recettes des courtiers consistent en commissions de courtage fréquemment basées sur les unités plutôt que sur la valeur des ventes. (Les courtiers faisant du commerce d'exportation devraient se classer comme agent ou courtier d'exportation ou d'importation.)

**DÉPÔT D'ESSENCE**—Les dépôts d'où les produits du pétrole sont distribués, en gros, par les camions-citernes aux stations-service ou à d'autres acheteurs en gros.

**VENTE AU COMPTANT SANS LIVRAISON**—Marchands de gros ne vendant pas à crédit et ne faisant pas de livraison gratuite des marchandises.

**ENTREPÔT DE CHAÎNE DE MAGASINS**—Entrepôts et établissements de distribution de chaînes de magasins.

**ACHETEUR (EN VILLE) DE PRODUITS DE LA FERME**—Cette catégorie comprend des firmes ou des personnes établies dans des localités de 5,000 âmes ou plus, et faisant l'achat de produits de la ferme tel que hâtel, produits laitiers, produits de basse-cour, etc., directement des fermiers. Si on achète surtout d'autres acheteurs qui ont acheté des fermiers, l'établissement doit être classifié comme celui d'un marchand de gros plutôt que celui d'un acheteur (en ville).

**ACHETEUR (À LA CAMPAGNE) DE PRODUITS DE LA FERME**—Cette catégorie est semblable à la précédente excepté que ces établissements sont situés dans des localités de moins de 5,000 âmes.

**MARCHAND À COMMISSION**—Un marchand à commission fait la vente de marchandises à lui consignées sur une base de commission. Plusieurs commissionnaires vendent aussi à leur propre compte. N'indiquer comme marchand à commission que si la plus grande partie de votre commerce est faite sur cette base.

**COOPÉRATIVE**—Association généralement formée pour l'écoulement des produits de la ferme.

**AGENCE DE VENTES DE COOPÉRATIVES**—Quelques fois un certain nombre de coopératives s'unissent pour la vente de leurs produits. L'agence centrale se nomme alors l'agence de ventes des coopératives.

**ENTREPÔT DE DISTRIBUTION**—Établissements de gros faisant surtout de l'entreposage et de la distribution de marchandises et attachant peu d'importance aux autres opérations du grossistes. Se rencontre surtout dans le commerce des liqueurs alcooliques.

**EXPÉDITEUR À VUE**—Ce genre est important dans le commerce du bois et celui du charbon; il s'agit de firmes achetant à leur propre compte mais qui ne manutènt pas les marchandises. Les marchandises peuvent être commandées après qu'un acheteur a été trouvé, et sont expédiées directement de la mine ou de la fabrique à l'acheteur.

**ÉLEVATEUR (INDÉPENDANT)**—Éleveurs de campagne vendant à leur propre compte.

**ÉLEVATEUR (EN CHAÎNE)**—Chaîne d'éleveurs de campagne dépendant du même propriétaire ou de la même gérance et ayant habituellement son siège social dans le marché central du grain.

**AGENT OU COURTIER EXPORTATEUR**—Courtier faisant le commerce d'exportation.

**MARCHAND EXPORTATEUR**—Grossistes qui achètent et vendent à leur propre compte et dont les ventes sont faites surtout à des acheteurs en d'autres pays.

**DISTRIBUTEUR DE FILMS**—Agences qui louent des films aux cinémas.

**BUREAU GÉNÉRAL DE VENTES**—Bureaux établis par les manufacturiers pour surveiller les activités des succursales de ventes. Les commandes considérables et les commandes d'exportation passent ordinairement par le bureau général de ventes.

**AGENT OU COURTIER IMPORTATEUR**—Courtier engagé dans le commerce d'importation.

**MARCHAND IMPORTATEUR**—Grossistes qui achètent et vendent à leur propre compte et font le commerce surtout de marchandises importées.

**INTERMÉDIAIRE (JOBBER)**—Voir à la section des marchands de gros.

**GROSSISTE PAR CORRESPONDANCE**—Marchand de gros dont la plus forte partie des ventes sont faites par la poste.

**AGENT DE MANUFACTURIERS**—Établissements ou bureaux agissant en qualité de représentants de manufacturiers avec qui ils ont des relations continues. Ils exploitent à leur compte et touchent une commission. Ils peuvent représenter deux firmes ou plus à condition qu'elles ne vendent pas de marchandises semblables.

**SUCCURSALES DE VENTES DES MANUFACTURIERS**—Établissements de ventes de certains manufacturiers canadiens dans les grandes villes pour la vente, et au besoin l'entretien, de leurs produits.

**EMBALLER ET EXPÉDITEUR**—On les rencontre surtout dans le commerce des fruits: ils emballent, expédient et vendent, soit à leur propre compte ou pour d'autres firmes. Quand ils travaillent pour d'autres firmes, ils prélèvent des frais d'emballage, et une commission pour la vente.

**AGENT ACHETEUR**—C'est une catégorie qui ne se voit pas souvent. Il s'agit de firmes établies dans certaines localités dans le but exprès d'acheter pour des clients en d'autres parties du même pays ou en pays étrangers.

**AGENT VENDEUR**—Il s'agit de firmes agissant comme vendeurs pour une ou plusieurs firmes. Ils écoulent ordinairement la production entière des compagnies qu'ils représentent. Cette catégorie est très fréquente dans le commerce du charbon, le commerce de la pulpe et du papier.

**GARNITURE ET OUTILLAGE**—Cette catégorie comprend les marchands de gros vendant de la machinerie ou des outillages lourds surtout aux industriels plutôt qu'aux détaillants pour revendre.

**DISTRIBUTEUR AMBULANT**—Firmes vendant directement aux détaillants en se servant de camions. Cette catégorie se rencontre surtout dans la confiserie.

**MARCHAND DE GROS**—Établissements de commerce de gros, achetant et vendant à leur propre compte et assumant toutes les charges encourues, y compris l'entreposage, la livraison des marchandises, la facturation et la perception des comptes, etc. Dans cette analyse, aucune distinction n'est établie entre le marchand de gros et l'intermédiaire ou jobber.

**MARCHAND DE GROS ET DE DÉTAIL**—Certains établissements font en même temps un commerce de gros et un commerce de détail. De tels établissements doivent indiquer d'un crochet à cette classe.

**VENTES NETTES EN 1941** (Chiffre annuel d'affaires)—Cette section est divisée en un certain nombre de subdivisions, dont deux sont en fait des subdivisions. La première demande le total net des ventes annuelles, y compris toutes espèces de taxes de vente. Les marchandises retournées et les déductions pour les marchandises acceptées en échange doivent être soustraites. A remarquer que les courtiers, les agents et les maisons à commission doivent faire rapport de la valeur totale des marchandises vendues et non des commissions qu'ils ont touchées.

La deuxième subdivision demande une distinction entre les ventes de marchandises dont vous avez pris possession et les ventes d'autres marchandises à commission. La troisième subdivision demande une analyse de vos ventes d'après la catégorie d'acheteurs. Il est entendu qu'en certaines circonstances on pourra ne pas avoir de dossiers contenant ces chiffres; dans ce cas on acceptera de soigneuses estimations basées sur votre expérience et sur la connaissance que vous avez de votre commerce.

**LOYER**—Faire rapport du montant payé pendant l'année pour le terrain et les bâtiments utilisés pour votre commerce. Le loyer payé pour de l'outillage doit être entré sous "autres dépenses" et non ici.

#### AUTRES DÉPENSES—

NE PAS INCLURE LE COÛT DES MARCHANDISES ACHETÉES POUR REVENTE.

NE PAS INCLURE LES FRAIS D'EXPÉDITION À VOTRE ÉTABLISSEMENT.

NE PAS INCLURE LES SALAIRES, OAGES OU LOYER DÉJÀ DÉCLARÉS.

NE PAS INCLURE L'INTÉRÊT PAYÉ SUR VOTRE PROPRE CAPITAL ENOAGÉ.

Faire rapport de toutes les autres dépenses payées pour l'opération du commerce pendant l'année. Inclure des item tels que réclame, fournitures (papier d'emballage, sacs, ficelle, etc.) téléphone, télégraphe, impôts (autres que l'impôt sur le revenu), assurances relatives au commerce, combustible, éclairage et force motrice, pertes résultant de mauvaises dettes, coût des réparations et de l'entretien, dépréciation des bâtiments ou de l'outillage dont vous êtes propriétaire, intérêts payés pour de l'argent emprunté pour les opérations courantes de commerce ou pour les hypothèques sur le local d'affaires. Inclure le coût de la livraison (à moins qu'il ne soit payé par l'acheteur) et autres dépenses excepté les quatre item imprimés en caractère gras au haut de ce paragraphe.

**STOCKS EN MAINS POUR LA VENTE**—Faire rapport de la valeur d'inventaire à la fin de 1941 ou à la date d'inventaire la plus rapprochée. On peut faire rapport de l'inventaire au prix coûtant ou de remplacement selon qu'il est plus conforme à vos écritures. Ne pas inclure le terrain, les bâtiments ni l'outillage dont vous êtes propriétaire. Établir une distinction entre les stocks dont vous êtes propriétaire et ceux que vous tenez en consignation pour d'autres personnes.

**COMPTES EN SOUFFRANCE**—Faire rapport des sommes que les clients doivent à votre établissement à la fin de l'année. Ne pas inclure les comptes biffés.

**VENTES PAR GENRES DE PRODUITS**—Les marchandises énumérées dans cette section du questionnaire sont sous des entêtes généraux, avec quelques subdivisions en certains cas. Voyez toute la section et entrez les chiffres de vos ventes aux groupes de marchandises dont vous faites commerce. Plusieurs item n'auront aucun rapport avec votre commerce. Redistribuez vos totaux de groupe autant que possible de façon à montrer vos ventes aux différents item mentionnés sur la formule. De soigneuses estimations des chiffres de ventes de ces marchandises seraient satisfaisantes.

### COMMERCE DISCONTINUÉ

Si vous n'opérez plus ce commerce, vous devez retourner le questionnaire avec cette feuille ainsi que les renseignements suivants:

- (1) Nom de l'occupant ou du propriétaire actuel.....
- (2) Adresse postale de l'occupant ou du propriétaire actuel.....

## INTRODUCTION

This part of Volume XI covers the operations in 1941 of those types of service establishments which came within the scope of the Census of Merchandising and Service Establishments which was taken for that year. Since a history of the Census of Merchandising and Service Establishments and a description of the methods used in taking it are contained in Volume X of the 1941 Census Report only a brief reference to the procedure followed is made here.

The Census of Merchandising and Service Establishments was taken by mail, the mailing list for the purpose having been prepared by the population enumerators in June and July of 1941. On the basis of these mailing lists, schedules and instructions were mailed from the Bureau early in 1942. The schedules, when completed, were mailed directly to the Bureau, where they were examined for accuracy and completeness. The reports were then coded and the information was transferred to Hollerith cards from which the mechanical tabulations were made.

### Scope of the Service Census

The term "services" as used for census purposes is confined to certain types of establishments generally located in the retail trading areas of urban centres and whose gross revenue or annual turnover is derived from the providing of services rather than from the sale of merchandise. The Census of Service Establishments is restricted to certain types of services: amusement or recreational places such as bowling alleys and motion picture theatres, certain business services such as advertising agencies, sign painting shops and linen supply service, personal services such as barber shops, beauty parlours, laundries and dry cleaners, photographers, undertakers and repair services of all kinds such as auto repairs, blacksmith shops, radio repairs, watch repairs, etc. This census does not include professional services—such as doctors, lawyers, etc.—or trade services—such as the building trades, carpentry, plumbing, heating or electrical contracting, etc.—or public utilities—such as electricity, gas, street railway, telephone, etc. Furthermore, the Census of Service Establishments is restricted to established places of business. Persons providing domestic services in the home are excluded. Excluded also are transportation services, whether by air, rail, boat or motor vehicle. A limited number of taxi operators having permanently located stands are included with a miscellaneous group of establishments.

### Methods of Classification

Retail service establishments, as the name implies, are places of business which provide personal or repair services or which offer amusement or recreational facilities to the public. For the purposes of this report certain business services also are included. Some establishments engage both in merchandising and in providing services. Such establishments were assigned in their entirety to either the merchandising or service section of the census depending upon their major activity as measured in terms of annual volume of business.

The Census of Merchandising and Service Establishments was taken on an establishment basis, a separate report being required for each place of business. These reports, when received at the Bureau, were classified on a threefold basis as outlined in the following paragraphs.

#### Kinds of Business

Each establishment was assigned to a kind-of-business classification depending upon the kind of service rendered. Generally, service establishments are more specialized than retail merchandising stores—that is, the kind-of-business classification, such as barber shop, laundry, photographer, etc., conveys a more determinate description of the kind of business transacted than is the case with retail stores. In some instances a service establishment performs more than one kind of

service. In such cases the establishment was assigned to the kind of business which accounted for the major portion of the total annual receipts. A description of the kind-of-business classifications used in the Census of Service Establishments will be found in the appendix to this report.

### Types of Operation

In addition to being classified by kind of business each establishment was also classified by type of operation depending chiefly upon whether or not it was independently operated or belonged to some type of multiple organization. Firms operating two or three places of business were classified as two- or three-store multiples. Four or more establishments under the same ownership and management and carrying on the same or similar kinds of business were classified as chains. Although single independent establishments predominate in the service field to a much greater degree than in retail merchandising, nevertheless an appreciable volume of business in the services field is transacted by multiples and chains.

### Forms of Organization

Retail service establishments were also classified according to the nature of the ownership under which they operated. The great majority of service establishments are operated as individual proprietorships. The number of partnerships and incorporated companies in this field is comparatively small.

## Comparisons with Earlier Census Results

The year 1941 is the second for which a census of trading and service establishments has been taken, a similar survey having been made for the year 1930 in connection with the Decennial Census of 1931. Comparisons of the results for service establishments for the two years are in many instances invalid due partially to differences in scope of the fields covered and partially to variation in coverage of firms whose reports were secured in the two years. In particular, the earlier census included firms engaged in motor transport, either passenger or freight. Since this field is now covered by the Transportation and Public Utilities Branch of the Bureau, it was omitted from the 1941 Census of Service Establishments. The seasonal nature of some types of service establishments, particularly those in the amusement and recreation group, is such as to render complete enumeration difficult. The check afforded by comparing the census enumerators' lists for 1941 with the records of the Licensing Division of the Wartime Prices and Trade Board provided a more complete coverage in the service field than was possible for the earlier census relating to the year 1930. Comparisons of the results for the two periods must be restricted to certain well defined types of business included in the census for the two years.

## ANALYSIS OF RESULTS

### Extent of Retail Services

There were 49,271 establishments which came within the scope of the service section of the census and these had annual receipts of \$254,677,900 in 1941. These establishments required the services of 40,653 male and 22,128 female employees on a full-time basis and another 16,242 male and 5,405 female employees on a part-time basis. In addition, there were 50,224 proprietors who were actively engaged in the management of these business enterprises. Including proprietors and both full-time and part-time employees, male workers in service establishments formed 2.78 per cent of the total number of gainfully employed male persons, while in the case of female workers, the corresponding ratio was 3.98 per cent. The annual payroll to full-time and part-time employees amounted to \$62,984,000.

Corresponding figures for retail merchandise trade show a total of 524,431 persons employed of which 131,823 were proprietors, 297,047 were full-time and 95,561 were part-time employees. Workers in those service establishments coming within the scope of the Census of Merchandising and Service Establishments thus formed about one-quarter of the number engaged in retail trade.

## Retail Services by Size of Locality

Certain types of service establishments such as blacksmith shops and harness repairs are peculiar to the smaller towns and rural areas. In the main, however, most of the services included in the census are urban in character and can be developed on a profitable scale only in localities where ample patronage can be secured. This urban character of a large portion of the business transacted by service establishments is reflected in the census results: Almost 67 per cent of the total receipts for such establishments were secured in places of 30,000 population or more although only 31 per cent of the total population resided in such areas. On the other hand, about 49 per cent of the total population of Canada lived in rural areas or in places of less than 1,000 population in 1941 and service establishments located in these areas transacted only 10.53 per cent of the total amount of business reported. That the business of service establishments is concentrated to a greater extent in the larger urban centres than is the case with retail merchandise trade is indicated in the following table.

DISTRIBUTION OF POPULATION, OF TOTAL RETAIL STORE SALES AND SERVICE ESTABLISHMENT RECEIPTS BY SIZE-OF-LOCALITY CLASSES, CANADA, 1941

| Size-of-Locality Class     | Population |                   | Retail Sales  |                   | Service Receipts |                   |
|----------------------------|------------|-------------------|---------------|-------------------|------------------|-------------------|
|                            | Number     | Per cent of total | Amount        | Per cent of total | Amount           | Per cent of total |
|                            |            |                   | \$            |                   | \$               |                   |
| Total, all localities..... | 11,506,655 | 100.00            | 3,440,901,700 | 100.00            | 254,677,900      | 100.00            |
| Less than 1,000.....       | 5,633,052  | 49.13             | 576,165,400   | 16.74             | 26,812,300       | 10.53             |
| 1,000—9,999.....           | 1,420,157  | 12.34             | 595,821,600   | 17.32             | 31,286,100       | 12.28             |

## Retail Services by Provinces

Of the total receipts of all service establishments coming within the scope of the census, Ontario accounted for rather more than 43 per cent although the population of this province formed only about 33 per cent of the Dominion total. Quebec came second with 25.46 per cent of the total service receipts followed by British Columbia with 9.64 per cent. The provincial distribution of service establishment receipts, retail store sales and population is shown in the following table.

DISTRIBUTION OF POPULATION, RETAIL STORE SALES AND SERVICE ESTABLISHMENT RECEIPTS BY PROVINCES, 1941

| Province                  | Population |          | Retail Store Sales |          | Service Establishment Receipts |          |
|---------------------------|------------|----------|--------------------|----------|--------------------------------|----------|
|                           | Number     | Per cent | Amount             | Per cent | Amount                         | Per cent |
|                           |            |          | \$                 |          | \$                             |          |

(?) Includes Yukon and Northwest Territories.

Three provinces—Quebec, Ontario and British Columbia—secured larger proportions of the Dominion total receipts in the case of service establishments than in the case of retail stores. For the other six provinces the percentages of total retail store sales exceeded the corresponding percentages for service establishments. These variations in percentages bear a fairly definite relationship to the proportions of the total populations residing in the larger cities in the several provinces. Approximately 31 per cent of the population of Canada resided in places of 30,000 persons or over in 1941. Corresponding percentages were considerably higher than this average for the three provinces which secured larger proportions of the Dominion totals for service establishments than for merchandising stores. About 39 per cent of British Columbia's population lived in places of 30,000 persons or over in 1941. The corresponding ratio for Quebec was 38 per cent and that for Ontario was 36 per cent. Ratios for the other provinces were below the Dominion average of 31 per cent.

### Retail Services by Kinds of Business

For census purposes the service field is divided into seven broad kind-of-business groups, each of the first six consisting of a number of more or less closely related trades and the seventh consisting of a residual group of non-related trades. A brief summary of the results for the various groups is presented in the paragraphs which follow.

**Amusement and recreation group.**—This group, comprised of 4,954 establishments engaged in providing amusement or recreational facilities on a commercial basis, had total receipts of \$61,344,800 or 24.1 per cent of the total revenue for all service establishments. Motion picture theatres numbering 1,244 and with \$41,368,800 receipts accounted for approximately two-thirds of the receipts of the amusement and recreation group as a whole. Bowling alleys, billiard parlours, or combined bowling alleys and billiard parlours constituted another important subdivision of this group. There were 1,463 such establishments with \$7,857,400 receipts recorded. Camp grounds and tourist camps, dance halls, and skating rinks form other important classifications within this group. In view of the seasonal nature of some of these kinds of business their enumeration on the part of the census enumerators may not always have been complete.

**Business services group.**—There were 1,334 establishments reported in this group with annual receipts of \$24,431,800 or 9.6 per cent of the total volume of business for all service establishments. This ratio varied widely for the various provinces standing highest for Ontario at 11.9 per cent and lowest for Prince Edward Island at 0.5 per cent. Advertising agencies with receipts of \$4,938,700 form the most important subclassification within the group. This figure represents the gross revenue secured by the advertising agencies to cover their operating expenses and provide a profit. It does not represent the value of the advertising placed in various media by these agencies. Outboard display and billboard advertising firms reported annual receipts of \$3,266,000. Collection and credit agencies, dental laboratories and firms specializing in linen supply form other important classifications within this group.

**Personal services group.**—The personal services group of establishments comprised of barber shops and beauty parlours, hand and power laundries, cleaning and dyeing establishments and shoe repair and service shops came first in point of view of annual receipts in the service field. There were altogether 24,731 establishments in this group and these had total receipts of \$85,892,600 or 33.7 per cent of the receipts for all service establishments. This ratio was remarkably uniform for all provinces, ranging only from 33.1 per cent in Nova Scotia to 36.5 per cent in British Columbia. Included in these totals are 8,910 barber shops or combined barber shops and beauty parlours with receipts of \$17,719,500, an increase of only 4 per cent over the amount of business performed by 7,734 barber shops in 1930. On the other hand, the increase in number and value of receipts for women's beauty parlours or hairdressers was outstanding, the number increasing from 2,385 in 1930 to 5,619 in 1941 while the volume of business transacted increased from \$6,109,300 in the earlier year to \$12,844,400 in the latter.

The report for 1941 shows 1,730 Chinese laundries with \$3,697,300 receipts, 191 hand laundries (other than Chinese) with \$783,400 receipts and 272 power laundries with \$19,076,500 receipts. In 1930 there were 2,401 laundries of all kinds reported with \$20,645,500 receipts. The figures for 1930 cannot be classified as between Chinese and power laundries. But a comparison

of the total numbers of establishments indicates a substantial reduction in the number of Chinese laundries, a reduction which may be attributed in large measure to the decline in the Chinese population during the intervening period.

The census tables show 594 cleaning and dyeing plants with \$13,925,600 receipts. Included in the count of establishments are not only the actual plants but also the pick-up offices maintained and operated by these plants in towns or cities other than that in which the plant is situated. There were also 1,777 cleaning, pressing and repair shops with total receipts of \$4,613,800 and 214 establishments specializing in the cleaning and repairing of fur goods with \$1,233,200 receipts. These figures do not include fur storage facilities provided by retail merchants. Storage receipts obtained by retail merchants are included in the retail merchandise section of the census.

Shoe repair and service shops form another important classification in the personal services group. There were 4,797 shoe repair shops recorded in the census whose annual receipts for 1941 totalled \$10,039,700.

**Photography group.**—This group includes commercial and portrait photographers and firms specializing in the printing, developing or enlarging of photographs. It does not include blue-printing plants or commercial printers. Receipts for the group totalled \$6,901,300 of which portrait photographers accounted for by far the greatest proportion.

**Undertaking and burial group.**—Included here are 1,225 establishments with \$13,131,900 receipts, an amount which formed 5.2 per cent of the total for all service establishments. The group is comprised of two components. In the first place, it includes 1,118 funeral directors with \$11,993,800 receipts. Secondly, it includes 107 establishments combining undertaking with the sale of furniture but in which the latter activity is subsidiary to the first. These establishments had \$1,138,100 receipts. This latter classification overlaps with a similar kind of business in the merchandising field but in which the receipts from the sale of furniture or other merchandise exceeds the revenue from funeral directing.

**Repair and service group.**—This group is comprised chiefly of various types of business offering repair services of different kinds to the public. There were 11,932 establishments recorded here with receipts of \$37,512,100, an amount which formed 14.7 per cent of the total service field. Firms offering automotive repair services, either of a general or specialized nature, form the most important subdivision within this major group. There were 2,450 such establishments operating in 1941 with receipts of \$16,897,900. Blacksmith shops to the number of 5,192 were reported and these had annual receipts of \$8,103,000. Harness repair shops, watch and jewellery repair and upholstery and furniture repair shops represent other important classifications within this group.

**Miscellaneous services.**—This group with 4,017 establishments and \$25,463,400 receipts includes all types of service establishments coming within the scope of the census and not included elsewhere. Included in the group totals are 2,570 taxi stands with \$14,923,300 receipts. Since only those taxi operators having established places of business would be listed by the census enumerators, the figures shown for this classification cannot be considered as complete.

### Service Establishments by Size of Business

The prevalence of small scale operators in the service field is clearly brought out in the census results. Of the 49,271 establishments included in this service census, 29 per cent had annual gross receipts of less than \$1,000. Another 30 per cent had an annual volume of business lying between \$1,000 and \$1,999 while still another 22 per cent lay in the range between \$2,000 and \$4,999. That is to say, approximately 80 per cent of all service establishments had annual gross receipts of less than \$5,000 and only 20 per cent had an intake exceeding that figure. Approximately 32 per cent of all retail merchandise stores had annual sales of less than \$5,000. Reason for the great variation in the proportions of very small service establishments and retail stores is obvious. In the case of retail stores the proprietor must secure his net profit out of the difference between what he secures for his goods and the sum of the cost of his merchandise and his operating expenses. On the other hand, the cost of merchandise to the proprietor of a service establishment is a minor item. He can retain for his own use a much larger proportion of the gross revenue coming in from his business.

Those service establishments with annual receipts of less than \$5,000, while forming about 80 per cent of the total number, transacted only 24 per cent of the total volume of business. At the other end of the scale there were 276 establishments each with annual receipts of \$100,000 or more and these, while forming only 0.6 per cent of the total number, accounted for 21.2 per cent of the total receipts.

The proportion of small firms to the total varied widely for different kinds of business within the service field. Establishments with annual receipts of less than \$5,000 formed 90 per cent or more of the total for such trades as barber shops, Chinese laundries, shoe repair shops, harness repair shops and blacksmiths. On the other hand, only 4 per cent of the power laundries, 18 per cent of cleaning and dyeing plants and 25 per cent of motion picture theatres came within this size class.

### Establishments Classified by Number of Employees

That a large proportion of the service establishments covered by this census are operated by the proprietor alone without the aid of paid assistants is generally recognized. The accuracy of this assumption is confirmed by the census results which show that of the 49,271 establishments included in the census, 31,385 or 63.7 per cent had no employees. Another 16.2 per cent of the establishments had one employee each and another 6.6 per cent had two employees each. Only 13.5 per cent of the establishments coming within the scope of the service section of the census used the services of three or more paid persons.

The 31,385 establishments operated by their proprietors alone did business to the extent of \$43,116,800 in 1941 or 16.9 per cent of the total receipts for all service establishments. Only 64 establishments, more than one-half of which were in the personal services group and consisted of power laundries or dyeing and cleaning plants, used the services of as many as 100 paid employees. These large establishments, while forming only about one-tenth of one per cent of the total number, accounted for 7.3 per cent of the total receipts, had 14.2 per cent of the total number of employees and 13.4 per cent of the total annual payroll.

The proportions of the total establishments operating without the aid of paid employees were fairly constant for all provinces, standing at 70.5 per cent for Prince Edward Island, 62.3 per cent for Nova Scotia, 66.0 per cent for New Brunswick, 67.1 per cent for Quebec, 58.2 per cent for Ontario, 63.9 per cent for Manitoba, 74.1 per cent for Saskatchewan, 68.8 per cent for Alberta and 61.2 per cent for British Columbia. On the other hand, the proportion of no-employee enterprises varied considerably for the various kind-of-business groups into which the service field is divided. It was highest at 75.5 per cent for the repair and service group consisting chiefly of blacksmith shops, auto repair shops and shops specializing in the repair of harness, watches, radios, etc. It was lowest at 34.6 per cent for the business services group comprised chiefly of advertising services of various types and such kinds of business as collection agencies, dental laboratories and firms specializing in linen supply service for commercial or industrial organizations.

### Types of Operation

With the exception of a few specialized types of business consisting chiefly of motion picture theatres, power laundries and advertising agencies, the development of multiple organizations has made but slight headway in the service field. The small amount of capital necessary for the operation of many service establishments has tended to maintain the individualistic nature of this field. Furthermore, since service establishments are engaged in providing services to the public at the establishment patronized rather than in distributing merchandise, there is lacking the central purchasing features which characterize the chain system of distributing merchandise.

Of the 49,271 service establishments covered in the census, 46,650 were individual establishments and these accounted for 77.4 per cent of the total receipts. Units of two- or three-store multiples numbered 1,191 and accounted for another 6.8 per cent of the receipts.

For census purposes, chains are taken to mean four or more establishments under the same ownership or management. There were 809 units of chain companies recorded in the census results and these had receipts of \$38,568,500 or 15.2 per cent of the total volume of business. As

mentioned above, these consist chiefly of motion picture theatres, power laundries and advertising agencies. The number of chain organizations in each of these trades is not sufficiently large to warrant a more detailed analysis.

A residual group of 621 establishments with \$1,593,800 receipts represents beauty parlours, barber shops or other services operated as leased concessions in other service establishments or in retail merchandising stores.

### Forms of Organization

Service establishments are classified under five groups according to the form of the ownership under which they operate. Almost 90 per cent of all the establishments reported were operated as individual proprietorships but these transacted only about 52 per cent of the total business. There were 3,179 establishments operated as partnerships and their receipts formed 10.5 per cent of the total. The service establishments operated under the corporate form of ownership formed only about 4 per cent of the total number but these accounted for 37.6 per cent of the total volume of business. Eight small establishments classifying themselves as co-operative associations and another 71 places of business assigned to a residual category complete the classification of firms on the form of ownership basis.

### Continuity of Ownership

The census questionnaire asked each respondent to indicate the year in which he acquired ownership of his business at its location on the census date. The reply did not necessarily indicate the year when the business was originally started since changes in form of ownership as from individual proprietorship to partnership and changes in location would, according to the instructions given, constitute a break in the continuity of the business. The data secured in answer to this inquiry do not provide a basis for calculating mortality rates in different trades. They can be used however in arriving at the average age and for describing the age distributions of those establishments which were in operation in the census year. Not all establishments answered this part of the inquiry. The following results are based on returns from 34,530 establishments which did give the information requested.

The average age for the 34,530 establishments was 8.51 years. Approximately 11 per cent of the establishments reporting were opened or acquired in the census year. Since the basic census mailing lists were prepared by the census enumerators in June and July of 1941 it is apparent that this 11 per cent of the establishments were opened in the first half of the census year. A similar number or 10 per cent of the total were opened in 1940 and another 10 per cent in 1939. Only 26 per cent of the establishments in business in 1941 had been operating at the same locality and under the same ownership in 1929.

Age distributions for individual proprietorships and partnerships were very similar while figures for establishments operating under the corporate form of ownership revealed a somewhat higher average age.

| Description des genres de commerce..... | 595 |
|---|-----|

## INTRODUCTION

Cette partie du volume XI couvre les opérations en 1941 de ces genres d'établissements de service qui sont entrés dans le cadre du recensement des établissements de commerce et de service pour l'année en question. Vu qu'un historique du recensement des établissements de commerce et de service et une description des méthodes employées sont donnés dans le volume X du rapport du recensement de 1941, il ne sera ici référé que brièvement à la méthode suivie.

Le recensement des établissements de commerce et de service a été fait par la poste, la liste servant à cette fin ayant été préparée par les énumérateurs de la population en juin et juillet 1941. En se basant sur ces listes d'adresses, des questionnaires et instructions ont été envoyés du Bureau tôt en 1942. Les questionnaires, remplis, ont été renvoyés directement au Bureau, où l'exactitude et l'intégralité en ont été vérifiées. Les rapports ont alors été chiffrés et les renseignements ont été transférés sur des cartes Hollerith d'après lesquelles la compilation mécanique a été faite.

### Portée du recensement des établissements de service

Le terme "services" pour les fins du recensement se limite à certains genres d'établissements appartenant généralement au commerce de détail dans les centres urbains et dont le revenu brut ou le chiffre d'affaires annuel provient de services rendus plutôt que de la vente de marchandises. Le recensement des établissements de service est limité à certains genres de services: les lieux d'amusement et de récréation tels les jeux de quilles et les cinémas; certains services commerciaux comme les agences de publicité, les ateliers de peinture d'affiches et l'approvisionnement de lingerie; les services personnels tels les boutiques de barbier, les salons de beauté, les buanderies et les établissements de nettoyage; les photographes et les entrepreneurs de pompes funèbres; et les services de réparation de toutes sortes tels les établissements de réparation d'automobiles, les forges maréchales, la réparation de radios, la réparation de montres, etc. Ce recensement ne comprend pas les services professionnels tels les médecins, les avocats, etc., ou les services commerciaux tels les métiers du bâtiment, la menuiserie, la plomberie, les installations de chauffage et d'électricité, etc., ou les utilités publiques telles l'électricité, le gaz, les tramways, le téléphone, etc. De plus, le recensement des établissements de service est limité à ceux ayant un lieu fixe d'affaires. Les services domestiques fournis à la maison ne sont pas compris. Exclue également sont les services de transport, que ce soit par air, par rail, par eau ou motorisés. Un nombre limité d'exploitants de taxis ayant des postes permanents de stationnement est compris avec un groupe divers d'établissements.

### Méthodes de Classification

Les établissements de service de détail, comme le nom l'indique, sont des lieux de commerce qui fournissent des services personnels ou de réparations ou qui offrent des facilités d'amusement ou de récréation au public. Pour les fins de ce rapport, certains services commerciaux sont également inclus. Quelques établissements font le commerce des marchandises et dispensent également des services. Ces établissements ont été attribués entièrement soit à la section du commerce des marchandises, soit à celle des services, selon leur principale activité mesurée d'après le chiffre annuel des affaires.

Le recensement des établissements de commerce et de service s'est fait pour chaque établissement et a exigé un rapport séparé pour chaque place d'affaires. Ces rapports, une fois parvenus au Bureau, ont été classifiés d'après trois bases, dont la description est esquissée dans les paragraphes suivants.

#### Genres de commerce

Chaque établissement a été attribué à une classification selon le genre de commerce d'après le genre de services rendus. En général, les établissements de service sont plus spécialisés que les magasins de détail, c'est-à-dire la classification selon le genre de commerce, comme boutique de barbier, buanderie, photographe, etc., comporte une description plus déterminée du genre de commerce que ce n'est le cas des magasins de détail. Parfois un établissement de service dispense plus d'un genre de services. En ce cas, l'établissement est attribué au genre de commerce qui

rapporte la plus grande partie du revenu total annuel. La description des classifications selon le genre d'affaires, utilisées lors du recensement des établissements de service, se trouve dans l'appendice de ce rapport.

### Genres d'exploitation

Chaque établissement, en plus d'avoir été classifié par genre de commerce, l'a été d'après le genre d'exploitation selon surtout qu'il était exploité indépendamment ou qu'il appartenait à quelque genre d'exploitation multiple. Les établissements exploitant deux ou trois places d'affaires ont été classifiés comme des magasins à deux ou trois succursales. Quatre établissements ou plus relevant du même propriétaire et de la même administration et poursuivant les mêmes genres d'affaires ou des genres d'affaires similaires ont été classifiés comme des chaînes. Bien que les établissements indépendants prédominent dans le domaine des services à un plus grand degré que parmi les magasins de détail, néanmoins les magasins à succursales et les chaînes font un volume appréciable d'affaires dans le domaine des services.

### Formes d'organisation

Les établissements de service de détail ont également été classifiés selon la nature de la propriété d'après laquelle ils étaient exploités. La grande majorité des établissements de service sont exploités par des propriétaires individuels. Le nombre de partenaires et de compagnies incorporées dans ce domaine est relativement faible.

### Comparaisons avec les résultats du recensement antérieur

L'année 1941 est la seconde pour laquelle il s'est fait un recensement des établissements de commerce et de service; un relevé similaire a été fait pour l'année 1930 en rapport avec le recensement décennal de 1931. Les comparaisons des résultats pour les établissements de service en ces deux années n'ont pas de valeur en plusieurs cas, ce qui est attribuable en partie à l'envergure différente des domaines compris et en partie à la variation du nombre d'établissements inclus dont les rapports ont été obtenus en ces deux années. En particulier, le recensement antérieur incluait les établissements s'occupant de transport motorisé, pour les voyageurs ou les marchandises. Comme ce domaine est maintenant du ressort de la Branche des Transports et Utilités Publiques du Bureau, il a été omis du recensement des établissements de service de 1941. Le caractère saisonnier de certains genres d'établissements de service, particulièrement ceux du groupe d'amusement et de récréation, est tel qu'il en rend difficile l'énumération complète. La vérification obtenue en comparant les listes des énumérateurs du recensement de 1941 avec les relevés de la Division des Licences de la Commission des Prix et du Commerce en temps de guerre a donné une liste plus complète des établissements de service que ce n'était possible pour le recensement antérieur portant sur l'année 1930. Les comparaisons des résultats des deux périodes doivent se limiter à certains genres de commerce bien définis compris dans le recensement des deux années.

## ANALYSE DES RÉSULTATS

### Étendue des services de détail

Il y a 49,271 établissements qui entrent dans la section des services du recensement, dont les recettes s'élèvent à \$254,677,900 en 1941. Ces établissements requièrent les services de 40,653 hommes et de 22,128 femmes employés à temps entier, ainsi que de 16,242 hommes et 5,405 femmes employés à temps partiel. En outre, il y a 50,224 propriétaires activement engagés à l'administration de ces entreprises commerciales. Si l'on inclut les propriétaires et les employés à temps entier et à temps partiel, les hommes employés dans les établissements de service représentent 2.78 p.e. de toute la population active masculine, tandis que dans le cas des femmes la proportion correspondante est de 3.98 p.e. Le bordereau de paye des employés à temps entier et à temps partiel s'établit à \$62,984,000.

Les chiffres correspondants pour le commerce des marchandises au détail sont les suivants: 524,431 personnes employées, dont 131,823 sont propriétaires, 297,047 employés à temps entier et 95,561 employés à temps partiel. Les employés des établissements de service qui entrent dans les cadres du recensement des établissements de commerce et de service forment donc environ un quart des employés dans le commerce de détail.

## Service de détail selon l'importance de la localité

Certains genres d'établissements de service, comme les forges maréchalcs et les boutiques de réparation de harnais, sont particuliers aux petites villes et aux régions rurales. Somme toute, cependant, la plupart des services compris dans le recensement revêtent un caractère urbain et ne peuvent être exploités avec profit que dans les localités où l'on peut être assuré d'une clientèle nombreuse. Ce caractère urbain d'une grande partie du commerce effectué par les établissements de service se reflète dans les résultats du recensement. Près de 67 p.c. de toutes les recettes de ces établissements sont obtenues dans les localités de 30,000 âmes ou plus, bien que 31 p.c. seulement de toute la population réside dans ces régions. Par contre, environ 49 p.c. de toute la population du Canada réside dans des régions rurales ou des localités de moins de 1,000 âmes en 1941, et les établissements de service situés dans ces régions ne font que 10.53 p.c. du chiffre d'affaires global. Le tableau suivant démontre que les opérations des établissements de service se concentrent à un plus grand degré dans les grands centres urbains que ce n'est le cas des magasins de détail.

DISTRIBUTION DE LA POPULATION, DES VENTES TOTALES DES MAGASINS DE DÉTAIL ET DES RECETTES DES ÉTABLISSEMENTS DE SERVICE SELON L'IMPORTANCE DES LOCALITÉS, CANADA, 1941

| Classe selon l'importance de la localité | Population |               | Ventes de détail |               | Recettes des établissements de service |               |
|--|------------|---------------|------------------|---------------|--|---------------|
|  | Nombre     | P.c. du total | Montant          | P.c. du total | Montant                                | P.c. du total |
|  |            |               | \$               |               | \$                                     |               |
| Total, toutes localités.....             | 11,506,655 | 100-00        | 3,440,901,700    | 100-00        | 254,677,900                            | 100-00        |
| Moins de 1,000 âmes.....                 | 5,653,052  | 49-13         | 576,165,400      | 16-74         | 26,812,300                             | 10-53         |
| 1,000—9,999 “.....                       | 1,420,167  | 12-34         | 595,821,600      | 17-32         | 31,286,100                             | 12-28         |
| 10,000—29,999 “.....                     | 859,946    | 7-47          | 422,846,700      | 12-29         | 26,228,200                             | 10-30         |
| 30,000 âmes et plus.....                 | 3,573,500  | 31-06         | 1,846,065,000    | 53-65         | 170,351,300                            | 66-89         |

## Services de détail par province

L'Ontario s'approprie un peu plus de 43 p.c. des recettes totales de tous les établissements de service compris dans le recensement, bien que la population de cette province ne constitue qu'environ 33 p.c. de toute la population du Dominion. Le Québec occupe la deuxième place avec 25.46 p.c. des recettes totales des établissements de service, suivi de la Colombie Britannique avec 9.64 p.c. La distribution, par province, des recettes des établissements de service, des ventes des magasins de détail et de la population est indiquée dans le tableau suivant.

DISTRIBUTION DE LA POPULATION, DES VENTES DES MAGASINS DE DÉTAIL ET DES RECETTES DES ÉTABLISSEMENTS DE SERVICE, PAR PROVINCE, 1941

| Province                   | Population |        | Ventes des magasins de détail |        | Recettes des établissements de service |        |
|----------------------------|------------|--------|-------------------------------|--------|--|--------|
|                            | Nombre     | P.c.   | Montant                       | P.c.   | Montant                                | P.c.   |
|                            |            |        | \$                            |        | \$                                     |        |

(\*) Comprend le Yukon et les Territoires du Nord-Ouest.

Dans trois provinces (Québec, Ontario et Colombie Britannique) les établissements de service recueillent une plus forte proportion de toutes les recettes que les magasins de détail. Dans les six autres provinces le pourcentage des ventes des magasins de détail excède le pourcentage correspondant des établissements de service. Ces variations de pourcentages ont une relation assez définie avec la proportion de la population totale résidant dans les grandes villes de plusieurs provinces. Environ 31 p.e. de la population canadienne réside dans les localités de 30,000 âmes ou plus en 1941. Les pourcentages correspondants sont beaucoup plus élevés que cette moyenne dans les trois provinces qui recueillent une plus forte proportion du total dans le Dominion pour les établissements de service que pour les magasins de marchandises. Environ 39 p.e. de la population de la Colombie Britannique demeure dans les localités de 30,000 âmes ou plus en 1941. La proportion correspondante est de 38 p.e. pour le Québec et de 36 p.e. pour l'Ontario. Les proportions des autres provinces sont inférieures à la moyenne de 31 p.e. pour le Dominion.

### Services de détail par genre de commerce

Pour les fins du recensement, les services sont divisés en sept grands groupes de genres de commerce; les six premiers comprennent un certain nombre de commerces plus ou moins étroitement apparentés, tandis que le septième est un groupe résiduaire de commerces qui ne sont pas apparentés. Un résumé succinct des résultats est présenté dans les paragraphes qui suivent pour les divers groupes.

**Groupe d'amusement et de récréation.**—Ce groupe, comprenant 4,954 établissements qui offrent des amusements et des récréations sur une base commerciale, ont des recettes globales de \$61,344,800 ou 24.1 p.e. du revenu total de tous les établissements de service. Les cinémas, au nombre de 1,244, ont des recettes de \$41,368,800, soit près des deux tiers de toutes les recettes du groupe d'amusement et de récréation. Les jeux de quilles, les salles de billard ou les jeux de quilles avec salles de billard constituent une autre subdivision importante de ce groupe. Il y a 1,463 établissements de cette nature et leurs recettes se placent à \$7,857,400. Les terrains de campement et camps de touristes, les salles de danse et les patinoires forment d'autres classifications importantes de ce groupe. Etant donné le caractère saisonnier de certains de ces genres de commerce, leur énumération par les énumérateurs du recensement a pu ne pas être toujours complète.

**Groupe des services commerciaux.**—Ce groupe compte 1,334 établissements dont les recettes de l'année s'élèvent à \$24,431,800, soit 9.6 p.e. du chiffre d'affaires de tous les établissements de service. Cette proportion varie beaucoup dans les diverses provinces; celle de l'Ontario est la plus forte avec 11.9 p.e. et celle de l'Île du Prince-Edouard, la plus faible avec 0.5 p.e. Les agences de publicité, dont les recettes sont de \$4,938,700, forment la plus importante catégorie de ce groupe. Ce chiffre représente les recettes brutes obtenues par les agences de publicité pour couvrir leurs dépenses d'exploitation et réaliser un profit. Il ne représente pas la valeur de la réclame faite de diverses façons par ces agences. Les établissements d'affichage en plein air déclarent des recettes de \$3,266,000 pour l'année. Les agences de perception et de crédit, les laboratoires dentaires et les établissements se spécialisant dans l'approvisionnement de lingerie sont d'autres importantes catégories de ce groupe.

**Groupe des services personnels.**—Le groupe des services personnels, comprenant les boutiques de barbier et les salons de beauté, les buanderies à la main et les buanderies mécaniques, les établissements de nettoyage et les teintureries, les boutiques de réparations et service de chaussures, occupe le premier rang au point de vue des recettes annuelles dans le domaine des services. Il y a en tout 24,731 établissements dans ce groupe et leurs recettes totales s'établissent à \$85,892,600, soit 33.7 p.e. des recettes de tous les établissements de service. Cette proportion est remarquablement uniforme dans toutes les provinces; elle ne varie que de 33.1 p.e. en Nouvelle-Ecosse à 36.5 p.e. en Colombie Britannique. Ces totaux comprennent 8,910 boutiques de barbier ou boutiques de barbier avec salon de beauté dont les recettes sont de \$17,719,500, augmentation de 4 p.e. seulement par rapport au chiffre d'affaires des 7,734 boutiques de barbier en 1930. Par ailleurs, l'augmentation du nombre et des recettes est remarquable dans le cas des salons de beauté ou des salons de coiffure pour dames; leur nombre passe de 2,385 en 1930 à 5,619 en 1941, tandis que leur chiffre d'affaires augmente de \$6,109,300 à \$12,844,400.

Le rapport de 1941 mentionne 1,730 buanderies chinoises dont les recettes sont de \$3,697,300, 191 buanderies à la main (autres que chinoises) dont les recettes sont de \$783,400 et 272 buanderies mécaniques dont les recettes sont de \$19,076,500. En 1930, il y avait 2,401 buanderies de tous genres dont les recettes se plaçaient à \$20,645,500. En 1930 les buanderies ne peuvent pas être classifiées comme buanderies chinoises et mécaniques. Mais une comparaison du nombre total d'établissements révèle une diminution sensible des buanderies chinoises, diminution qui peut être attribuée en grande partie au déclin de la population chinoise durant la période.

Les tableaux du recensement relèvent 594 établissements de nettoyage et teintureriers dont les recettes s'élèvent à \$13,925,600. Le nombre des établissements englobe non seulement les établissements proprement dits, mais encore les bureaux de prise à domicile maintenus et exploités par ces établissements dans les cités ou villes autres que celle où l'établissement est situé. Il y a également 1,777 boutiques de nettoyage, pressage et réparation dont les recettes sont de \$4,613,800 et 214 établissements se spécialisant dans le nettoyage et la réparation des articles en fourrure dont les recettes sont de \$1,233,200. Ces chiffres ne comprennent pas le service d'entreposage des fourrures fourni par les détaillants. Les recettes d'entreposage réalisées par les détaillants sont comprises dans la section du commerce de détail du recensement.

Les boutiques de réparations et service de chaussures forment une autre importante catégorie du groupe des services personnels. Il y a 4,797 boutiques de réparations de chaussures lors du recensement et leurs recettes en 1941 s'élèvent à \$10,039,700.

**Groupe de la photographie.**—Ce groupe comprend les photographes commerciaux, les photographes de portraits et les établissements se spécialisant dans l'impression, le développement et l'agrandissement des photographies. Les recettes de ce groupe se placent à \$6,901,300, dont les photographes de portraits s'approprient de beaucoup la plus grande proportion.

**Groupe des services funéraires.**—Ce groupe compte 1,225 établissements dont les recettes sont de \$13,131,900, montant qui représente 5.2 p.c. des recettes de tous les établissements de service. Le groupe se subdivise en deux parties: d'abord, 1,118 entrepreneurs de pompes funèbres dont les recettes sont de \$11,993,800 et, ensuite, 107 établissements qui dispensent des services funéraires tout en faisant la vente de meubles, mais cette dernière activité n'est que secondaire. Ces établissements ont des recettes de \$1,138,100. Cette dernière classification empiète sur un genre de commerce similaire dans la section des établissements de commerce, mais dont les recettes provenant de la vente de meubles ou autres marchandises excèdent celles provenant des services funéraires.

**Groupe de la réparation et du service.**—Ce groupe comprend surtout divers genres de commerce offrant différents services de réparation au public. Il compte 11,932 établissements dont les recettes s'établissent à \$37,512,100, soit 14.7 p.c. des recettes de tous les établissements de service. Les établissements de réparation d'automobiles, générale ou spéciale, constituent la plus importante catégorie de ce groupe. Il y a 2,450 établissements de ce genre en opération en 1941 et leurs recettes sont de \$16,897,900. Les forges, au nombre de 5,192, font des recettes de \$8,103,000 pendant l'année. Les boutiques de réparation de harnais, les boutiques de réparation de montres et bijoux, les boutiques de rembourrage et réparation de meubles sont d'autres importantes sections de ce groupe.

**Services divers.**—Ce groupe, comprenant 4,017 établissements dont les recettes sont de \$25,463,400, englobe tous les genres d'établissements de service entrant dans les cadres du recensement et non inclus ailleurs. Dans ce groupe se trouvent 2,570 kiosques de taxis dont les recettes sont de \$14,923,300. Comme seuls les exploitants de taxis qui ont des places d'affaires établies ont été inscrits par les énumérateurs du recensement, les chiffres mentionnés ne peuvent pas être considérés comme complets.

### Etablissements de service selon le chiffre d'affaires

Les résultats du recensement mettent clairement en lumière la prédominance des petits exploitants dans le domaine des services. Des 49,271 établissements relevés lors du recensement, 29 p.c. ont des recettes brutes de moins de \$1,000 pendant l'année; 30 p.c. ont un chiffre d'affaires variant de \$1,000 à \$1,999 et 22 p.c., un chiffre d'affaires s'échelonnant de \$2,000 à \$4,999. C'est

dire qu'environ 80 p.c. de tous les établissements de service ont des recettes brutes de moins de \$5,000 pendant l'année et que 20 p.c. seulement en ont plus de \$5,000. Environ 32 p.c. de tous les magasins de détail ont des ventes annuelles de moins de \$5,000. La raison de cette grande variation dans les proportions des très petits établissements de service et des magasins de détail est évidente. Dans le cas des magasins de détail, le propriétaire doit réaliser son profit net à même la différence entre ce qu'il obtient pour ses marchandises et la somme du coût de ses marchandises et de ses dépenses d'exploitation. D'autre part, le coût des marchandises pour le propriétaire d'un établissement de service se réduit à peu de chose. Il peut retenir pour son propre usage une proportion beaucoup plus forte des recettes brutes que lui procure son commerce.

Les établissements de service dont les recettes de l'année sont inférieures à \$5,000, bien qu'ils constituent 80 p.c. de l'ensemble, ne font que 24 p.c. du volume d'affaires global. A l'opposé, il y a 276 établissements dont les recettes de l'année sont de \$100,000 ou plus; bien qu'ils ne représentent que 0.6 p.c. de l'ensemble, ils font 21.2 p.c. des recettes globales.

La proportion des petits établissements par rapport à l'ensemble varie beaucoup pour les différents genres de commerce compris dans le domaine des services. Les établissements dont les recettes de l'année sont inférieures à \$5,000 représentent 90 p.c. ou plus du total pour les établissements tels que les boutiques de barbier, les buanderies chinoises, les boutiques de réparations de chaussures, les boutiques de réparations de harnais et les forges. Par ailleurs, 4 p.c. seulement des buanderies mécaniques, 18 p.c. des établissements de nettoyage et des teintureries, et 25 p.c. des cinémas entrent dans cette catégorie.

### Etablissements classifiés par nombre d'employés

Il est généralement admis qu'une grande proportion des établissements de service relevés par ce recensement sont exploités par les propriétaires seuls, sans l'aide d'employés rétribués. L'exactitude de cet avis est confirmée par les résultats du recensement qui indiquent que, sur 49,271 établissements compris dans le recensement, 31,385 ou 63.7 p.c. n'ont pas d'employés; 16.2 p.c. des établissements ont un employé chacun et 6.6 p.c. en ont deux. Seulement 13.5 p.c. des établissements entrant dans les cadres de la section des services du recensement ont recours à trois personnes rétribuées ou plus.

Les 31,385 établissements exploités par leurs propriétaires seuls font pour \$43,116,800 d'affaires en 1941, soit 16.9 p.c. des recettes globales de tous les établissements de service. Seulement 64 établissements, dont plus de la moitié sont compris dans le groupe des services personnels et sont des buanderies mécaniques ou des teintureries et des établissements de nettoyage, emploient cent personnes rétribuées. Ces grands établissements, bien qu'ils ne représentent qu'environ 0.1 p.c. du total, s'attribuent 7.3 p.c. de toutes les recettes, ont 14.2 p.c. du nombre global d'employés et versent 13.4 p.c. des salaires de l'année.

La proportion de tous les établissements qui n'ont pas de personnes rétribuées à leurs services est assez constante dans toutes les provinces; elle est de 70.5 p.c. dans l'Île du Prince-Edouard, de 62.3 p.c. en Nouvelle-Ecosse, de 66.0 p.c. au Nouveau-Brunswick, de 67.1 p.c. dans le Québec, de 58.2 p.c. en Ontario, de 63.9 p.c. au Manitoba, de 74.1 p.c. en Saskatchewan, de 68.8 p.c. en Alberta et de 61.2 p.c. en Colombie Britannique. Par contre, la proportion d'établissements qui n'ont pas d'employés varie considérablement dans les différents genres de commerce qui composent le domaine des services. Elle est la plus élevée, à 75.5 p.c., pour le groupe de la réparation et du service comprenant principalement les forges maréchales, les établissements de réparation d'automobiles et les boutiques se spécialisant dans la réparation des harnais, des montres, des radios, etc. Elle est la plus basse, à 34.6 p.c., pour le groupe des services commerciaux comprenant surtout les services de publicité de différents genres et des genres de commerce tels que les agences de perception, les laboratoires dentaires et les établissements se spécialisant dans le service d'approvisionnement de lingerie pour les organisations commerciales ou industrielles.

### Genres d'exploitation

A l'exception de quelques genres de commerce spécialisés englobant surtout les cinémas, les buanderies mécaniques et les agences de publicité, les organisations à succursales ont fait très peu de progrès dans le domaine des services. Le peu de capital nécessaire à l'exploitation de plusieurs établissements de service a eu une tendance à maintenir le caractère individualisé de

ce domaine. En outre, comme les établissements de service s'occupent de dispenser des services au public à l'établissement fréquenté plutôt que de distribuer des marchandises, ils n'ont pas les caractéristiques de l'achat central qui sont le propre du système des chaînes de distribution de marchandises.

Des 49,271 établissements de service relevés lors du recensement, 46,650 sont des établissements individuels qui s'approprient 77·4 p.e. des recettes totales. Les magasins à deux ou trois succursales se chiffrent par 1,191 et s'approprient 6·8 p.e. des recettes.

Pour les fins du recensement, les chaînes désignent quatre établissements ou plus qui relèvent du même propriétaire ou de la même administration. Les compagnies en chaîne relevées au recensement ont 809 établissements, dont les recettes s'élèvent à \$38,568,500 ou à 15·2 p.e. du chiffre d'affaires total. Comme il en est fait mention plus haut, ce sont surtout des cinémas, des buanderies mécaniques et des agences de publicité. Le nombre d'organisations en chaîne en chacun de ces commerces n'est pas assez important pour justifier une analyse plus détaillée.

Un groupe résiduaire de 621 établissements dont les recettes sont de \$1,593,800 comprend les salons de beauté, les boutiques de barbier et d'autres services exploités comme concessions louées dans d'autres établissements de service ou magasins de détail.

### Formes d'organisation

Les établissements de service sont classifiés en cinq groupes d'après la forme de propriété selon laquelle ils sont exploités. Près de 90 p.e. de tous les établissements relevés sont exploités par des propriétaires individuels, mais ils ne font qu'environ 52 p.e. du chiffre d'affaires global. Il y a 3,179 établissements qui sont exploités par des sociétés et dont les recettes représentent 10·5 p.e. du total. Les établissements de service exploités par des corporations ne forment que 4 p.e. du total, mais ils s'attribuent 37·6 p.e. du chiffre d'affaires total. Huit petits établissements qui se classifient eux-mêmes comme des associations coopératives et 71 autres places d'affaires attribuées à une catégorie résiduaire complètent la classification des établissements d'après la forme d'organisation.

### Continuité de la propriété

Lors du recensement il était demandé à chaque propriétaire d'établissement d'indiquer l'année où il avait pris possession de son entreprise à l'endroit où il était situé à la date du recensement. La réponse n'indique pas nécessairement l'année où l'entreprise a débuté, puisque les changements de forme de propriété, de celle de propriétaire individuel à celle de société, et les changements d'endroit constituent, d'après les instructions données, une solution de continuité du commerce. Les données obtenues en réponse à cette question ne fournissent pas une base pour le calcul des taux de mortalité dans les différents commerces. Cependant, elles peuvent servir à établir la moyenne des années d'existence et à décrire la répartition des années d'existence des établissements en opération au cours de l'année de recensement. Tous les établissements n'ont pas répondu à cette partie de la question. Les résultats suivants sont basés sur les rapports de 34,530 établissements qui ont fourni les renseignements demandés.

La moyenne d'année d'existence des 34,530 établissements est de 8·51 ans. Environ 11 p.e. des établissements faisant rapport ont été ouverts ou acquis l'année du recensement. Comme les listes de base du recensement ont été préparées par les énumérateurs du recensement en juin et juillet 1941, il est évident que ces 11 p.e. des établissements ont été ouverts durant le premier semestre de l'année du recensement; 10 p.e. ont été ouverts en 1940 et 10 p.e. en 1939. Seulement 26 p.e. des établissements faisant affaires en 1941 étaient exploités dans la même localité et par le même propriétaire en 1929.

La répartition des années d'existence pour les établissements exploités par des propriétaires individuels et par des sociétés comporte de très grandes similitudes, tandis que dans le cas des établissements exploités par des corporations la moyenne des années d'existence est un peu plus élevée.

(<sup>1</sup>) Receipts of advertising agencies shown here for 1941 represent the gross revenue which they received from commis-  
sions and fees. They do not represent the total value of the advertising which these agencies placed. In the corresponding  
census for 1939, the total billings were reported.

(<sup>1</sup>) Receipts of advertising agencies shown here for 1941 represent the gross revenue which they received from commissions and fees. They do not represent the total value of the advertising which these agencies placed. In the corresponding census for 1930, the total billings were reported.

(<sup>1</sup>) Receipts of advertising agencies shown here for 1941 represent the gross revenue which they received from commis-  
sions and fees. They do not represent the total value of the advertising which these agencies placed. In the corresponding  
census for 1930, the total billings were reported.

**Tableau 4.—Services de détail, 1941, par genres de commerce, pour les comtés ou les divisions de recensement et les localités incorporées de 1,000 ou plus—suite**

Un (x) indique que les chiffres ne sont pas donnés afin de ne pas dévoiler des opérations individuelles, mais ces chiffres sont inclus dans les totaux.

(Les recettes sont indiquées en milliers de dollars)

| Other miscellaneous service establishments—Autres services divers.....  | 442,500               | 8,900  | 18,600                                      | 2,500   | 113,000               | 157,600              | 18,900               | 29,200               | 4,800                | 88,300   |

<sup>(1)</sup> Includes Yukon and Northwest Territories.<sup>(1)</sup> Inclus Yukon et Territoires du Nord-Ouest.

## APPENDIX

### KIND-OF-BUSINESS DESCRIPTIONS

The retail service field, for the purposes of the census, is divided into seven broad kind-of-business groups, each of which is subdivided into a number of more detailed classifications, consisting altogether of approximately 60 classes. The kind-of-business classification to which each establishment is assigned is based upon the nature of the services offered. Some business places perform more than one type of service; in such instances the establishment is assigned to the classification which corresponds most closely with the main kind of business conducted. A description of the various kind-of-business classifications used in the Census of 1941 is given in the following paragraphs.

#### AMUSEMENT AND RECREATION GROUP

This group is comprised of commercial enterprises engaged in providing facilities of various kinds for amusement or recreational purposes. Enterprises conducted by educational institutions, by religious, charitable or fraternal agencies and by other non-profit organizations are not included. Golf, tennis and other clubs conducted along non-commercial lines are also excluded.

**Billiard parlours.**—Included here are billiard parlours or pool rooms not associated or connected with bowling alleys. These billiard parlours are frequently found operating in conjunction with some other activity such as barbering, shoe shine parlours or the sale of tobacco and confectionery.

**Bowling alleys.**—Establishments specializing in providing bowling alley service and which did not indicate in their reports that facilities for playing billiards or pool were also provided.

**Bowling and billiards.**—Establishments offering facilities for both bowling and also billiards or pool. Refreshment stands or lunch counters may be operated in the same premises.

**Camp grounds and tourist camps.**—This classification includes places of business listed by the census enumerators and whose reports indicated that the major portion of the annual receipts represented revenue from the rental of camp grounds or tourist camps. Many of these places are operated in conjunction with filling stations. Such establishments are classified as filling stations whenever 50 per cent or more of the annual revenue represented receipts from the latter source.

**Motion picture theatres.**—Included here are all motion picture houses in which equipment for the projection of motion pictures is permanently installed. The operations of itinerant operators are not included in the figures shown for this classification.

**Other amusement and recreation places.**—Included here are a large number of different types of business such as skating rinks, dance halls, rental libraries, boat rental and storage, amusement parks and concessions operated on a commercial basis, athletic clubs and grounds, riding schools, golf schools, shooting galleries, miniature golf courses, roller skating rinks, etc. For some of these classifications the total number of firms in operation is comparatively small. For others the incompleteness of the enumeration was such as to render the use of a separate category unadvisable.

#### BUSINESS SERVICES GROUP

Included in this group are a limited number of types engaged in rendering service to the business community rather than for individuals. The kinds of business included here are as follows:—

**Addressing, multigraphing, typing.**—Persons or firms acting as public stenographers constitute the most important element in this class. Included also are firms engaged in multigraphing or mimeographing or in performing other services of a similar nature.

**Advertising agencies.**—Firms that contract for space, radio or other advertising media and that place the advertising for the client on a commission or fee basis. These firms also prepare advertising copy and cuts, they prepare radio programs of an advertising nature and they engage in various types of marketing investigations for their clients. The amount of receipts shown in the tables for advertising agencies represents the gross earnings or commissions which they received for their services and not the value of the advertising placed for their clients. This constitutes a distinct departure from the procedure adopted in the earlier census for 1930 when the value of advertising placed was recorded.

**Outboard display and billboard advertising.**—This classification is comprised chiefly of firms engaged in the erection and maintenance of billboards or neon signs or in placing advertising material in street cars and other public vehicles. Revenues reported by such firms and included in the census results relate to rentals and other charges received from the clients on whose behalf the advertising is placed.

**Sign painting shops.**—Firms or persons whose chief activity is the painting of signs or showcards for sale.

**Other advertising services.**—Firms specializing in other types of advertising service such as window display, novelty advertising, etc., and for which separate categories are not provided. Publishers' representatives not recognized as advertising agencies form an important component of this class.

**Other business services.**—This category is composed of four subdivisions: Collection and credit agencies are engaged in collecting accounts or in the reporting of credit ratings of persons or individual firms. Receipts reported represent the fees received for services rendered. Dental laboratories are engaged in the preparation of plates, bridges and other mechanical work for the dental profession. The third subdivision is comprised of firms engaged primarily in supplying uniforms, aprons, tablecloths, towels, etc., to restaurants, barber shops, offices, etc. The same class of service is frequently rendered by commercial laundries. In such instances the receipts for linen supply are included with those for the laundry classification and are not included here. The fourth classification in this major category includes a miscellaneous group of establishments including such types as the following: window cleaners, auctioneers, protective associations, financial and statistical services, detective agencies, weighing services, bottle exchanges, press clipping service, theatre ticket agencies, theatrical equipment rentals and translators.

## PERSONAL SERVICES GROUP

This group is comprised of five main subdivisions: barber shops and beauty parlours, laundries, cleaning and dyeing establishments, shoe repair and shoe shine shops and a miscellaneous residual classification.

**Barber shops and beauty parlours.**—This classification is comprised of three individual kinds of business, namely, barber shops, beauty parlours and, combined barber shops and beauty parlours. It includes barber shops or beauty parlours operated as concessions in department stores, hotels and other places of business. Hat cleaning or shoe shine service may be carried on as a subsidiary activity. Barbering colleges are excluded.

**Laundries.**—Also comprised of three individual classifications. Chinese laundries form the most important class in point of view of number of establishments. Hand laundries other than Chinese form the second class. This latter group is engaged chiefly in the finishing and distribution of laundry work, the greater part of the actual washing being done in power laundries. Included here also are any independently operated agencies of power laundries. Power laundries constitute the third component of the group. Included in the count of power laundries are not only the plants in which the work is performed but also any pick-up offices maintained and operated by the plants in cities or towns other than that in which the plant was located.

**Cleaning and Dyeing.**—Three separate classifications come under this general heading. In the first instance there are cleaning and dyeing plants operating with power-driven equipment. The second classification includes shops, other than cleaning and dyeing plants, engaged in the

cleaning, pressing and repairing of outer garments. In many instances these shops do the pressing and repair work on clothing which has been cleaned in power plants. Included also are any independent agencies of power plants but not the sales offices operated directly by the plants. Such establishments, if operated in a different locality from that of the plant, are included in the count of cleaning and dyeing plants.

The third component of this group represents establishments specializing in the cleaning, repairing and storage of furs. Fur storages operated in conjunction with retail stores are included in the retail merchandising census and not here.

**Shoe repair and service shops.**—This sub-group is composed of shoe repair shops and shoe shine parlours. Included in the shoe repair classification are shops specializing in making shoes to order.

**Miscellaneous personal services.**—Included here are a miscellaneous group of businesses of which Turkish baths form the most important component. Other kinds of business include the blocking of hats, costume renting, shirt repair shops, hosiery repair shops, button covering, hair and scalp treatment, tattooing, etc.

### PHOTOGRAPHY GROUP

This group includes all firms specializing in photography and relative work. Separate classifications are provided for firms specializing in commercial and in portrait photography. To a third classification were assigned all firms specializing in printing, developing and enlarging.

### UNDERTAKING AND BURIAL GROUP

This group is comprised of two subdivisions. The first classification includes funeral directors operating with or without private parlours. Ambulance service may be provided. Crematories are included in this classification.

The second classification is comprised of firms which combine the sale of furniture with undertaking service but in which receipts from undertaking or funeral directing form the major portion of the annual volume of business. A corresponding classification is provided in the retail merchandise census for establishments in which the sale of furniture predominates.

### REPAIR AND SERVICE GROUP

These are establishments all, or the greater part, of whose revenue is derived from repair work. The group is divided into three main subdivisions: automotive repair shops, blacksmith shops and a residual group of repair shops. Each of these is further subdivided into a number of individual classifications.

**Auto body and paint shops.**—Firms specializing in repairs to auto bodies, fenders and radiators or firms specializing in auto painting. Included also are firms doing both auto body repair and paint work.

**Auto ignition, batteries and electrical.**—Firms specializing in battery repairs or battery charging or specializing in the installation of cables, wiring and ignition parts.

**Auto parking lots.**—Lots maintained for the parking of cars for which a rental is charged. Free parking lots maintained in connection with a store or other commercial or industrial institution are not included.

**Auto service garages.**—All firms reporting that they carried on a general line of automotive repairs. Included here are firms which indicated that they did auto repair work but where the description of the business furnished was not sufficiently detailed to permit the use of one of the more specialized classifications. Parts, accessories, gas and oil may be sold but in all instances receipts from repair work form 50 per cent or more of the annual business.

**Auto storage garages.**—Firms specializing in indoor parking and storage. General garages are included here when storage receipts form more than one-half of the total service receipts.

**Auto tire and brake shops.**—Firms specializing in tire repairs, vulcanizing, etc., or firms specializing in brake repairs and adjusting. Included also are firms specializing in both of these activities.

**Auto washing and polishing.**—Establishments specializing in this service. Parking facilities may be provided.

**Other automotive specialty repair shops.**—Establishments specializing in kinds of automotive repairs for which separate categories are not provided. Included here are firms specializing in repairs to springs, axles, cylinder grinding, valve grinding, etc.

**Blacksmith and general repairs.**—Blacksmith shops reporting welding and other iron work but where the report furnished did not indicate that horse shoeing was carried on. Included here are firms specializing in carriage and implement repairs.

**Horse-shoeing shops.**—This classification is confined to reports where horse shoeing was specifically mentioned. Welding, tire setting and other iron work may also be carried on.

**Bicycle and motorcycle repairs.**—Firms specializing in this activity. Bicycles and motorcycles may be sold but receipts from repairs and services predominate.

**Harness repair shops.**—While specializing in harness repairs these firms may do shoe repairing and general leather work. New harness, suitcases and other leather goods may be sold but not as the major activity.

**Locksmiths.**—Firms engaged in repairing locks, repairing door latches and in cutting keys. Included also are firms engaged in sharpening tools, cutlery and lawnmowers.

**Radio and electrical repairs and services.**—Firms engaged primarily in the repairing of radios or electrical appliances. Electrical merchandise may be sold as a subsidiary activity.

**Upholstery and furniture repair.**—Firms specializing in upholstery or furniture repair work. Second-hand furniture is sometimes carried.

**Watch and jewellery repair.**—Firms specializing in the repair of clocks, watches and jewellery. These items may be sold but receipts from repair work form the major portion of the annual revenue.

**Armature rewinding and electric motor repairs.**—Firms engaged in the repairing and servicing of electric motors.

**Woodworking shops.**—Firms or persons whose reports indicated that they operated a general woodworking shop. In some instances these establishments may represent shops operated by carpenters or cabinetmakers.

**Miscellaneous repair shops.**—Amongst the various types included in this miscellaneous classification are shops specializing in the repair of the following: typewriters, sewing machines, pianos, fountain pens and cameras.

## MISCELLANEOUS SERVICES

This group includes a number of non-related types of business in the service field.

**Commercial abattoirs.**—Commercial establishments providing facilities for the slaughtering of animals on a fee basis. Public abattoirs operated by municipalities are not included.

**Machine shops.**—This classification is restricted to smaller establishments doing a general line of machine shop work consisting chiefly of repairs. Larger machine shops come within the scope of the Census of Industry rather than the Census of Merchandising and Service Establishments.

**Taxi and auto-livery.**—Included here are those persons or firms engaged in this activity and which operated a stand or other recognizable place of business. Taxi operators having no established place of business would not be listed by the census enumerators.

**Plumbing repair shops.**—Most establishments in this trade report to the annual Census of Construction and were therefore omitted from the service census. The shops included here represent very small firms with annual receipts generally below \$1,000.

**Warehousing and storage.**—Establishments engaged either in cold storage or in general storage. Storage warehouses operated in conjunction with packing plants or in conjunction with firms engaged in transportation are not included.

**Other miscellaneous services.**—Included here are a large number of different kinds of business coming within the scope of the service section of the census and for which separate classifications are not provided. Included here are livery stables, rug cleaning establishments, chimney cleaners, fumigating service, seed cleaning, bicycle renting, landscaping, animal care and many other types of business.

## APPENDICE

### DESCRIPTION DES GENRES DE COMMERCE

Les services de détail sont divisés, pour les fins du recensement, en sept différents groupes principaux, selon le genre de commerce, chacun étant subdivisé en un certain nombre de classifications plus détaillées comprenant en tout approximativement soixante classes. La classification selon le genre de commerce auquel chaque établissement est assigné repose sur la nature des services offerts. Certaines maisons d'affaires rendent plus qu'un genre de service; dans ce cas, l'établissement est assigné à la classification qui correspond le plus étroitement au genre principal de commerce exercé. Les diverses classifications selon le genre de commerce, utilisées dans le recensement de 1941, sont décrites dans les paragraphes suivants.

#### GROUPE D'AMUSEMENT ET DE RÉCRÉATION

Ce groupe se compose d'entreprises commerciales qui s'occupent de fournir divers moyens d'amusement. Les entreprises dirigées par les maisons d'enseignement, par des sociétés religieuses, de charité, ou confréries, et par d'autres organismes sans but lucratif, ne sont pas comprises. Les clubs de golf, de tennis, et autres non exploités commercialement, sont également exclus.

**Salles de billard.**—Sont incluses les salles de billard non associées ou rattachées aux salles de quilles. Ces salles de billard sont souvent exploitées conjointement avec telle autre activité, comme métier de barbier, de cireur de chaussures, ou magasin de tabac ou confiserie.

**Jeux de quilles.**—Établissements se spécialisant dans le service des jeux de quilles et qui n'ont pas indiqué dans leur rapport si les jeux de billard étaient également fournis.

**Quilles et billard.**—Établissements offrant les jeux de quilles et de billard. Des comptoirs de rafraîchissements ou de repas légers peuvent être exploités dans ces mêmes établissements.

**Terrains de campement et camps de touristes.**—Cette classification comprend les établissements commerciaux énumérés par les énumérateurs du recensement et dont les rapports indiquent que la majeure partie de leurs recettes annuelles découle du loyer des terrains de campement ou des camps de touristes. Plusieurs de ces établissements sont exploités conjointement avec des stations de gazoline; ils sont classifiés comme stations de gazoline lorsque 50 p.c. ou plus du revenu annuel représente les recettes provenant de cette dernière source.

**Cinémas.**—Sont compris tous les cinémas où l'outillage de projection de vues animées est installé en permanence. Les exploitations des projectionnistes ambulants ne sont pas comprises dans les chiffres indiqués pour cette classification.

**Autres endroits d'amusement et de récréation.**—Comprennent un grand nombre de genres différents de commerce tels que patinoires, salles de danse, bibliothèques de prêt, location et remisage de bateaux et canots, paires et concessions d'amusement exploités sur une base commerciale, clubs et terrains athlétiques, écoles d'équitation, de golf, salles de tir, jeux de golf miniatures, salles de patinage à roulettes, etc. Dans certaines de ces classifications, le nombre d'établissements en opération est comparativement faible; dans d'autres, l'énumération est imparfaite au point de rendre l'utilisation d'une catégorie séparée inopportune.

#### GROUPE DE SERVICES COMMERCIAUX

Compris dans ce groupe se trouve un nombre limité de genres de commerce rendant des services au monde commercial plutôt qu'aux particuliers. Les genres de commerce inclus sont les suivants:

**Service d'adressage, de multigraphe, et de dactylographe.**—Les personnes ou établissements agissant comme sténographes publics constituent l'élément le plus important de cette classe. Sont également compris les établissements occupés au service de multigraphe ou auto-copie ou rendant d'autres services analogues.

**Agences de publicité.**—Les établissements qui s'occupent de contrats de réclame, ou publicité par la radio ou autres organes de publicité et qui distribuent, à commission ou contre rétribution, la publicité pour le client. Ces établissements préparent aussi la matière publicitaire et les clichés; ils préparent les programmes radiophoniques publicitaires et s'enquière des divers marchés pour le compte de leurs clients. Le montant des recettes des agences de publicité, tel que donné dans les tableaux, représente les gains bruts ou commissions reçus pour leurs services et non la valeur de la publicité distribuée pour leurs clients. Ceci constitue une dérogation absolue à la méthode adoptée au recensement antérieur de 1930, lorsque la valeur de la publicité vendue était enregistrée.

**Affichage en plein air.**—Cette classification se compose principalement d'établissements érigeant et entretenant des affiches ou enseignes au néon ou qui placent de la matière publicitaire dans les tramways et autres véhicules publics. Les revenus déclarés par des établissements de cette nature et inclus dans les résultats du recensement ont trait aux loyers et autres charges reçus des clients en faveur desquels les réclames sont affichées.

**Ateliers de peinture d'enseignes.**—Établissements ou personnes dont la principale occupation consiste à peindre des enseignes ou des affiches à vendre.

**Autres services de publicité.**—Établissements se spécialisant dans d'autres genres de services de réclame tels que étagistes, annonceurs de nouveautés, etc., et pour lesquels des catégories distinctes ne sont pas prévues. Les représentants des maisons d'édition, non reconnus comme agents de publicité, sont une des principales parties composantes de cette classe.

**Autres services commerciaux.**—Cette catégorie est composée de quatre subdivisions: agences de perception et de crédit occupées à la perception des comptes ou au rapport de la cote de crédit de personnes ou établissements particuliers. Les recettes déclarées représentent les honoraires reçus pour services rendus. Les laboratoires dentaires s'occupent de la préparation de dentiers, ponts, et autres travaux dentaires mécaniques. La troisième subdivision se compose d'établissements occupés principalement à fournir des uniformes, tabliers, nappes, serviettes, etc. aux restaurants, boutiques de barbier, bureaux, etc. Des services de cette même classe sont fréquemment rendus par des buanderies commerciales. Dans ce cas, les recettes de la lingerie fournie sont incluses avec celles de la classification de la buanderie et non ici. La quatrième classification de cette principale catégorie comprend un groupe divers d'établissements de genres tels que nettoyeurs de fenêtres, commissaires-priseurs, sociétés de protection, services financiers et de statistiques, agences secrètes, services de pesage, échange de bouteilles, agences de coupures de journaux, agences de billets de théâtre, location d'accessoires de théâtre et traducteurs.

## GROUPE DES SERVICES PERSONNELS

Ce groupe se compose de cinq principales subdivisions: boutiques de barbier et salons de beauté, buanderies, établissements de nettoyage et teinturerie, réparation de chaussures, cirage de chaussures, et une classification résiduelle diverse.

**Boutiques de barbier et salons de beauté.**—Cette classification se compose de trois genres particuliers de commerce, soit: boutiques de barbier, salons de beauté, et boutiques de barbier avec salon de beauté. Elle comprend les boutiques de barbier ou salons de beauté exploités comme concessions dans les grands magasins, les hôtels et autres lieux d'affaires. Le nettoyage de chapeaux ou le cirage de chaussures peut se poursuivre comme entreprise auxiliaire. Les collèges de barbiers sont exclus.

**Buanderies.**—Se composent aussi de trois classifications particulières. Les buanderies chinoises forment la classe la plus importante au point de vue du nombre d'établissements. Les buanderies à la main autres que chinoises forment la seconde classe. Ce dernier groupe est occupé principalement au finissage et à la distribution du travail de buanderie, la majeure partie du lessivage proprement dit étant faite dans des buanderies mécaniques. Sont aussi incluses dans ce groupe toutes les agences des buanderies mécaniques indépendantes. Les buanderies mécaniques constituent le troisième composant de ce groupe. Sont compris, dans le calcul des buanderies

mécaniques, non seulement les établissements où le travail se fait mais aussi les bureaux de prise à domicile maintenus et exploités par les établissements des cités ou villes autres que celle où l'établissement est situé.

**Nettoyage et teinturerie.**—Trois classifications séparées se trouvent sous cet en-tête général. Il y a d'abord les établissements de nettoyage et teinturerie qui fonctionnent à l'aide d'outillage mécanique. La seconde classification comprend les boutiques autres que les établissements de nettoyage et teinturerie, s'occupant de nettoyage, pressage et réparation de vêtements. Dans plusieurs cas, ces boutiques font le pressage et la réparation de vêtements nettoyés dans les établissements qui fonctionnent mécaniquement. Sont aussi incluses les agences indépendantes des établissements mécaniques mais non les bureaux de vente exploités directement par les établissements. Les établissements de ce genre, lorsqu'ils sont exploités dans une localité autre que celle de l'établissement, sont inclus dans le calcul des établissements de nettoyage et de teinturerie.

Le troisième composant de ce groupe représente les établissements qui se spécialisent dans le nettoyage, la réparation et l'entreposage de fourrures. Les entrepôts de fourrures exploités conjointement avec les magasins de détail sont inclus dans le recensement du commerce de détail et non ici.

**Boutiques de réparation et service de chaussures.**—Ce sous-groupe se compose de cordonneries et salons de cirage de chaussures. Sont comprises dans la classification "réparation de chaussures", les boutiques qui se spécialisent dans la fabrication de chaussures sur mesures.

**Divers services personnels.**—Se composent d'un groupe d'entreprises commerciales diverses dont les bains turcs sont le principal composant. D'autres genres de commerce comprennent le dressage de chapeaux, les costumeries, la réparation de chemises, réparation de bonneterie, garniture de boutons, les traitements de la chevelure et du cuir chevelu, tatouage, etc.

## GROUPE DE LA PHOTOGRAPHIE

Ce groupe comprend tous les établissements spécialisés en photographie et travaux connexes. Des classifications séparées sont données pour les établissements qui se spécialisent dans la photographie commerciale et le portrait. A une troisième classification sont assignés tous les établissements ayant pour spécialité l'impression, le développement et l'agrandissement de photographies.

## GROUPE DES SERVICES FUNÉRAIRES

Ce groupe comprend deux subdivisions. La première classification comprend les entrepreneurs de pompes funèbres exploitant ou non des salons funéraires. Le service d'ambulance peut être fourni. Les crématoriums sont inclus dans cette classification.

La seconde classification est composée des établissements qui combinent la vente de meubles au service de pompes funèbres mais dont la majeure partie des recettes provient des services funéraires ou dont la direction de pompes funèbres forme la majeure partie du volume d'affaires annuel. Une classification correspondante est donnée dans le recensement du commerce de détail pour les établissements où la vente de meubles prédomine.

## GROUPE DE LA RÉPARATION ET DU SERVICE

Ceux-ci sont tous, ou pour la plupart, des établissements dont le revenu provient de travaux de réparation. Le groupe est divisé en trois principales subdivisions: boutiques de réparations d'automobile, forges, et un groupe résiduel de boutiques de réparation. Chacune de ces subdivisions est de nouveau subdivisée en un certain nombre de classifications particulières.

**Boutiques de carrosseries et de peinture d'automobile.**—Établissements se spécialisant dans la réparation de carrosseries d'automobile, de pare-choc et de radiateurs, ou d'établissements se spécialisant dans la peinture des autos. Sont aussi inclus les établissements qui s'occupent également de la réparation et du peinture de la carrosserie.

**Allumage, batteries, service d'électricité.**—Etablissements se spécialisant dans la réparation de batteries ou recharge des accumulateurs, ou se spécialisant dans l'installation de câbles, de fils ou de pièces d'allumage.

**Parcs de stationnement d'automobiles.**—Parcs entretenus pour le stationnement payant d'automobiles. Les parcs de stationnement gratuit, attenants à un magasin ou autre institution commerciale ou industrielle, ne sont pas inclus.

**Garages de service d'automobiles.**—Tout établissement déclarant la réparation générale d'automobiles. Sont inclus les établissements indiquant qu'ils font la réparation d'automobiles mais dont la description donnée du commerce n'est pas suffisamment détaillée pour permettre l'usage d'une ou plusieurs classifications spécifiées. Les pièces, accessoires, gazoline et huile, peuvent être vendus mais, dans tous les cas, les recettes provenant des réparations forment 50 p.c. ou plus du chiffre d'affaires annuel.

**Garages d'entreposage d'automobiles.**—Etablissements se spécialisant dans le stationnement intérieur et l'entreposage. Les garages généraux sont inclus ici lorsque les recettes forment, plus de la moitié des recettes totales du service.

**Boutiques de pneus et service de freins.**—Etablissements se spécialisant dans la réparation de pneus, vulcanisation, etc., ou établissements se spécialisant dans la réparation, et l'ajustage de freins. Sont aussi inclus les établissements se spécialisant dans ces deux occupations.

**Lavage et polissage d'automobiles.**—Etablissements spécialisés dans ce service. Des parcs de stationnement peuvent y être rattachés.

**Autres boutiques de réparation spécialisée pour véhicules-moteur.**—Etablissements se spécialisant dans des genres de réparation de véhicules-moteur pour lesquels des catégories distinctes ne sont pas prévus. Sont inclus les établissements se spécialisant dans la réparation de ressorts, essieux, alésage de cylindres et rodage de soupapes, etc.

**Forges et réparation générale.**—Boutiques de forge déclarant le soudage et autre ferronnerie mais dont le rapport ne fait pas mention du ferrage des chevaux. Sont inclus les établissements se spécialisant dans la réparation de voitures et instruments.

**Forges marécales.**—Cette classification est limitée aux rapports où le ferrage des chevaux est spécifiquement mentionné. Le soudage, le posage de bandages et autres travaux de ferronnerie peuvent aussi être faits.

**Réparation de bicyclettes et motocyclettes.**—Etablissements se spécialisant dans cette occupation. Des bicyclettes et motocyclettes peuvent être vendues mais les recettes pour réparations et services prédominent.

**Réparation de harnais.**—Tout en se spécialisant dans la réparation de harnais, ces établissements peuvent faire la réparation de chaussures et divers travaux en cuir. Des harnais, valises, et objets neufs en cuir peuvent être vendus mais non comme principale activité.

**Serruriers.**—Etablissements qui s'occupent de la réparation de serrures, réparation de loquets, et découpage de clés. Sont aussi inclus les établissements qui font l'affilage des outils, de la coutellerie et des tondeuses de gazon.

**Réparation et service de radio et appareils électriques.**—Etablissements occupés principalement à la réparation de radios ou appareils électriques. Des objets électriques peuvent être vendus comme activité secondaire.

**Remboursement et réparation de meubles.**—Etablissements se spécialisant dans le remboursement ou la réparation des meubles. Le commerce des meubles de seconde-main est parfois exercé.

**Réparation de montres et bijoux.**—Etablissements se spécialisant dans la réparation d'horloges, montres et bijoux. Ces articles peuvent être vendus mais les recettes provenant des réparations forment la majeure partie du revenu annuel.

**Rebobinage d'armatures et réparation de moteurs électriques.**—Établissements occupés à la réparation et à l'entretien de moteurs électriques.

**Boutiques de travail du bois.**—Établissements ou personnes dont les rapports indiquent qu'ils exploitent une boutique de travail général du bois. Dans certains cas, ces établissements peuvent représenter des boutiques exploitées par des charpentiers ou des ébénistes.

**Réparations diverses.**—Parmi les différents genres de réparations compris dans cette classification diverse, se trouvent les boutiques se spécialisant dans la réparation de dactylo-types, machines à coudre, pianos, stylographes et appareils photographiques.

### SERVICES DIVERS

Ce groupe comprend un certain nombre de genres de commerce n'ayant aucun rapport entre eux dans le domaine des services.

**Abattoirs commerciaux.**—Établissements commerciaux offrant les installations nécessaires à l'abattage des animaux moyennant rétribution. Les abattoirs publics exploités par les municipalités ne sont pas inclus.

**Ateliers de machines.**—Cette classification se limite aux plus petits établissements s'adonnant à des travaux généraux de machines consistant surtout en réparations. Les ateliers de machines plus considérables font partie du recensement de l'industrie plutôt que de celui des établissements de commerce et de services.

**Livraison par automobile et service de taxi.**—Comprennent les personnes ou établissements se livrant à cette occupation et qui exploitent un poste ou autre lieu d'affaires reconnaissable. Les services de taxi qui n'ont pas de commerce établi ne sont pas énumérés par les énumérateurs du recensement.

**Boutiques de réparation de plomberie.**—La plupart des établissements de ce genre font un rapport annuel au recensement de la construction et sont par conséquent omis du recensement des services. Les boutiques incluses représentent les très petits établissements dont les recettes annuelles n'excèdent pas d'habitude \$1,000.

**Entreposage.**—Établissements soit d'entreposage frigorifique, soit d'entreposage général. Les entrepôts exploités conjointement avec les conserveries ou avec des établissements de transport ne sont pas inclus.

**Autres services divers.**—Sont inclus un grand nombre de différents genres de commerces, de la section des services du recensement et pour lesquels aucune classification particulière n'est prévue. Sont inclus les écuries de louage, établissements pour nettoyage de tapis, ramoneurs, services de fumigation, nettoyage des graines de semence, louage de bicyclettes, jardinistes, soin des animaux, et plusieurs autres genres de commerces.

## STATISTICS OF HOTELS IN CANADA, 1941

This section of Volume XI contains the results of the census of hotels which was taken in connection with the Census of Merchandising and Service Establishments for 1941. Like other phases of this census, the survey of hotels was taken by mail, the basic mailing list for the purpose having been prepared by the enumerators of the population census in June, 1941. These lists were supplemented by information secured from certain of the provincial governments giving the names and addresses of hotels and inns licensed to sell alcoholic beverages.

The census of hotels for 1941 is the second of this kind to be taken in Canada, a similar work having been done for the year 1930 as part of the Decennial Census of 1931. In both instances the census included both those hotels which operate throughout the entire year and those which operate on a seasonal basis. In neither instance did the census include apartment houses, boarding houses, clubs, tourist camps or accommodation provided by Y.M.C.A.'s or Y.W.C.A.'s.

The survey includes hotels operating on the European plan, the American plan or on both plans. Some hotels were unable to give data on the sale of meals as distinguished from the rental of rooms. In such instances an estimated breakdown was computed based on the proportions of room rentals and receipts from the sale of meals as reported by those hotels which were able to furnish separate figures.

Alcoholic beverages were sold in hotels in 1930 in Quebec, Manitoba, Alberta and British Columbia. By 1941 the sale of these beverages in hotels had extended to all except the three Maritime Provinces. Introduction of this activity during the intercensal period is largely responsible for the marked increase in the total receipts for hotels which took place in Ontario and Saskatchewan between 1930 and 1941.

Including both those operating on a full-year and on a seasonal basis there were 5,646 hotels in Canada in 1941 with total annual receipts for that year of \$147,488,156, of which amount \$78,695,770 or 53 per cent represented the sale of alcoholic beverages, \$57,706,350 or 39 per cent was obtained from the sale of meals or the rental of rooms and \$11,086,036 was derived from other sources. These hotels required the services of 46,002 paid employees of whom 25,277 were male and 20,725 were female and to whom \$31,736,551 was paid in salaries and wages. In addition, there were 4,606 proprietors of unincorporated companies who devoted the major portion of their time to hotel management. Included in this total were 2,601 proprietors who indicated that they did not draw any stated salary as compensation for their services and another 2,005 proprietors who reported that they drew salaries to the total value of \$3,852,708.

### Full-Time Hotels

There were 4,844 hotels which operated the entire year and these had total annual receipts of \$140,612,327 for 1941, an increase of 68 per cent over the volume of business transacted by 4,176 hotels in 1930, the only other year for which comparable statistics are available.

Hotel receipts in New Brunswick were very slightly lower in 1941 than in the earlier period while all other provinces reported increases, percentage gains in total receipts from all sources over 1930 being as follows: Prince Edward Island, 11 per cent; Nova Scotia, 34 per cent; Quebec, 10 per cent; Ontario, 194 per cent; Manitoba, 12 per cent; Saskatchewan, 117 per cent; Alberta, 23 per cent; and British Columbia, 31 per cent. The pronounced increases in Ontario and Saskatchewan are attributable to the inclusion of beer or wine receipts in 1941 only. These hotels were not licensed for the sale of beer or wine in 1930.

The 4,844 full-time hotels contained 112,374 guest rooms and, in addition, provided accommodation for 5,389 persons in other than the hotel proper (cabins, etc.). Employees numbered 38,004 of whom 22,039 were male and 15,965 were female, while salaries and wages paid during the year amounted to \$29,937,228. In addition there were 4,062 proprietors who devoted the major portion of their time to hotel management.

The total receipts of these full-time hotels amounting to \$140,612,327 was comprised of the sale of alcoholic beverages valued at \$78,025,137, room rentals of \$30,702,106, meal receipts at \$21,690,445, tobacco sales of \$5,575,492, and miscellaneous receipts of \$4,619,147. The latter

figure includes rentals received for the use of leased concessions in hotels but it does not include the volume of business transacted by these concessions. Separate reports were received from the operators of these concessions and were assigned to the retail trade or service section of the Census of Merchandising.

**Hotels Classified According to Number of Rooms.**—A classification of the 4,844 hotels which operated the entire year according to the number of guest rooms provided shows that 1,939 hotels or 40 per cent of the total number each had 10 rooms or less. Another 1,755 hotels each had from 11 to 25 rooms, 776 hotels had from 26 to 50 rooms and 280 had from 51 to 100. Only 94 hotels had over 100 rooms and of this number 69 were in the 101 to 200 room class, 15 had from 201 to 500 rooms and 10 had more than 500 rooms. The following table shows the distribution of hotels in the various provinces according to number of guest rooms.

NUMBER OF FULL-YEAR HOTELS CLASSIFIED ACCORDING TO NUMBER OF ROOMS, BY PROVINCES, 1941.

| Province                             | Total All Hotels | 10 Rooms or Less | 11-25 Rooms  | 26-50 Rooms | 51-100 Rooms | 101-200 Rooms | 201-500 Rooms | 501 Rooms and Over |

| British Columbia.....                | 524              | 195              | 169          | 110         | 64           | 22            | 1             | 2                  |
| Yukon and Northwest Territories..... | 12               | 2                | 4            | 6           | -            | -             | -             | -                  |

**Hotels Classified According to Amount of Annual Receipts.**—Of the 4,844 full-year hotels there were 3,356 licensed to sell alcoholic beverages and 1,488 which were not. The 3,356 licensed hotels had total annual receipts of \$127,799,800 of which amount \$78,025,000 or approximately 61 per cent represented the sale of alcoholic beverages while the remainder or \$49,774,800 represented receipts from room rentals, the sale of meals and other sources.

Of the 3,356 licensed hotels there were 467 each having total annual receipts of less than \$5,000 and these, while forming 14 per cent of the total number of hotels, accounted for only 1 per cent of the total receipts. At the other end of the scale there were 51 hotels each with annual receipts of \$200,000 or more and these, while forming less than 2 per cent of the total number, accounted for 22 per cent of the total volume of business.

The proportion of alcoholic beverage receipts to total receipts was fairly constant at between 70 and 80 per cent for each of the four smaller size categories. Above this size the proportion is smaller, dropping to 61.2 per cent for hotels in the \$100,000 to \$199,999 bracket and then falling off sharply to 22.7 per cent for the group of 51 hotels each with an annual business of \$200,000 or over.

A classification by size of business of the 1,488 full-year non-licensed hotels shows that 1,027 or 69 per cent had annual receipts of less than \$5,000 each and these accounted for 12.5 per cent of the total business. There were 7 large non-licensed hotels, each with annual receipts of \$200,000 or more and these transacted almost 24 per cent of the total annual business for the group. Average receipts per hotel were \$8,611 for the 1,488 non-licensed hotels compared with \$38,081 for the 3,356 licensed premises.

### Part-Year Hotels

In addition to the hotels which were in operation throughout the census year, reports were secured from 802 hotels which indicated that they operated only during certain months, generally from May to September. These hotels had total receipts of \$6,875,829, of which receipts from the rental of rooms and the sale of meals amounted to \$5,313,799, or 77 per cent, beer or wine sales were \$670,633 or 10 per cent while miscellaneous receipts made up the other 13 per cent.

A total of 7,998 paid employees were used in these seasonal hotels to whom \$1,799,323 was paid in salaries and wages. In addition, there were 544 proprietors of unincorporated companies engaged in seasonal hotel management.

A classification of the 802 part-year hotels according to number of guest rooms shows 389 hotels with 10 rooms or less. At the other end of the scale there was one large part-year hotel having more than 500 rooms. The distribution of the 802 part-year hotels by provinces and according to number of guest rooms provided is presented in the following table.

NUMBER OF PART-YEAR HOTELS CLASSIFIED ACCORDING TO NUMBER OF ROOMS, BY PROVINCES, 1941.

| Province   | Total All Hotels | 10 Rooms or Less | 11-25 Rooms | 26-50 Rooms | 51-100 Rooms | 101-200 Rooms | 201-500 Rooms | 501 Rooms and Over |

| New Brunswick.....                                     | 24               | 14               | 5           | 3           | 1            | -             | 1             | -                  |
| Quebec.....  | 322              | 168              | 102         | 40          | 8            | 3             | 1             | -                  |
| Ontario.....   | 307              | 119              | 105         | 63          | 15           | 4             | 1             | -                  |
| Manitoba.....  | 3                | 2                | -           | 1           | -            | -             | -             | -                  |
| Saskatchewan.....                                      | 17               | 9                | 6           | 2           | -            | -             | -             | -                  |
| Alberta.....   | 19               | 6                | 7           | 1           | 2            | -             | 2             | 1                  |
| British Columbia, Yukon and Northwest Territories..... | 51               | 29               | 19          | 2           | 1            | -             | -             | -                  |

Of the 802 part-year hotels operating in the calendar year 1941, 115 were licensed to sell alcoholic beverages and 687 were not. The 115 licensed hotels had total annual receipts of \$3,301,600 or \$28,710 per establishment while the 687 non-licensed hotels had total annual receipts of \$3,574,200 or an average of \$5,203 each. The numbers of licensed and non-licensed part-year hotels together with the volume of business transacted is shown for the various regions in the following table.

PART-YEAR HOTELS CLASSIFIED AS BETWEEN LICENSED AND NON-LICENSED, BY REGIONS, 1941.

(1) Includes Yukon and Northwest Territories.

When classified according to volume of annual business it is found that of the 802 hotels there were 532 each of which had annual receipts of less than \$5,000. There were 203 establishments each with annual receipts of from \$5,000 to \$19,999; 48 hotels with receipts of from \$20,000 to \$49,999 and 19 hotels each with annual receipts of \$50,000 or more. These 19 larger establishments, while forming less than 3 per cent of the total number of seasonal hotels, accounted for almost 40 per cent of the total annual receipts for the group.

## STATISTIQUES HÔTELIÈRES DU CANADA, 1941

La présente section du Volume XI contient les données du recensement des hôtels effectué relativement au Recensement des établissements de commerce et de service pour 1941. Ainsi que d'autres phases de ce recensement, le relevé des hôtels a été effectué par la poste, et la liste d'adresse principale à cette fin a été dressée par les énumérateurs du recensement de la population en juin 1941. Cette liste a été complétée par des renseignements obtenus de certains gouvernements provinciaux et renferme le nom et l'adresse des hôtels et auberges ayant une licence pour la vente des boissons alcooliques.

Le recensement des hôtels de 1941 est le deuxième du genre à être effectué au Canada; un travail de même nature a été fait pour l'année 1930 comme partie du Recensement décennal de 1931. Dans les deux cas, le recensement comprenait les hôtels qui sont exploités pendant toute l'année et ceux qui le sont à un régime saisonnier. Il n'a pas été tenu compte, toutefois, des maisons de rapport, des maisons de pension, des clubs, des camps ou des auberges de tourisme pourvus par le Y.M.C.A. ou le Y.W.C.A.

Ce relevé comprend les hôtels exploités d'après le mode européen, le mode américain ou les deux. Un certain nombre d'hôtels n'étaient pas en mesure de fournir des données sur la vente des repas par opposition à la location des chambres. Dans les cas de ce genre, un calcul estimatif a été effectué sur la base des proportions des locations de chambres et des recettes provenant de la vente de repas telles que déclarées par les hôtels en mesure de fournir des chiffres séparés.

Les boissons alcooliques étaient vendues en 1930 dans les hôtels des provinces de Québec, du Manitoba, de l'Alberta et de la Colombie Britannique. Vers 1941, la vente de ces boissons dans les hôtels s'était étendue à toutes les provinces à l'exception des Provinces Maritimes. Entre les deux recensements, l'introduction de ce commerce explique en grande partie l'augmentation sensible des recettes totales des hôtels, qui s'est produite dans l'Ontario et la Saskatchewan entre 1930 et 1941.

Y compris les deux modes d'exploitation mentionnés plus haut, il y a au Canada en 1941, 5,646 hôtels dont les recettes totales pour cette année-là sont de \$147,488,156, dont \$78,695,770 ou 53 p.c. représentent la vente de boissons alcooliques, \$57,706,350 ou 39 p.c. découlent de la vente de repas ou de la location de chambres, et \$11,086,036 proviennent d'autres sources. Ces hôtels requièrent les services de 46,002 employés rémunérés, dont 25,277 hommes et 20,725 femmes touchant \$31,736,551 en salaires et gages. En outre, il y a 4,606 propriétaires de compagnies non incorporées qui consacrent la majeure partie de leur temps à la gestion hôtelière. Ce total comprend 2,601 propriétaires qui déclarent ne pas toucher de salaire fixe à titre de compensation pour leurs services, et 2,005 propriétaires qui déclarent toucher des salaires pour un total de \$3,852,708.

### Hôtels ouverts à l'année

Il y a 4,844 hôtels exploités toute l'année ayant des recettes totales annuelles de \$140,612,327 en 1941, soit une augmentation de 68 p.c. sur le chiffre d'affaires de 4,176 hôtels en 1930, la seule autre année sur laquelle il existe des statistiques comparables.

Au Nouveau-Brunswick, les recettes hôtelières accusent un léger fléchissement en 1941 par comparaison à la période précédente, tandis que toutes les autres provinces signalent des augmentations, et le pourcentage des gains sur 1930 dans les recettes totales découlant de toutes sources est le suivant: Ile du Prince-Edouard, 11 p.c.; Nouvelle-Ecosse, 34 p.c.; Québec, 10 p.c.; Ontario, 194 p.c.; Manitoba, 12 p.c.; Saskatchewan, 117 p.c.; Alberta, 23 p.c.; et Colombie Britannique, 31 p.c. L'augmentation marquée dans l'Ontario et la Saskatchewan est attribuée à l'inclusion des recettes découlant de la vente de la bière ou du vin en 1941 seulement. En 1930, ces hôtels n'étaient pas autorisés à vendre de la bière ou du vin.

Les 4,844 hôtels ouverts à l'année comptent 112,374 chambres d'hôtes, et hébergent en outre 5,389 personnes dans d'autres locaux que l'hôtel proprement dit (cabines, etc.). Les employés sont au nombre de 38,004 dont 22,039 hommes et 15,965 femmes, tandis que les salaires et gages payés pendant l'année s'élèvent à \$29,937,228. Il y a en outre 4,062 propriétaires qui consacrent la majeure partie de leur temps à la gestion hôtelière.

Les recettes totales de ces hôtels, soit \$140,612,327, proviennent de la vente de boissons alcooliques, \$78,025,137; la location de chambres, \$30,702,106; vente de repas, \$21,690,445; vente de tabac, \$5,575,492; et recettes diverses, \$4,619,147. Ce dernier chiffre comprend les loyers touchés pour l'usage de locaux loués dans les hôtels, mais non pas le chiffre d'affaires réalisé par ces locaux. Il a été reçu des rapports séparés des exploitants de ces locaux; ils ont été consignés à la section du commerce de détail ou de service du recensement du commerce.

**Hôtels classifiés selon le nombre de chambres.**—Une classification des 4,844 hôtels qui sont ouverts toute l'année, selon le nombre de chambres pour clients, montre que 1,939 hôtels ou 40 p.c. du total ont chacun 10 chambres ou moins; 1,755 hôtels de 11 à 25 chambres; 776 hôtels, de 26 à 50 chambres et 280 hôtels, de 51 à 100 chambres. Seulement 94 hôtels ont plus de 100 chambres et de ce nombre 69 ont de 101 à 200 chambres; 15, de 201 à 500 chambres et 10, plus de 500 chambres. Le tableau suivant montre la distribution des hôtels dans les diverses provinces selon le nombre de chambres de voyageurs.

**Hôtels classifiés selon les recettes annuelles.**—Des 4,844 hôtels ouverts toute l'année, 3,356 ont un permis pour la vente de boissons alcooliques et 1,488 n'en ont pas. Les 3,356 hôtels avec permis ont des recettes annuelles de \$127,799,800, dont un montant de \$78,025,000 ou environ 61 p.c. provient de la vente de boissons alcooliques, tandis que la balance ou \$49,774,800 représente les recettes provenant de la location des chambres, de la vente de repas et d'autres sources.

Des 3,356 hôtels avec permis il y en a 467 dont les recettes annuelles globales de chacun sont de moins de \$5,000 et ceux-ci, bien que formant 14 p.c. du nombre total d'hôtels, ne contribuent que 1 p.c. des recettes globales. Dans le groupe opposé, il y a 51 hôtels dont les recettes annuelles de chacun sont de \$200,000 ou plus et ces hôtels, bien que formant moins de 2 p.c. du nombre total, contribuent 22 p.c. du chiffre d'affaires global.

La proportion des recettes découlant des boissons alcooliques par rapport aux recettes globales est assez constante et se maintient entre 70 et 80 p.c. pour chacune des quatre catégories d'hôtels de moindre importance. Pour les autres groupes la proportion est plus faible, baissant à 61.2 p.c. pour les hôtels dont les recettes sont de \$100,000 à \$199,999 et tombant brusquement à 22.7 p.c. pour le groupe des 51 hôtels dont le chiffre d'affaires est de \$200,000 ou plus.

Un classement selon le chiffre d'affaires des 1,488 hôtels ouverts toute l'année, mais sans permis pour la vente de boissons alcooliques, révèle que 1,027 hôtels ou 69 p.c. ont des recettes annuelles de moins de \$5,000 chacun et qu'ils contribuent 12.5 p.c. du chiffre d'affaires global. Il y a 7 grands hôtels sans permis, dont les recettes annuelles de chacun sont de \$200,000 ou plus et ceux-ci contribuent près de 24 p.c. du chiffre d'affaires global pour ce groupe. Les recettes moyennes par hôtel sont de \$8,611 pour les 1,488 hôtels sans permis comparativement à \$38,081 pour les 3,356 établissements avec permis.

## Hôtels ouverts une partie de l'année

En plus des hôtels qui sont exploités pendant toute l'année du recensement, des rapports ont été obtenus des 802 hôtels qui déclarent n'être ouverts que pendant certains mois, en général, de mai à septembre. Les recettes totales de ces hôtels sont de \$6,875,829, dont \$5,313,799 ou 77 p.e., proviennent de la location de chambres et de la vente de repas, \$670,633 ou 10 p.e. de la vente de bière ou de vin, tandis que les 13 p.e. restant proviennent d'item divers.

Un total de 7,998 personnes rémunérées sont employées dans ces hôtels saisonniers; il leur est versé \$1,799,323 en salaires et gages. En outre, 544 propriétaires de compagnies non incorporées sont engagés dans la gestion d'hôtels saisonniers.

Un classement des 802 hôtels ouverts une partie de l'année seulement, d'après le nombre de chambres de voyageurs, donne 389 hôtels avec 10 chambres ou moins. A l'opposé il y a un grand hôtel de ce groupe avec plus de 500 chambres. La distribution des 802 hôtels ouverts une partie de l'année seulement, par province, et selon le nombre de chambres de voyageurs, paraît dans le tableau suivant.

| Colombie Britannique et Territoires du Nord-Ouest..... | 51               | 29                   | 19             | 2              | 1               | -                | -                | -                    |

Des 802 hôtels ouverts une partie de l'année en exploitation au cours de l'année civile 1941, 115 avaient un permis pour la vente de boissons alcooliques et 687 n'en avaient pas. Les 115 hôtels avec permis enregistrent des recettes annuelles de \$3,301,600 ou \$28,710 par établissement, tandis que les 687 hôtels sans permis accusent des recettes de \$3,574,200 ou une moyenne de \$5,203 par hôtel. Le tableau suivant montre, pour les diverses régions, le nombre d'hôtels ouverts une partie de l'année seulement, avec ou sans permis de même que le chiffre d'affaires.

(1) Y compris le Yukon et les Territoires du Nord-Ouest.

Si ces hôtels sont classés selon le chiffre d'affaires annuel il est constaté que des 802 hôtels, 532 ont des recettes annuelles individuelles de moins de \$5,000. Il y a 203 établissements dont les recettes annuelles de chacun sont de \$5,000 à \$19,999; 48, dont les recettes sont de \$20,000 à \$49,999 et 19, dont elles sont de \$50,000 ou plus. Ces 19 plus grands hôtels, bien que formant moins de 3 p.e. du nombre total d'hôtels saisonniers, contribuent près de 40 p.e. des recettes annuelles globales pour le groupe.

## STATISTICS OF SALES FINANCE COMPANIES IN CANADA

This section of Volume XI presents the results of a survey of the operations of finance companies taken in conjunction with the Census of Merchandising and Service Establishments for 1941. Reports were obtained by mail from all financial institutions engaged in the purchase or discounting of notes receivable arising from instalment sales of motor vehicles or other consumer goods, or of industrial and commercial equipment.

In compiling the results, a distinction was made between wholesale and retail financing. Wholesale financing covers transactions between manufacturers and distributors or dealers which enable the latter to accept shipments of stocks for resale. Those transactions which facilitate the transfer of goods from distributors and dealers into the hands of consumers were classified as retail financing. It should be pointed out that the activities of banks in the sales financing field are not included in the results. Small loan companies, whose chief activity consists in advancing personal loans secured by the pledge of merchandise already possessed by the borrower, did not come within the scope of this survey. However, these small loan companies did report loans advanced for purchasing merchandise when the merchandise itself was offered as security on the loan.

Reports were received from 90 firms which operated a total of 184 offices in Canada. The total volume of instalment paper purchased or discounted amounted to \$211,240,083 in 1941, while balances outstanding at the end of the year totalled \$87,030,724. In addition to the deferred portion of the purchase price of the merchandise, the amount reported as purchased or discounted generally included finance charges and insurance. The same interpretation must be placed upon the year-end holdings. There were 692 male and 595 female employees who received \$2,328,495 in salaries and wages during the year under review.

The 90 firms reported were comprised of 47 companies engaged in retail financing only, 3 engaged in wholesale financing only and 40 which were engaged in both retail and wholesale financing. Operations of 47 firms were confined to financing of motor vehicles only. Diversified financing (other than motor vehicles) was carried on by 6 firms, while 37 companies reported that they were active in financing both motor vehicles and other merchandise.

Answers to an inquiry regarding date of organization in Canada indicate that the greatest number of entries into the financing field took place in the two five-year periods between 1925 and 1929 and between 1935 and 1939. Of the 82 firms which reported the year in which they commenced business, there were 25 reported as opening between 1925 and 1929 and another 21 between 1935 and 1939. Six firms indicated that they were in business prior to 1910 while 18 firms opened up between 1910 and 1924.

### Retail Financing

Purchases of retail instalment paper totalled \$100,276,962 in 1941, of which 77.1 per cent represented consumers' goods and 22.9 per cent represented commercial or industrial equipment. In the consumers' goods field, there were 29,037 new passenger cars financed for \$23,321,463 or 30.2 per cent of the total volume of financing of all consumers' goods. The financing of used motor vehicle sales occupied a much larger place. There were 127,648 used passenger cars financed for \$44,009,194, an amount which formed 56.9 per cent of the total consumers' goods financing and 43.9 per cent of the total retail financing, including both consumers' and industrial goods. Radio sets numbering 24,995 were financed for \$1,951,498; financing of electrical and gas household appliances totalled \$5,161,092 while financing of other consumers' goods such as furniture and jewellery amounted to \$2,882,278.

New commercial vehicles accounted for one-half of the total volume of financing of commercial and industrial goods. There were 12,023 new commercial vehicles financed for \$11,548,080

in 1941 and another 15,414 used commercial vehicles financed for \$6,779,504. There were 1,821 new tractors whose purchases were financed for \$1,261,196 and 276 used tractors financed for \$109,755. Financing of other commercial or industrial goods totalled \$3,252,902.

Balances outstanding on retail instalment paper at the end of 1941 totalled \$64,674,342 or approximately 64 per cent of the annual volume of retail paper purchased. Balances on new and used passenger cars together amounted to \$41,573,072 or 62 per cent of the volume of passenger car paper purchased; outstandings on other consumers' goods totalled \$7,281,025 or 73 per cent of the corresponding amount of financing, while year-end holdings on commercial or industrial equipment totalled \$15,820,245 which was 69 per cent of the financed dollar volume.

Each firm was asked to classify its retail purchases according to province of origin of the business involved. The results thus secured indicate that Ontario accounted for 48.0 per cent of the total volume of business transacted followed by Quebec with 16.1 per cent. Corresponding percentages for other provinces are as follows: British Columbia, 9.5 per cent; Alberta, 8.9 per cent; Maritime Provinces, 6.6 per cent; Saskatchewan, 5.8 per cent; and Manitoba, 5.1 per cent. Separate figures for each of the three Maritime Provinces are not available.

### Wholesale Financing

Wholesale financing is the term applied to the extension of credit by a finance company to a dealer for the purpose of financing stock to be held for sale as distinguished from the financing of consumers' goods for immediate use. As previously stated, 43 companies reported themselves as being engaged at least to some extent in wholesale financing, the total value of paper purchased amounting to \$110,963,121, while balances outstanding at the end of the year amounted to \$22,356,382. The financing of passenger cars occupies a leading position in the wholesale financing field, 101,681 new or used passenger cars being financed for \$91,576,537 or 82.5 per cent of the total volume of wholesale financing reported. Other consumers' goods financed on a wholesale basis amounted to \$1,178,047. Wholesale financing of trucks, tractors, trailers and farm implements amounted to \$17,692,749, while financing of other commercial and industrial goods amounted to another \$515,788.

### Repossessions

The schedule used in this survey of finance companies asked that each firm report the number of repossessions of motor vehicles during the year broken down into categories depending upon the proportion of the contract value paid when the repossession took place.

Only a limited number of firms were able to supply this information so that details regarding the total number of repossessions made in 1941 are lacking. The following results are based on reports from six firms which were able to give the information in the form requested. These six firms accounted for approximately 38 per cent of the total volume of financing in the case of both new and used passenger models. In the commercial vehicle field they accounted for 48 per cent of the total business.

The six firms included in the sample reported 233 new passenger cars repossessed in 1941, of which 60 per cent were repossessed before one-quarter of the contract price was paid, 24 per cent when between one-quarter and one-half of the contract price was paid, 13 per cent when between one-half and three-quarters was paid, and only 3 per cent when over three-quarters of the contracts had been paid off.

Repossessions of used passenger cars were much more numerous at 4,452, of which 62 per cent took place before one-quarter of the contract had been fulfilled. Repossessions of new commercial vehicles during the year numbered 210 while for used commercial vehicles the number was 968. Further details are shown in the attached tables.

## STATISTIQUES DES COMPAGNIES QUI FINANÇENT LES VENTES AU CANADA

Cette section du Volume XI présente les résultats d'un relevé des opérations des compagnies de finance fait conjointement avec le recensement des établissements de commerce et de service, 1941. Des rapports ont été reçus par la poste de toutes les institutions financières engagées dans l'achat ou l'escompte de billets à recevoir découlant de ventes à tempérament de véhicules-moteur ou autres denrées de consommateurs, ou d'outillage industriel et commercial.

Une distinction a été faite, dans le calcul des résultats, entre le financement des ventes de gros et celui des ventes de détail. Le financement des ventes de gros couvre les transactions entre les manufacturiers et les distributeurs ou les vendeurs, qui permet à ces derniers d'accepter la livraison de marchandises pour revente. Les opérations qui facilitent le transfert de marchandises des mains de distributeurs ou vendeurs à celles des consommateurs sont classées comme financement de détail. A remarquer que les résultats ne comprennent pas les opérations bancaires dans le domaine du financement des ventes. Ce relevé ne s'étend pas non plus aux compagnies de menus prêts dont la principale activité consiste en des prêts personnels garantis par des marchandises déjà en possession de l'emprunteur. Cependant, ces compagnies de menus prêts ont déclaré les prêts consentis pour l'achat de marchandises quand celles-ci étaient offertes en garantie.

Des rapports ont été reçus de 90 établissements comptant 184 bureaux au Canada. Le volume total des papiers de vente à tempérament achetés ou escomptés s'élève à \$211,240,083 en 1941, tandis que le solde à la fin de l'année en est de \$87,030,724. En plus de la portion différée du prix d'achat de l'article, le montant déclaré comme acheté ou escompté comprend généralement les frais de financement et l'assurance. Le montant en fin d'année devait aussi comprendre les frais de financement et l'assurance. Ces compagnies ont employé au cours de l'année 692 hommes et 595 femmes qui ont reçu \$2,328,495 en salaires et gages.

Des 90 établissements qui ont fait rapport, 47 étaient engagés dans le financement des ventes de détail seulement, 3 dans le financement des ventes de gros seulement et 40 dans le financement des ventes de gros et des ventes de détail. Quarante-sept compagnies s'occupaient exclusivement du financement des ventes de véhicules-moteur, 6 du financement de diverses marchandises (autres que les véhicules-moteur) et 37 du financement des ventes de véhicules-moteur et autres marchandises.

Le domaine du financement a attiré le plus grand nombre de compagnies au cours des deux périodes quinquennales de 1925-1929 et de 1935-1939, d'après les réponses données à une question concernant la date d'organisation de ces compagnies. Des 82 établissements qui ont déclaré l'année où ils ont débuté dans ce genre d'affaires, 25 ont déclaré entre 1925 et 1929, et 21 entre 1935 et 1939. Six compagnies ont déclaré avoir été en affaires avant 1910, tandis que 18 ont débuté entre 1910 et 1924.

### Financement des ventes de détail

Les achats de papiers de vente de détail à tempérament atteignent \$100,276,962 en 1941 dont 77.1 pour-cent représente des articles de consommateurs et 22.9 pour-cent, de l'outillage commercial ou industriel. Dans le domaine des articles de consommateurs, 29,037 automobiles de tourisme ont été financées pour \$23,321,463, ou 30.2 pour-cent du volume total de financement pour tous les articles de consommateurs. Le financement des ventes de véhicules-moteur usagés prend aussi plus d'importance. Un total de 127,648 automobiles de tourisme usagées a été financé pour un montant de \$44,009,194, soit 56.9 pour-cent du financement global des articles de consommateurs et, 43.9 pour-cent du financement total des ventes de détail, y compris les articles de consommateurs et l'outillage industriel. Le financement des appareils de radio s'étend à 24,995 unités pour un montant de \$1,951,498; celui des appareils de ménage, au gaz ou à l'électricité, s'élève à \$5,161,092, tandis que le financement d'autres articles de ménage, comme les meubles et la bijouterie, atteint \$2,882,278.

Les voitures commerciales neuves forment la moitié du financement total des articles commerciaux et industriels. En 1941, le financement couvre 12,023 voitures commerciales neuves pour un montant de \$11,548,080, et 15,414 voitures commerciales usagées pour \$6,779,504. Les achats de 1,821 tracteurs neufs ont été financés pour un montant de \$1,261,196, et 276 tracteurs usagés pour \$109,755. Le financement d'autres articles commerciaux ou industriels s'élève à \$3,252,902.

Le solde sur papiers de vente de détail à tempérament à la fin de 1941 s'élève à \$64,674,342 ou environ 64 pour-cent du volume annuel des achats de papiers de vente de détail. Le solde sur les automobiles neuves et usagées atteint \$41,573,072 ou 62 pour-cent du volume des achats de papiers sur automobiles de tourisme; le solde sur autres articles de consommateurs s'élève à \$7,281,025 ou 73 pour-cent du montant correspondant de financement, tandis que le solde à la fin de l'année sur l'outillage commercial ou industriel se chiffre à \$15,820,245 soit 69 pour-cent du volume-dollars de financement.

Il a été demandé à chaque établissement de classer ses achats d'après la province d'origine de la transaction. Les résultats indiquent que l'Ontario contribue 48.0 pour-cent du volume global des affaires, suivi du Québec avec 16.1 pour-cent. Les pourcentages correspondants pour les autres provinces sont les suivants: Colombie Britannique, 9.5 pour-cent; Alberta, 8.9 pour-cent; Provinces Maritimes, 6.6 pour-cent; Saskatchewan, 5.8 pour-cent; et Manitoba, 5.1 pour-cent. Des données séparées pour chacune des trois Provinces Maritimes ne sont pas disponibles.

#### Financement des ventes de gros

Le financement des ventes de gros est le terme appliqué au crédit accordé par une compagnie de finance à un vendeur pour lui permettre l'achat de marchandises pour la revente, contrairement au financement d'articles de consommateurs pour utilisation immédiate. Tel qu'indiqué précédemment, 43 compagnies ont déclaré être engagées, du moins dans une certaine mesure, dans le financement des ventes de gros. La valeur totale de papiers achetés s'élève à \$110,963,121, tandis que le solde à la fin de l'année est de \$22,356,382. Le financement des voitures de tourisme occupe une position de premier plan dans le domaine du financement des ventes de gros, 101,681 automobiles de tourisme, neuves ou usagées, ayant été financées pour un montant de \$91,576,537, soit 82.5 pour-cent du volume total de financement de gros. Les autres articles de consommateurs, financés sur une base de gros, atteignent \$1,178,047. Le financement des ventes de gros de camions, tracteurs, remorques et outillage agricole, s'élève à \$17,692,749, tandis que le financement d'autres articles commerciaux et industriels atteint \$515,788.

#### Reprises d'articles

Le questionnaire utilisé dans ce relevé des compagnies de finance demande que chaque établissement déclare le nombre de véhicules-moteur repris au cours de l'année, par catégorie, selon la proportion de la valeur contractuelle payée quand la reprise a eu lieu.

Un nombre limité seulement d'établissements ont pu fournir ces renseignements, de sorte que les détails manquent sur le nombre total de reprises en 1941. Les résultats suivants sont fondés sur les rapports de six établissements qui ont pu fournir les renseignements demandés. Ces six établissements absorbent environ 38 pour-cent du volume total de financement des voitures de tourisme neuves et usagées, et 48 pour-cent des véhicules commerciaux.

Les six établissements compris dans l'échantillon déclarent que 233 automobiles de tourisme neuves ont été reprises en 1941, dont 60 pour-cent avant qu'un quart du prix contractuel ait été payé, 24 pour-cent alors qu'entre un quart et une demie du prix contractuel avait été payé, 13 pour-cent alors qu'entre une demie et trois quarts avait été payé, et seulement 3 pour-cent alors que plus des trois quarts avaient été payés.

Les reprises de voitures de tourisme usagées ont été beaucoup plus nombreuses et s'élèvent à 4,452, dont 62 pour-cent avant qu'un quart de la valeur contractuelle ait été payé. Les reprises de voitures commerciales neuves atteignent 210 au cours de l'année, tandis que celles de voitures commerciales usagées s'élèvent à 968. De plus amples détails sont donnés dans les tableaux qui suivent.
